white material makes the glass tell near-er the truth than it did without it.—Phil-adelphia Ledger.

well made as a rule, quiet and in good taste. She wears wash shirt waists in summer and Ironing.

The art of laundering summer goods is not a difficult one to acquire. After the garments are washed clean, rinse through two waters, having the second one slightly blue. Every trace of soap must be removed if they look clear, and this can be accomplished only by thorough rinsing. Prepare a starch by putting a cupful of lump starch in a kettle, pour on a pint of cold water and stir until smooth. Then pour in boiling water and cook until clear, stirring constantly. Dissolve a they are well dressed.—Chicago News.

Well made as a rule, quiet and in good taste, wash shirt waists in taste. She wears wash shirt waists in taste. She wears wash shirt waists in the woolen ones in winter. Most of the color in her costume she puts into her hats, and, while those are not strictly of the tailor made or shirt waist order, they are seldom trimmed with unsuitable fripperies. It is certainly excussible if the girl who works six days in the week and has so little opportunity to wear anything stylish likes to wear a hat that is becoming to her. It may be to some extent owing to their small incomes that the girls are obliged to wear simple clothes, but, with few exceptions, whatever the reason, it will be found that they are well dressed.—Chicago News. clear, stirring constantly. Dissolve a level teaspoonful of borax in boiling wa-

ter and add it to the starch. The borax | Keening Milk and Butter. will keep the irons from sticking and gives the work a gloss. All during the summer applications for entrance to either the usiness or shorthand department have been pouring in, so that more than a week before the opening day had come we prophesied

Work has already commenced for an enlargement of the various departments and new desks will be ready for those who will come in on Monday next. Careful individual instruction characterizes all the teaching of both commercial and stenographic studies and every branch is made perfectly plain in a grand system of Actual Business Practice.

Monday and Tuesday Were The Busiest Days Ever Known at

Huntsinger's Business College

Days long to be remembered because they have emphasized what we have predicted for seven weeks, that this year's opening would be the largest in the history of the school. Years ago we surpassed all other schools in the State in numbers of pupils, in numbers of teachers, and for the past seven or eight years the only effort Huntsinger's Business College has made in the acquisition of numbers of pupils has been to surpass itself. This it has done every year. There is an inspiration in surpassing one's self—an in-spiration to the teachers, and to the incoming pupils.

If you are still undecided about taking a business course, we might be able to help you decide that matter if you will call to see the school in session, and see what is being done by enterprising,ambitious young people. We are not only surpassing ourselves in enrollment, but also in placing graduates in situations. 816 graduates placed in situations in the fifty-seven months and two weeks ending Aug. 30th is a record which speaks volumes for the thoroughness of the training, for the appreciation of the public of the Huntsinger graduate, and i shows that we remain permanently interested in our students.

Please call to see the college. Take the elevator just inside the entrance

Read my next adv.

E. M. Huntsinger, 30 Asylum St., Hartford.

WHY HUNTSINGER'S LEAD.

Results follow causes. Mr. Huntsinger | As the time for the opening had the best reputation, the largest teaching experience in the best business colleges in the country before coming various details of the work are becomto Hartford, and though still a young ing more and more active. An import-man, has taught most successfully there and meeting of the court was held last for a home, houses to rent, or for the past thirteen years.
