President McKinley's determination to ask Congress for an army of 100,-500 men, increased naval expenditures and prospects of the passage of the Nicaraguan Canal, Ship Subsidy and Pacific Cable bills were taken into consideration by the Republican members of the House Committee on Ways and Means when they met to consider the prob.em of reducing the war revenue

Secretary Gage was before the committee, and presented the financial condition of the Government in rather better light than had been expected. He predicted that the surplus of receipts over expenditures for the present fiscal year would amount to about \$80,000,000, this in spite of the fact hat it is only a little more than \$8,000,000 up to date. The heaviest receipts and the lightest expenditures asually fall within the latter half of

the fiscal year. All preparations for bringing home the volunteer troops now in the Philippines have been suspended pending the action of Congress with reference to the Army Reorganization bill. NDOOR BASE BALL.

The opening game of indoor base ball took place in the Armory last Tuesday ford and Company G. C. N. G., of this place. A fair sized number of spectators vere present and the male portion enjoyed the sport very much. It was not so interesting to the ladies us they do not, in the main, understand the points of the game. Play started at 8.20, with Hartford at the bat and lasted through nine-very lively innings which were played with-

time trying to keep up with the procession. The reason of this is that the bases are short, the ball cannot be knocked far, it does not bound to any extent, the players are grouped together and the ball is nearly at all times in the hands of the players. This was the first public game that the G boys ever played, and considering the fact that their opponents have been in the game for the past two years the home players made an excellent showing. G has some splendid material for indoor base ball and it only requires some practice and good coaching to put the boys in the front rank among the indoor base ball
