Every mother possesses information of vital value to he young daughter. That daughter is a precious legacy, and the responsibility for her future is largely in the hands of the mother. The mysterious change that develops the thoughtless girl into the thoughtful woman should find the mother on the watch day and night. As she cares for the physical well-being of her daughter, so will the woman be, and her children also.

When the young girl's thoughts become sluggish, when she experiences headaches, dizziness, faintness, and exhibits an abnormal disposition to sleep, pains in the back and lower limbs, eyes dim, desire for solitude, and a dislike for the society of other girls, when she is a mystery to herself and friends, then the mother should go to her aid promptly. At such a time the greatest aid to nature is Lydia E. Pinkham's Vegetable Compound. It prepares the young system for the coming change, and is the surest reliance in

this hour of trial. The following letters from Miss Good are practical proof of Mrs. Pinkham's efficient advice to young women.

Miss Good asks Mrs. Pinkham for Help.

June 19th, 1899. "DEAR Mus. PINKHAM :-- I have been very nuch bothered for some time with my monthly periods being irregular. I will tell you all about it, and put myself in your care, for I have heard so much of you. Each month menatruation would become less and less, until it entirely stopped for six months, and now it has stopped again. I have become very ner vous and of a very bad color. I am a young girl and have always had to work very hard. I would be very much pleased if you would tell me what to do. "-Miss Prant Good, Cor. 29th Avenue and Yeslar Way, Seattle, Wash.

The Happy Result. February 10th, 1900. "DEAR MRS. PINEHAM :- I cannot praise Lydia E. Pinkham's Vegetable Compound enough. It is just simply wonderful the change your medicine has made in me. I feel like another person. I work is new a pleasure to me, while before using your medicine it was a burden. To-day I am a healthy and happy girl. I think if more women would use your Vegetable Compound there would be less suffering in the world. I cannot express the relief I have experienced by using Lydia E. for the Blood and Nerves Dr. Greene's Nervura blood and nerve remedy, is the right medicine for every young girl who

is just entering the first stage of womanhood, It prepares the system in every way to act normally. It enriches the blood supply, and keeps the nerves calm and steady. Fortified with this great medicine, all the womanly duties may be undertaken and experienced without the mightest jeopardy to health. It preserves the gifts of nature and assists their development into glowing, healthful beauty.

MRS. MARY FRANCES LYTLE, of 2 Hunter Alley, Rochester, N. Y., says: "I was very pale and delicate—had no color, ok Dr. Greene's Nervura, blood and nerve remedy, and new I am well and strong, my face is plump, and cheeks red, and my complexion pure.

MRS. WILLIAM BARTELS, 239 East 87th St., New York City, says: "Dr. Greene's Nervura made a wonderful improve-

meet in my bealth, and that dark, callow look left my-face. My friends hardly know me. I have gained flesh and am like a different person." The nervousness in women which invariably comes with pain is of itself certain to stop the development of beauty in face and figure. Ex-

cited nerves make sharp lines and hasty speech. The beautiful curves which make women so attractive are not possible when the female organism is out of order, as it surely is when discomfort and pain are always or even periodically present. It is only necessary to look in the faces of young women everywhere to see that this must be so. Else why are they so pale and thin?
