A MODERNIZED STORE.

For some time past Aaron Johnson has been engaged in making extensive additions and alterations to his grocery store and now he announces in his large advertisement which will be found on page eight of this issue, that he is prepared to have the public call, inspect his work and see for themselves what a ransformation he has wrought in his fine store.

The store new stands as a model among the country stores of New Enghand and Mr. Johnson takes a pardonable pride in his work and will be pleased to show his patrons and the general public what a thoroughly upto-date and in every way modern grocery store is like.

The annex which he has built on enables him now to so place his goods that they can be seen to better advantage than ever, and to introduce new methods in his work that are sure to redound to the benefit of his customers, as well as to his employees, in the convenience with which goods are now grouped and the ving of time in serving the public. Among the notable improvements in

his store may be mentioned the handsome new refrigerator which he has now in use, It stands six feet high, is eleven feet long by four feet wide, is divided into ten different compartments in which he keeps butter, eggs. 10.75, NOW 8.75 behind glass doors where they can be 9.00, NOW 6.50 seen, and are yet free from dust, flies, 8.50 handling, etc. as well as preserved from 9.00, NOW 6.50 the heat of this summer weather. It is 11.00, NOW 9.50 a splendid equipment and is sure to be appreciated by the public.

9.00, NOW 6.50 With five teams on the road and three VERANDA CHAIRS, 3.00, NOW 2.00 clerks in the store, he is in a position 2.50, NOW 1.75 to give the public prompt and capable .98 service at his store and to these ends Mr. Johnson has made the improvements which he cordially invites the public to call and inspect.

Pin Your Faith To Our 35c. Coffee.....

Most of us are fussy about Coffee-the morning cup in particular. What is there to redeem your breakfast, if the Coffee

isn't a success? A poor cup of Coffee with the morning meal is infinitely more disastrous than getting out of the wrong side of the bed. Thing to do is to locate the fault. If it's with the cook, we must beg to be excused. If it's with the Coffee, we will come to the rescue straightway

Our 35c. Coffee will draw the praises of an epicure, Twould be hard for the most bungling of cooks to rum its flavor.

It's not a cheap Coffee-35c, a pound is enough to pay. But 35c, will not command the equal of this Coffee in any other store. We ought to get 40c, for it -we could get 40c, for it, but 35c. is the price most people pay, and we want

to catch every one. A whisf of this Coffee will make you sniff the air battlehorse fashion; it'll put a "razor edge" upon your appetite. The nectar of the gods could exhale no more exhilarating fragrance—and you'll put down all that talk about the "Prefones of Araby" as clear bosh, when the aroma of this Coffee blows your way,

We're enthusiastic, and we believe all we say. And you'll agree with us fully after you've tried the Coffee, We roast it ourselves every day. Three pounds for \$1.00.

THE ROLLS.

Boston Branch Rolls are the only Rolls you hear talked about. New Rolls come and go, but our surpassing Water Rolls, French Rolls, Salad Rolls and Tea Biscuits gain new disciples daily. 10 and 12c. dozen. Better join the order.

From the fan a length of galvanized pipe was let through one floor into the cellar. In one corner of the cellar was a cupboard, and there the detectives lifted up a trap door and discovered a tun-

Michael Redmon, a policeman, and Ferguson, the chief engineer of the prison, entered the tunnel. It was three feet high and two and a half feet wide. On hands and knees they crawled forty feet under Sterling street and reached the piling which supports the five-foot stone wall of the prison. Here the passage took an offset and for 161 feet more than two men followed it. The detectives were operating the fans upstairs, but still the foul air which had accumulated in the nearly three weeks that work had been suspended in the tunnel drove the explorers out. They could not turn around and they backed out. In the tunnel the men found a dry battery electric light. In two places they found electric push buttons and bells, which communicated with buttons and bells in the kitchen and in the parlor alongside the piano. It was plain that the woman at the piano could exchange signals with the men | in the tunnel and that the playing and singing was largely intended to drown the sound of the fan.
