her eves. At four o'clock Matilda Springer called Budd. He went out and hitched up the two horses to the old democrat wagon and removed the back seat. He knew he would have to sit on the bottom of the vehicle coming back from the station, for Jim would be on the front seat with his mother, and there would have to be room behind for the baggage. Budd thought of all the implements of war that would be loaded into that wagon and wondered if Jim would give him his gun and

canteen. He led the horses up to the back porch and called to his mother. She me out dressed in a brown poplin, and on her wavy gray hair rested her best bonnet, a little affair of jet with violets on one side and strings to tie under the chin. Around her shoul-"I - I can't hardly wait," she said,

Budd helped her into the wagon across the old wooden bridge with one hand holding the reins, for she clasped the other. HELPS FOR HOUSEWIVES.

Shrinking Woolen Goods. All-wool cloth for dresses or any other purpose of clothing should be short note, scrawled on a bit of wrap- shrunk before it is made up. The easiest way to shrink it is to lay cotton cloths wrung out in cold water be-United States and encamped some- tween the folds of the wool cloth, and roll the whole tightly. Leave it in a cool place over night, and in the morning take out the damp cotton and press the wool cloth dry on the wrong side. Be careful, however, not to press out the cloth.

> Good Homemade Cement Equal parts of litharge and glycerine mixed together to the consistency of putty make a good cement for mending almost everything breakable about the kitchen. This cement will mend stone jars or any coarse earthenware, stop leaks in tin pans or washboilers and cracks in iron kettles. When lamp tops are loose they can be fastened on the lamp with it, and it will also tighten loose nuts or bolts where the nuts have been lost. Properly mixed, the cement will resist the action of hot and cold water, acids and almost any degree of heat. Of course, care should be taken to see that it is perfectly dry and hard before the article mended is used; it sometimes takes a week for the cement to barden, and at other times only a day. This depends upon the amount of cement used and the state of the weather for drying purposes.

CHESTNUT GROWING.

Experiments With Japanese and European Trees That Promise Well. Systematic chestnut growing promses to be an important industry in this country. It is now about a century since the emigre ancestor of the powder-making Du Ponts imported from his native France some varieties of the European chestnut. He lived on the banks of the Brandywine, near Wilmington, Del., and thence distributed European chestnuts to his friends and to others interested in tree culture. To this day there are more European chestauts in the region within 100 miles of Philadelphia than any-

where else in the country. It was quite three-quarters of a century after Du Pont's importation of European chestnuts that Japanese chestauts began to attract attention n this country, and again the region about Philadelphia became the centre of interest. Probably the largest grove of Japanese chestnuts in America is situated near Clemington, N. J., Apples, Greenings, W bbl., 200 @ 250 eighteen miles from Philadelphia. Here a tract of land 500 acres in area is given over to the culture of these trees. The tract was originally a forest of native American chestnut trees. They were all cut down, and after the young shoots from the roots of the felled trees had grown two years they Cranberries, Cape Cod, ₹bbl 300 @ 500 were grafted with the Japanese chestnut. In from two to three years the grafted trees began to bear, and at the end of ten years they were vielding as much as ten bushels of chestnuts to a tree. The orchard, if such it may be called, is crudely cultivated with a rough harrow, and the fallen leaves are permitted to rot and enrich the ground.

> chestuats are vastly larger than the native American chestnuts, but by no neans so sweet in the raw state. When cooked, however, they are very palatable. They are used not only for the enlivenment of Hallowe'en parties, but also for the Thanksgiving tarkey, and boiled as an ordinary vegetable. The Italians in this country convert them into meal, from which they make a rich and nourishing cake. The Japanese chestants ripen about the middle of September; the European chestnut two or three weeks later. When the former first come into the market they fetch from \$10 to \$14 a bushel. When the European chestnuts come into market the price falls to \$6 or \$8 a bushel, and at the height of the season the native American chestnuts fetch only \$3 or \$4 a bushel, in spite of their excellent flavor. The higher price of the foreign

Queen Victoria's Narrow Escape.

A ferryboat was capelzed a few days ago while crossing the Indus at Mittun-Kote, a town of the Punjaub, India, on the west bank of the river, and 100 of the passengers member of the Spanish Senate.

"Aim straight!" he cried. "Don't get rattled, boys! Those devils can't get us!"

When a bail touched his hat and knocked it from his head, he laughed and said. "Try again." The soldiers cheered him in the thick of the fight.

Corporal Nettlekoven, the sharpshooter, had several opportunities to display his skill. He killed two Indians at 2000 yards distance with balls from his Krag-Jorgensen rifle. Both the red men were distinctly seen to stagger and collapse after he had aimed at them and fired.

The battle of Leech Lake has developed more than one hero. General Bacon, Major Wilkinson, Lieutenant Ross, Sergeant Harris, Hospital Steward Buckhart, Sergeant Butler, Frank Briggs and Captain Sheehan are all deserving of medals of honor—the three former for the gallant manner in which they assert to have been treated by the United States officers here-tofore. They talk a story of the alleged mistreatment of Chief Bog-Ah-Me-Ge-Shirks at Duluth, when, it is said, he was turned adrift by the officials and compelled to walk home after being taken there as a witness.

They also recite the story of six young men, two of them Bog-Ah-Me-Shirks's sons, who were taken to Dujuth a year ago on

three former for the galiant manner in which they led the troops; the fourth for his inattention to his wounds when builets were flying about his head, and his apparent indifference to them; the fifth for volunteering to carry messages across the firing line knew nothing, and were compelled to walk from Lieutenant Boss to General Bacon back after they were discharged. and losing his life in an effort to rejoin his men, and the sixth for bravery displayed on several occasions.

These misdeeds on the part of the officers, it is said, have made the Indians suspicious and made them decide that they

The spread of fever in the southeastern part of the State has caused a railroad to totally abandon business. The Gulf and Ship Island, wholly interstate, has taken

off all freight and passenger trains. The THE END OF CAMP WIKOFF. Orders Direct That All Troops Shall Leave

There Without Delay. Washington, D. C. (Special), -The following self-explanatory telegraphic orders were issued by the War Department: Commanding General, Camp Wikoff,

Montauk Point, Long Island, N. Y. By direction of the Secretary of War the Seventh United States Infantry is relieved from duty at Camp Wikoff, and will proceed to the Department of the Lakes, taking station, headquarters at Fort Wavn as many companies as can be comfortable sheltered at Forts Wayne and Brady, Mich., and the remaining companies to be as-signed to stations, by the commanding whom the regimental commander will report by telegraph prior to departure. Quartermaster's Department will furnish necessary transportation; subsistence de partment suitable travel rations, and medical department proper provisions for medical supplies and attendants. Commanding fficer to report departure and arrival to Adjutant-General of the army.

By command of MAJOR-GENERAL MILES, H. C. Consin, Adjutant-General With the carrying into effect of this order, Camp Wikoff to all intents and purposes will have passed into history as a military encampment.

Joseph Simon, of Portland, Oregon, has been elected United States Senator by the Oregon Legislature in joint session, receiving the full Republican vote. The vote was: Simon, 64; Kincaid, 23; Dennew, 2; absent 1. Joseph Simon was born in Germany, but came to this country in 1851 with his parents when eighteen months Joseph attended the public schools until he was fourteen. In 1877 he was elected to the City Council of Portland. He has served in the State Senate for twelve years. He framed and secured the adeption of many important measures.
