YOYOUK'S RAVENS,

BY GRORGE HARLOW CLARK.

Faven, Too-loo-ah, is the true chief."

Koyouk's opinion merited consideration. All that I knew and much more of the life and habits of Too-loo-ah was familiar to this 16-year-old boy of the lower Yukon. As a little child wheeling and the lower Yukon. As a little child wheeling and the lower Yukon. As a little child wheeling and the lower Yukon. As a little child wheeling accounted the most skill-slower would observe the chicken coop and you know what that is!"

HUMOROUS, some one in the village would observe the chicken coop and you know what that is!"

Well, I can't stay," went on Mme. almost any small article, such as soap, this end in view, he laid on more fuel, a book, handkerchief or candy, and should be wrapped in such a way as itself. way familiar to this 16-year-old bory of the lower Yukon. As a little child by had often listened while his mother leaded folk-lore anecdotes of its agacity and other less commendable attributes. He did not know that his found file way around the globe,—whose very existence, indeed, he did not suspence, making a graceful curve past the total file to entice them within Koyouk's reach. He longed wisifully that they might fetch a salmon and throw it to the long, dark winter night with simble long. The old birds at once took wing, and taking care not to set fire to the nest taking care not to set fire to the deceive one regarding the contents, says the New York Tribune. Absurd toys will add to the fun. Each person important toys will add to the fun. Fisch park does that m carved, weather-beaten figure of a ra- them and swung his body to and fro, would willingly have undergone a

where Koyouk lived there is one of those peculiar geological formations, an isolated finger or pillar of dark colored rock, like a druidical monolith on a cyclopean scale, which has without mishap, and securing for the column. The spur was gained without mishap, and securing for the column and though on the frost and storms of untold centuries. A similar column, although of far greater size and altitude, stands on the northwestern coast of Greenland, near Melville bay, and others exist elsewhere. From time immemorial the top of the pillar has harbored a pair of ravens. There successive generations have reared their youns.

Seener from molectation.

Where Koyouk is the else of the column. The spur was face of the column. The spur was face of the column. The spur was fail fall was too great. But hunger, thirst and anxiety united to sharpen the art of engraving, his uncle undertaking to receive him as an apprentaking to receive him as an apprentak

discover the frivolous manner in which his son's time was occupied, would no doubt have quickly found means of diverting his attention. But no such thought detracted from the enjoyment with which Koyouk marked in their lofty aerie while a distribution of the spoil was taking place.

"After all," mused the bookish of under-paid seamstresses, and "The birds were stelling, so we put a stuffed cat in the cherry-tree.

"After all," mused the bookish of under-paid seamstresses, and "The birds were stelling, so we put a to crouch beside the nest to avoid a frightful fall. Fortunately, he retained presence of mind and managed to ward off most of their blows, but in the ward off most of their blows, but in the ward off most of their blows, but in the defense his unprotected hands to ward off most of their blows, but in the twine which, before climbing to the twine which before climbing to the twine which was still that Koyouk had barely time to crouch beside the nest to avoid a frightful fall. He lurked persistently about the appried of their tuition in the ground, for feet below. Escape of wings on the ground in the gr

Ing the period of their tuition in the use of wings one of them might by chance fall into his hands. But the bird's uncanny instinct, to vigilant parents, although so accustomed to his presence that they usually paid no heed to him, seemed to livine his new motive, and they guarded their progeny with extraorgianty zeal. This evidence of subtle discorrence, to which he ascribed his respect for their wisdom. However, he had devised a feast the property of the subtle described his respect for their wisdom. However, he had devised a feast the light in case his whereabouts were asserted that fear of parents disapproval had induced him to keep his project secret, for otherwise he might be was now impossible.

Was now impossible.

Koyouk was not easily frightened, but the bird's uncanny instinct, to gether with the peril of his situation, filed him with dismay. Bitterly he had constructor's expectation. During many months it to gether with the peril of his situation, filed him with dismay. Bitterly he peril of his situation, filed him with dismay. Bitterly he discorrence that they usual result of tised and keyouk's trained dog, jealous of the new rivals in its master's affect to the western horizon, and that is not the lighting. But what borrible discords they the western horizon, and that is not the lighting, nevertheless, and they graded another. But it is ordinary lighting, nevertheless, and the ordinary lighting, nevertheless, and by the way they jerked their tails weakly out at the news of the new rivals in its master's affect to the western horizon, and that is not the lighting. That is the was now know they can their songs, so we know they can be light horizon and their songs, so we know they can be light horizon that is the western horizon, and that is not their songs, so we know they can be light horizon that is the test down their songs, so we know they can be light horizon. But what borrible discords they the wast horrible discords they down their songs, so we know they can be light may be first and their s However, he had devised a feas-ible scheme for making an ascent to him. He shuddered when he reflect-ed that in case his whereabouts were Under the Umb-ullas. the top of the monolith, and he at length proceeded to put it into execu-

people use in netting fish-traps, and a but it did not renew the attack, and at take umbrellas—two of them." to have a tea party in my front yar1, "Mew! mew!" people use in netting ash-traps, and a coil of light but strong fibrous rope. His mother had made the rope by braiding, with infinite skill and patience, strips of the inner bark of the willow, prepared and toughened by a croaking, a debate of which Koyouk fancied himself to be the subject. willow, prepared and toushened by a native process, and it was primarily designed to be stretched between a series of posts to form a salmon-rack. Although flat instead of round, and less than a half-inch wide, it was capable of sustaining a very heavy weight.

A very small spur or crag projects from a face of the rock column just below the top. Could be succeed in passing the rope over this, an agile climber, like himself, might mount to it with comparative case. Having that the comparative case. Having that the comparative case. Having the first unwound the ball. Kovouk iled as the comparative case. Having the first unwound the ball. Kovouk iled as the comparative case. Having the first was taked to be the subject.

Perhaps two miles south of his observatory he descried a reach of Yukon water, a crooked, gleaming gask in the stand to fip, and she. He put her umbrella in the stand dor bell and an eager little voice and in the stand to find the new school, she having here transferred from down town, that the door bell and an eager little voice said: "Aunte told me I could come and play with Mildred for a while," We will in a corner.

"You had better put the umbrellas in that stand to fip," said she.
He put her umbrella in the stand door bell and an eager little voice said: "Aunte told me I could come and play with Mildred for a while," "Yes," agreed the new school, the first week while it's raining."

Just then there came a ring at the door bell and an eager little voice said: "Aunte told me I could come and play with Mildred for a while," "Yes," agreed the new school, the first week while it's in that stand to find the unbrellas in that stand to find the unbrellas in the stand door bell and an eager little voice said: "Aunte told me I could come and play with Mildred for a while," "The not one time special was an an anation Mildred's arms. "The not one time special was an an an anatom of the chatterbox, "cause I had my rubbers of and a numberella and such the could come and play with Mildred for a while," "The

For a time he fanned them vigorously with the wack, from which he had restored the fledgling to its mates; but tiring of that monotonous exercise, he took from a small pouch at his belt a box, made of mountain sheep's horn and containing tinder, flint and steel, and culling a bunch "There goes the great chief of all the | end of the twine to the rope and made | of dry twigs from the nest, started a "There goes the great chief of all the birds, Koyouk," said I, indicating an eagle that was mounting slowly into the biue sky.

The lad shook his head dissentingly.

"He is a lazy thief, who robs honest birds of fish" he replied. "The wise aloft.

The wise of fish" he replied. "The wise aloft.

REAL ESTATE AFFAIRS.

A. H. Skinner, the very energetic real estate agent in the new Cheney Block, is making a very active canvass in the real estate field and keeps matters moving along with celerity and characteristic push. He has a long string of offerings at the present time as can be seen by the partial list printed in another column. Persons wishing anything in the way of real estate investments will do well to give him a call and talk the matter over with him, as he keeps the local field well in hand, knows where the desirable offerings are and can act as intermediary in all such transactions. He has had a large business experience, is well known, has the confidence of the public and therefore can handle such affairs with discrimination, discernment and good judgment He is in a position to know just what can be done in these affairs and will gladly advise all prospective customers.

This Special Offer is made for the purpose of increasing our trade, and showing the people that we truly appreciate their patronage.

This ware is rapidly taking the place of White Granite. It has that soft velvety finish and is of fine quality. The shapes are the very latest patterns and have been designed to meet the tastes of the most fastidious.

There are no "Has beens" in them. Dig up some f your rusty dollars, come here and spend them, and obtain something free for them.

Yours for business,
