OFHERHOOD is woman's natural destiny. Many women are denied the happiness of children through some derangement of the generative organs. Actual barrenness is rare.

STERILITY

Among the many triumphs of Lydia E. Pinkham's Vegetable _ Compound is the overcoming of cases SORROWS of supposed barrenness. This great medicine is so well calculated to regulate every function of the generative orguns that its efficiency is vouched for by multitudes of women. MRS. ED. WOLFORD, of Lone Tree,

Iowa, writes: "DEAR MRS. PINKHAM-Before taking Lydia E. Pinkham's Vegetable Compound I had one child which lived only six hours. The doctor said it did not have the proper nourishment while I was carrying it. I did not feel at all well during pregnancy. In time I conceived again, and thought I would write to you for advice.

Words cannot express the gratitude I feel towards you for the help that your medicine was to me during this time. I felt like a new person; did my work up to the last, and was sick only a short time. My baby weighed ten pounds. He is a fine boy, the joy of our home. He is now six weeks old and weighs sixteen pounds. Your medicine is certainly a boon in pregnancy." MRS. FLORA COOPER, of Doyle, S. Dak., writes:

"DEAR MRS. PINKHAM-Ever since my last child I suffered with inflammation of the womb, pains in back, left side, abdomen and groins. My head ached all the time. I could not walk across the floor without suffering intense pain. I kept getting worse, until two years ago I wrote to you

for advice, and began taking Lydia E. Pinkham's Vegetable Compound. I had not finished the first bottle before I felt better. I took four bottles, and have been strong and perfectly healthy ever since, and now have two of the nicest little girls."

PRESERVE ORDER. In regard to the entertainments there is one thing that is very displeasing to All Concerned Actively Engaged in the Work the performers, and also to those who are directing their efforts and that is the fact that, there is usually much disorder in the hall while the entertainments are in progress. This can' be avoided as well as not by giving the matter a little thought and persons will help the young people on the stage who are doing their best to entertain the public by giving them at least respectful attention, which will be very much appreciated by all processed and it is to be hoped that this

point will be borne in mind.
