LAUGHING FACES!

Usually belong to women with pretty faces. A woman with a good set of teeth isn't afraid to show them. It is possible for every woman to have good teeth. Money and pain used to stand in the way, but they do so no longer. People now-a-days think no more of having their feeth attended to than they do of having a button sewed on a garment. Whatever state your teeth may be in we will make them strong healthy and good looking. We will do it carefully and reasonably. \$5.00 A SET.
