NEW FIRE ALARM WHISTLE.

As there has been more or less confusion here in the matter of understanding the fire alarm whistle, Cheney Brothers have bought a new one, which will be used alternately with the old, in giving an alarm.

The plan is, to have the new whistle sound the note, and the old one the note, whatever the call may be. For example, Take No. 23, which was the alarm given last Saturday evening.

The new whistle is not quite as large as the old one, and consists of a single whistle. The old one is made up of a chime of whistles, of slightly different tones, and the blending of these gives a sound different from that of any whistle in town.

These whistles are put in by Cheney Brothers, free of charge to the Fire District, and are operated by Cheney Brothers in like manner. We learn that they are expensive appliances, and cost not far from \$100 each, counting expense of installing, etc.

It will be seen therefore that they are very anxious to do all they can to aid the work of the Fire Department, and to save the Fire District expense in this important particular, as well as in many others.

WILL BE GRADUATED.

Graduation exercises of the South Manchester High School will take place in Cheney hall on Wednesday evening, April 2, 1902, on which occasion the following young people will be graduated: James Arthur, Horatia Duggan, James Fallow, John Hayes, August Hatfield, Paul Keating, Oliver Latham, Carrie Lull, Edith M'Creer, Mary Moriarty, Maud Perry, Lillian White, Ivy Clark, Eva Lind, Alvin Gray.

These boys and girls have been working diligently for the past few years in anticipation of this great event, and will on that occasion reap the fruits of their labors, by having the distinction of inscribing their names among those who have gone that way before them. It marks an important epoch in their careers, and many by the entrance of them into the world of affairs, into the larger and more practical and real life of the present day, which this door opens to their view.

A FREAK CALF.

One of H. C. Apel's cows gave birth to a freak calf last Sunday night, which had P. T. Barnum been alive and known of the occurrence, would have been of considerable value to Mr. Apel, as the great showman would have exhibited the unusual specimen at all the ends of the earth, in his great show.

The legs and head of this creature are inverted. The legs are placed near the spinal column, and extend over the back. The head instead of being retained, is upturned. The tail takes the usual downward course.

The calf at birth seemed to be full grown, healthy and all right in other particulars, and eagerly drank milk from a bottle. As a matter of course it could not receive sustenance from the mother in the usual way. The calf could not move about. In this particular it was practically helpless. It was permitted to stay with its mother, and on Tuesday night she lay on it and killed it. Mr. Apel has skinned the calf and will preserve the pelt. If he had a taxidermist with sufficient skill to mount this freak, it could be made profitable for exhibition purposes, either with a show, or in a museum of natural history. In all probability another such specimen is not in existence.

HEADQUARTERS ...FOR LENT...

Pain in the side, muddy complexion, feeling of lassitude, and constipation. NERVOUS DISEASE. Loss of sleep, loss of memory, and feeling miserable without cause.

DANCE TOMORROW NIGHT.

Wadsworth Council, No. 59, American Mechanics will give their usual Washington's Birthday anniversary dance in Apel's opera house tomorrow evening.

ST. MARY'S CHURCH NOTES.

Rev. Carl Reiland, pastor of Trinity church, Wethersfield, will deliver a sermon to young men in St. Mary's church on Wednesday evening, February 20th, at 7:30 o'clock. The St. Mary's Young Men's Club will attend in a body. At 10 o'clock in the forenoon of the same day there will be Morning Prayer and an address in St. Mary's church.

TAKEN CARE.

Miss Mary McGrath is suffering with mental aberration in a mild form, and yesterday presented herself to selectmen. We wish to advise you to secure her relief which was at the manumission in Hartford, and Mr. Watkins induced her to go with him and she was taken charge of again. It appears that she was placed there by relative last September, but managed to escape twice.

Rayton's Hair Invigorator and Restorer. This preparation, rightly applied, will cause hair to grow upon bald heads, and turn gray hair to a dark color. On receipt of a postal card I will call to person and explain the use and benefits of this preparation. James B. Horton, South Manchester, Conn.

Mr. J. J. Sullivan has charge of the treatment, which he administers in the most approved methods, and is thorough familiar with all diseases. Additional town news on page 2.

Crawford Ranges.

At this season of the year many housewives spend a considerable portion of time in their kitchens, and therefore should have their surroundings as comfortable as possible. Nothing tends more to make matters in the kitchen pleasant for the housekeeper than a good range. This we can assure you will find the Crawford Range to be. It can be seen here and we will be happy to show its good qualities to any interested person. It has many points to recommend it. Let us explain them to you.

GEORGE K. WRIGHT, Sole Dealer, Steam Station, Tower, 2-3 School Street, So. Manchester.

SCHOOL MEETING.

LARGE ATTENDANCE AT SPECIAL MEETING OF THE NINTH SCHOOL DISTRICT LAST NIGHT.

Proprietors of Cheney Brothers to Erect a New School House on the West Side of Main Street, Directly Opposite Present Group of School Buildings, Promptly Accepted—Vote of Thanks Tendered Cheney Brothers For This Generous Offer and For Their Liberty to the Ninth School District, in the Past.

More than 150 persons assembled at the Ninth District school last evening, in answer to the call for a special meeting, as noticed in these columns last week.

The meeting was called to order by John S. Cheney, chairman of the Ninth District School committee, and on motion of John M. Sherry, Mr. Cheney was chosen as presiding officer of the meeting. The chair announced that in accordance with the usual custom, the clerk of the district, C. S. Cheney, would act as clerk of the meeting.

Mr. Cheney had his stenographer, Miss Marcella Conklin, at his side, for the purpose of securing a stenographic report of the meeting.

The first business in order was the reading of the report of the committee of the Ninth School District, which was read by the clerk. It is as follows: REPORT OF THE SCHOOL COMMITTEE OF THE NINTH SCHOOL DISTRICT OF MANCHESTER.

The last addition to this school building was first occupied by children in January 1898. The enumeration taken in the previous October showed that there were 988 children of school age in the district. The enumeration of October 1901 shows that there are now 1448 children of school age, a gain of 460 in a year, a gain of 480 in nine years, a gain of 48 per cent in nine years. If the rate of growth remains the same for the next nine years, there will be fully 2300 children in the district.

This school building will accommodate about 1100 children of primary grade, and the present building at Cooper Hill will accommodate about 300 more than the present building. We also face a probable increase of from 75 to 100 new pupils this spring.

Steps must be taken at once to provide temporary quarters for about 100 pupils and action should be taken at once to provide permanent quarters for 300 pupils. In view of the rapid growth of the number of school children during the last nine years, it would seem ill advised and poor economy to build a building with a seating capacity for less than 750 children.

We recommend that the proposition of Cheney Brothers to build a new school house on their lot on Main street, directly opposite the present school house, be accepted by the district, on such terms as may be agreed on between the School Committee and Cheney Brothers.

John S. Cheney, George W. Reynolds, Wm. J. McFarland, Anna L. Bidde, Charles S. Cheney, School Committee.

Manuscript, Feb. 20th, 1902. The chair then stated that it would perhaps be well to let the people know what proposition Cheney Brothers had to offer in order that in intelligent action may be had thereon. He forthwith proceeded to read the same. It is as follows:

CHESEY BROTHERS PROPOSITION. At a meeting of the directors of Cheney Brothers held February 14, 1902, it was resolved: "To submit to the Ninth School District of Manchester, a proposition on behalf of Cheney Brothers to build a new school house, to afford the additional room required for the proper accommodation of the increased number of children, for which the old school house is inadequate, and to submit plans for the approval of the School Committee of the Ninth District of Manchester, or approval by the district, with full details regarding same."

The chair explained that Cheney Brothers would give the lot now occupied by the Sullivan block, directly across Main street, for the purpose of the proposed new building, and that the plans for the building were not yet ready.

He then enquired what action the meeting proposed to take. M. B. Chapman thereupon favored the adoption of Cheney Brothers' proposition, in order to bring the question before the meeting in proper form.

E. O. Cheney enquired if a preliminary vote was not necessary in order to permit this question to take precedence.

A preliminary vote was taken, and the proposition was carried by a large majority.
