Elizabeth's Gift to Essex. A ring of surpassing great historical interest is the celebrated boop presented by Queen Elizabeth to the Earl of Essex, at the time when he was her favorite; she told him, should be ever come into trouble, no matter what, he should send her the ring. The occurrence when Essex was condemned to death and sent her the ring which she did not receive, is one of the most tragical on the pages of history. The ring was by Essex sent to his cousin, Lady Scrope, but the messenger handed it by mistake to the Countess of Nottingham, whose husband was one of the enemies of Essex, and the ring was never handed to the Queen. Years afterward, when the Countess was dying, she sent for the Queen, confessed her guilt and asked forgiveness. But Elizabeth was so enraged that she violently shook the dying woman, cursed her, etc., and refused her forgiveness. The ring itself is enameled blue and has a small portrait of the Queen.

LAUGHING FACES.

Usually belong to women with pretty faces. A woman with a good set of teeth isn't afraid to show them. It is possible for every woman to have good teeth. Money and pain used to stand in the way, but they do so no longer. People now-a-days think no more of having their tooth attended to than they do of having a button sewed on a garment. Whatever state your teeth may be in we will make them strong healthy and good looking. We will do it carefully and reasonably.
