LAUGHING FACES.

Usually belong to women with pretty faces. A woman with a good set of teeth wart afraid to show them. It is possible for every women to have good teeth. Money and pain used to stand in the way, but they do so no longer. People now-a-days think no more of having their teeth attended to than they do of having a button sewed on a garment. Whatever state your teeth may be in we will make them strong healthy and good looking. We will do it carefully and reasonably.

# Locomotor Ataxia & Paralysis

These extreme nervous disorders were treated with wonderful success by the discoverer of Dr. Williams' Pink Pills for Pale People, previous to his discovery being offered to the public generally. This remedy is the only known specific in many diseases that until recent years, were pronounced incurable. Here is the proof:

James Crocket, a sturdy old Scotchman living in Detroit, Mich, at 88 Monttealm St., was cured of Locomotor Ataxia by these pills. For many years he has been a chief engineer of one of those big passenger palace steamers plying upon the great lakes. This is a position of great responsibility and the anxiety causes a great nervous strain. Mr. Crocket says: "For fifteen years I watched the hig engines and boilers without a single accident, and only noticed that I was getting nervous. Suddenly without warning I was taken sick, and was prostrated. I had the best of physicians but grew gradually worse. At a council of doctors, they said I had mervous prostration, and had destroyed my whole nervous system and would never recover. For three years I was unable to move from my bed. The doctor said I had iocomotor staxia, and would never be able to walk again.

The pains and suffering I experienced during those years are almost indescribable. The friends that came to see me bid me good-bye when they left me and I was given up. The doctors said nothing more could be done. My wife kept reading to me, articles about Dr. Williams' Pink Pilis for Pale People. We finally decided to try them. The first box gave me relief. I continued to use them for about two years before I could get strength enough to walk. I am nearly seventy-five years old and there is not a man in this city that can kick higher or walk further than I can and to-day I owe my present good health to Dr. Williams' Pink Pills for Pale People for they saved my life."—Detroit Eposing News.
