and Friends Visit Roton Point.

- A full corps of Experienced Men Teachers.

- Absolutely perfect discipline.
- 6. A select class of people as patrons.
- other office fixtures.
- 8. The celebrated Pitman system of shorthand.
- An experienced court reporter to teach it.
- to. Located up only one flight of stairs and an ele
- vator that runs the year round at that. 11. An abundance of light in all departments.
- 12. One price, \$12.50 monthly includes all tuition stationery and supplies.
- There are never any so-called "outfits,""extras"
- Founded as a Bryant & Stratton College in 1860, tive, thorough and reliable.
- 16. Careful individual instruction.

The Standard Business and Shorthand and Typewriting Training School is

Its graduates have stood the severest test in th business office for 13 years. It has educated 5,000 young people to take care of themselves, and has placed 800 graduates in paying situations in the 56 months and 3 weeks ending August 9th. This education is a stepping-stone to business success. The difference in schools is not the difference in furniture, but in the course of training planned and in the thoroughness of the teachers. We are constantly improving our course, and no matter how thorough our work is we consider nothing good enough that can be done better We do the best work, and tell the white truth about it, and stand or fall by the work we do.

Really no one can afford to make blunders is school-going, least of all people who have to economize. Mistakes in education are costly and far reaching. The discipline of Huntsinger's school is all that can be desired to advance the interests of the pupil. We never have any outside interests to engage the student's attention and take him away from his daily work. The whole time at Huntsinger's is devoted to preparing for business and office pursuits.

We adapt the training to each pupil's needs no matter what have been the educational advantages prior to his coming to this school. We can do this because we have plenty of teachers of large and successful experience. Mr. Huntsinger teaches daily and has been doing so for 27 years; Mr. Remsen has taught 20 years; Mr. Winkleman, 12 years; Mr. Barnes, 12 years and the shorthand teachers, 6, 10 and 3 years. The pub lic has named Huntsinger's A Hive of Industry be cause it is the working school of Hartford. It invites as pupils persons who are anxious to better themselves

This is the only school in Hartford which has Actual Business Practice from the day the pupil enters until he graduates. The popularity of this methodo training has been so successful that over 5,000 young men and young women have been started on the roa to success by this school, and business men have found them so well qualified that they hire their permanent and substitute help at this school. The attendance of Huntsinger's is more than twice as large as that of any other business school in Hartford.

Some Other Points: This school occupies three whole floors of the Hills Building. Passenger elevator. No text books to buy. One entire floor full of roll-top office desks for students' use. Twenty-eight first-clastypewriting machines in the typewriting department The whole course has been revised and improved Tuition only \$11 per month. Why not call to consult with Mr. Huntsinger? We publish the following booklets which will materially help to decide upon a course of training: Booklet 33 tells all about the importance of penmanship; Booklet 34 tells a lot of important things about the shorthand course; Booklet 35 describes the business course and what a young man or young wom man should know who goes into business; The Handwriting on the Wall, which has had a large circula ion from Maine to California. It is a scathing con mnation of vertical writing. This book interests teach be hadfree. Mr. Huntsingerisin hisofficedailyenr g pupils. School opens Sept.2. Read my next advt. 1. # - PARK -

(Old Couch Stand

New and lovely picnic resort for families, and parties of from ten to twenty people. PINEY POINT .... the lake. Beautiful situation shaded by enormous white pines, and carpeted with pine needles; absolutely clean. Prevailing southwest winds in summer blow across the lake and waft a cooling breeze that is thoroughly delightful. Fine spring of water near by, and everything necessary for an enjoyable picnic.

Take the electric launch, and after a lovely ride up the lake you will be landed at the dock right at the grounds. The launch will call for you whonever you are ready to return. Nothing more complete can be found in the state of Connecticut for a little family outing. The splendid showing of Egyptian lotus from the bridge at the park will well repay a visit.

Alexander Rogers of School street is having his house painted. His son Edmund had not spentified it will be wise to restrict topics to impersonal subjects.

Jay Magnell is spending his vacation in part visiting the Pan-American Exposition.

Harry M. and Mrs. Burke are enjoying life at Crescent Beach. Mr. Burke takes a run to town cocasionally to attend to impert business.

Willard P. Fopple of Manchester Green was buried in the East Cemetery list Saturday afternoon. He was a member of Drake Post and that organization took sharge of the funeral.

saving appliances. We feel sure that if parents and prospective pupils would see our college and courses, then see others and compare, the result would be decidedly in our favor. Fall term opens September 2. Visitors are now welcome.

## 

# Absolutely the Best Business and Shorthand Course

Huntsinger's Business College

Its graduates have stood the severest office tests for 13 years. It has educated 5,000 young people to take care of themselves. It has placed 804 graduates in paying situations in the 57 months ending August 16th. Its training is a stepping-stone to business positions. The difference in schools is not the difference in furniture, but in the course of training and the thoroughness of the teachers. We are constantly advancing, and consider nothing good enough that can be done better. We do the best work, and tell the white truth about it.

No one can afford to make blunders in school going, especially those who have to economize. Our liscipline is all that can be desired to advance the interests of the students. We have no outside interests to engage the student's attention and take him away from his daily work. Our whole time is devoted to preparing for business and office pursuits

The training is adapted to each pupil's needs, past advantages notwithstanding. We have plenty of teachers of large and successful experience. Mr. Huntsinger teaches daily and has been doing so for 27 years; Mr. Remsen has taught 20 years; Mr. Winkleman, 9 years; Mr. Barnes, 12 years; and the shorthand teachers, 10, 6 and 3 years. Huntsinger's is A HIVE OF INDUSTRY-it is the working school of Hartford. It invites as pupils persons who are anxious to better themselves. This is the only school in Hartford which has ACTUAL BUSINESS PRAC-TICE from the day the pupil enters until he graduates. The attendance of Huntsinger's is more than twice as large as that of any other business school in Hartford.

SOME OTHER POINTS-This school occupies three whole floors of the Hills Building. Passenger elevator. No text books to buy. One entire floor full of roll-top office desks for students' use. Twenty-eight first-class typewriting machines in the typewriting department. The whole course has been revised. Tuition only \$11 per month. Why not call to see the college? Mr. Huntsinger is in his office faily enrolling pupils. School opens September 2.
