Monuments

Enough cemetery stonework to supply all Hartford and surrounding towns for this year has just arrived.

Owing to delay at the quarries our stone work did not arrive in time and it is now piling in by the carload with not room enough for quarter of it. Come up to our place and you will see the reason that price is not our object. We must dispose of this stock, as we cannot leave it where it is.

The Standard Business and Shorthand Courses of The Huntsinger College.

Have Stood the severest test in the business offices for fourteen years for over 6,000 students who attended the school. This training is a stepping-stone to business success.

The real difference in schools is the actual difference in the course of training, and the thoroughness of the teaching, and NOT THE FURNITURE. We do the best work, tell the white truth about it, stand or fall by the training we give. Our discipline promotes the best interests of all the pupils, and eight teachers give individual instruction adapted to the needs of each student.

This is the only school of Hartford teaching ACTUAL BUSINESS PRACTICE FROM START TO FINISH. Our attendance is always more than twice as large as that of any other business school of Hartford. Passenger elevator. No text-books to buy. One entire floor full of roll-top office desks for students. First-class typewriting machines. Call or write for new "Journal." OCEAN BEACH SELECTED.

Manchester Business Men's Association and their Families, their Clerks and Friends will go on an Excursion to New London and Ocean Beach Thursday, July 24th.

The committee appointed by the Manchester Business Men's Association to select a place for the excursion of that body, have chosen Ocean Beach for that purpose, a place located on the east neck of New London, and on Thursday of next week, July 24th, will go there with their wives, their families, their clerks and such guests as they see fit to invite. The special train will leave Manchester for New London as early as 7 o'clock in the morning as the railroad company choose to make it, so as not to conflict with the regular train. On the return trip the special train will leave New London at 6 p. m. The number of tickets is limited to 400. The price for round trip tickets for adults is \$1.45; for children 75 cents. These tickets can be purchased from members of the committee, or at F. W. Miller's store. Persons wishing to go to Ocean Beach by boat can do so, as the steamer Gray leaves New London at that point at 9.30 a. m. and the fare is ten cents each way.

The round trip tickets do not include anything but the steam-railway transportation.

Ocean Beach can be reached by trolley from New London, cars running every ten minutes. If necessary, special trolley cars will be provided. The trolley fare is but five cents.

Shore dinner tickets will be issued and can also be procured from the committee. These are 75 cents each. The committee request persons wishing shore dinner tickets give orders for same to the committee early, so that they may notify the proprietor of the hotel at Ocean Beach as to the number of guests the party will bring him. It can readily be seen that if say two or three hundred guests were to suddenly make their appearance at the hotel for a shore dinner, without having previously notified the proprietor of their coming, it would be impossible to accommodate them with only the regular force of cooks and waiters.

The committee had dinner there last week and assure us that the fare furnished is of a superior grade, and everything is neat, clean and attractive, and that while the price is somewhat in advance of the ordinary shore dinner, so called, it is well worth what it costs.

The best Gray will carry the party. It makes two trips daily between Ocean Beach and Norwich, stopping at intermediate points.

The special tickets now on sale will be exchanged on the train for regular tickets.

The committee report that there is a good beach there, excellent facilities for bathing, and that taken altogether Ocean Beach is a delightful place for an outing.

A game of ball will be arranged between sides selected from the association. F. T. Blish and F. E. Watkins are the committee on sports, and persons wishing to secure a position on the nine should report to these gentlemen forthwith.

It is expected that the business places in town will be closed all day next week Thursday, so that clerks as well as proprietors may go out and enjoy themselves.

APPENDIX REMOVED.

Last Monday Principal F. A. Verplank went to Dr. Taff's sanitarium in Hartford and was operated upon for appendicitis. The operation was successful, the appendix was found to be inflamed and was removed, and Mr. Verplank is getting along quite comfortably. He had a slight attack a few days ago and on Saturday morning after returning from a trip to Saratoga, he found that he was being troubled again. On consultation with Dr. M. S. Bradley it was decided to have the operation performed at once. It is expected that he will be about again in about two weeks. The case was taken in time and no serious consequences are now anticipated.

DEATH OF JOHN MITCHELL.

John Mitchell, who resided west of Keeney street, just over the Glastonbury line, died last Monday morning from a complication of diseases. He was 73 years of age. He had been feeble for some time. His funeral took place yesterday afternoon. Burial was in the East cemetery. He leaves three sons, John, Herbert and William, and a daughter, Mrs. Willard Perkins. He made his home with his son Herbert. His wife died a number of years ago. His residence in Glastonbury the greater part of his life and was a farmer by occupation.

WRINGING FOR WATER POWER.

Work was started last Tuesday on the placing of feed wires from the power house over north to Chesney Brothers mills in this place. Poles and overhead wires will be used. It is considerable a piece of work. When completed Chesney Brothers will for the first time get the benefit of the splendid water power of the Union mill property which they purchased some months since. They have erected one of the most complete power houses in the country, have made fine race to carry the water here, and all needed appliances for the great mechanical convulsion. This will reduce their coal bills materially and give them power much cheaper than before.

GARDY OF THANKS.

I wish to hereby tender my sincere thanks to my neighbors and friends for their many kindly acts during the illness of Mrs. Oliver L. Wickes. His illness and the death of my dear husband, Ludwig Borowski, and would mention in an especial manner the shopkeepers and others who presented such an abundance of lovely flowers. Mrs. Ludwig Borowski.

Miss To-morrow A Dialogue of To-day

By J. A. FLYNN.

"I shouldn't try to write any more, dear, if I were you," I said, looking at my watch. "It's slow date, you look at me like that. 'I can't help my looks,' she said, with a sigh. 'It isn't tall my fault—really it isn't!'"

"You can help pretending to be what you are not," I said, sternly. "You need not wear pink, when you mean gray, and say 'yes,' when you mean 'no,' and carry a sunshade, when it's going to rain, and—"

"Really, Miss—To-morrow, I would much rather see you, smilingly," she said, with a triumphant air. "What did I tell you? Now, whose fault is it?" She looked radiantly delighted.

"I suppose," I said thoughtfully, "the fault is in Miss To-day."

"She stamped her foot. 'I won't have you run down my sister. She has quite enough to put up with, with things going wrong in the absurd way they do. The fault isn't in us at all!'"

"Don't you?" she said, with surprise. "Why, it's because—well, I have a son about it, so, if you don't mind, I'll sing."

Beyond the dusty road afar
Hope sees a fertile plain
Beyond the ways that start there are
The ways that start there are
Beyond the sun the skies;
Beyond the skies there stand
With merriness in her eyes.

Suppose the road should never end,
The clouds should never part to land;
Suppose the stars should radiantly
It would never, never—
To leave our fancies wild!
I know my basis and was silent, because of many fancies in the past.

"Some of them came true," she said softly.

"Real many of the best?"

"Ah!" she laughed forward eagerly. "That is just it. They can't all come true. They are too many things to do."

"I see. I ought to make you plain and simple," she said, "please keep on making me nice, and I'll try to live up to it."

"Very well, my little Miss To-morrow," I said, "I will; but I hope there will be some satisfactory than has been lately."

"She shook her head and laughed. "Now," she said, "for just once, I'll give you a genuine forecast." She stooped and gave me a quick little kiss that made my heart leap and my veins tingle.

"You'll be better to-morrow," she cried.

"I woke with a start, and found my wife bending over me—Black and White.

near pretty eyes. "I try to look just like the people you admire, and to talk like they do, and you only grumble. You are ungrateful—unkind." She began to cry.

"Don't, please don't!" I entreated. "Really, Miss—To-morrow, I would much rather see you, smilingly," she said, with a triumphant air. "What did I tell you? Now, whose fault is it?" She looked radiantly delighted.

TRIP TO OCEAN BEACH YESTERDAY BY WAY OF NEW LONDON.—SHORE DINER, BASE BALL GAME AND A GENERAL JOLLY TIME.

Places of Business Closed and Town Seemed Practically Deserted in the Business Sections.—Everything Passed off Pleasantly and Successfully.—Tickets Enough Sold to Cover Guarantee.

The first outing of the Manchester Business Men's Association took place yesterday, the destination being Ocean Beach, a shore resort a short distance below New London. Four cars were furnished and a special train carried the party from Manchester to New London, going by the way of Williamantic. On reaching New London some of the excursionists went to Ocean Beach by trolley and others by boat. There were 300 persons in the party, which covered the guarantee the committee had made to the N. Y. N. H. & H. R. R. Company, for \$318. There were a number of ladies and some children in the party.

A baseball game in the forenoon between the business men and their clerks was the feature of the day and was won by the business men with a score of 9 to 2. Following was the lineup:

Business men, E. O. Bowers, pitcher; Fred. Sadler, catcher; George E. Keith, short stop; Joseph C. Carter, first base; F. E. Watkins, second base; Maurice Madden, third base; F. T. Blish, right field; E. S. Kila, center field; E. T. Ferris, left field.

Clerks, Gordon, pitcher; McGuire, catcher; Dwyer, short stop; Gorman, first base; Strandahl, second base; Burke, third base; Grant, right field; Gould, center field; Spruit, left field; Six runnings played and the way that the business men walloped the boys was exasperating.

The feature of the game was the splendid record made by Ward Grant in the matter of errors. Ward bagged 11 nice ones and has a beautiful string of them to show as a souvenir of the game and occasion.

For a man of limited experience in base ball playing, they say that Will, Burke was a good second Ward Grant. Both made some lovely wild throws and it is to be noted that the errors of the clerks had all the glory in the making of errors. While they made a good average, the business men were not wholly behind the times in this particular.

The boys are now anxious to play the business men a return game, same to take place at Hollister park some Thursday afternoon. They think that they can even up the honors, and give their seniors a better run for their money next time.

There were no accidents throughout the day. The weather was delightful. The afternoon was particularly pleasant and quite hot. A good number took a dip in the sea. A shore dinner was served. A number went in a launch and inspected the United States Battleship, Indiana, that was anchored in the offing about two miles from port. The party reached home about 7 o'clock.

SETTLING THE LULL ESTATE.

Probabilities are that it will be in Hands Soon and That Business Will Be Resumed.

Attorney Harry M. Burke is making commendable progress in the matter of settling up the affairs of the insolvent estate of Benjamin Lull & Son, and the prospects now are that within a few days the entire business will be cleared up, every man to whom the estate owed a dollar will be paid in full, and there will be some cash left.

Negotiations are now on foot looking to the transfer to Charles Thiel and Charles Lachat, two young men presently in the employ of Frank Goetz. Mr. Thiel is boss baker for Mr. Goetz, and Mr. Lachat drives one of the baker wagons. They have agreed to purchase the property for \$40,000, and have posted a forfeit of \$100 to bind the bargain. The details of the transfer will in all probability be perfected forthwith. The purchase includes the residence, the bakery building, outbuildings, real estate, one horse, two business wagons, three baker wagons, two runabouts and one buggy.

In the bakery building there is a kitchen shop in the basement, a store on the first floor and a tenement upstairs.

The real estate comprises a parcel of land having a frontage on Laurel street of 50 feet and the other sides are 300 and 100 feet respectively. It is a nice property in the residential part of South Manchester, and on the whole is a valuable acquisition.

By the transaction of Messrs Thiel & Lachat to take possession as soon as the legal technicalities are concluded, and to plunge into business forthwith. They bring to their new undertaking ample experience, youth, energy, brains, and some capital. Their financial standing is good, both are practical workmen, and their prospects for doing a thriving business are bright.

Persons having claims against the estate will be pleased to know that they will be paid in full.

Mr. Burke was appointed trustee of the estate June 30th, and since that time he has been conducting the estate. He is a July 1st, and expects to close the entire matter up now within a few days. This is commendable bustling and certainly the most efficient manner in which all concerned with characteristic energy Mr. Burke set to work on the task as soon as it was given him and apparently is coming out of it successfully.

THE REAL CLOSED.

Since the above was set up in type, the transaction to which it refers has been consummated. This morning the money changed hands, the deeds have been made out and transferred, and the new proprietors are in charge. Thiel & Lachat are now starting in on their own account to try their fortunes as business men, rather than as employees.

STRIKE NOTES.

It is estimated that about one hundred of the striking velvet weavers have left town, and others are preparing to do so at once. They are seeking employment wherever it can be found, and at what wages they can get it most liberally.

Owing to the excitement caused by the parade of the striking velvet weavers last week, the town authorities have increased the police force by placing Constable Johnson and Campbell, and special officer William Madden on duty in the vicinity of the silk mills throughout each night, since that there was to be a parade of the strikers with a band of music last Saturday evening, and as a result the streets were thronged with persons along the business section.

BRAKEMAN KILLED

South Manchester Man Ran Over Near Hop River Station

John Green, son of David and Mrs. Green of Linden street, a brakeman on Highland Division freight train, No. 163, local between East Hartford and Putnam, was instantly killed last Saturday afternoon when he called the attention of a switchman to a quarter of a mile east of the Hop River station. Mrs. Green was seated on a car with another brakeman and fell off, but as the other brakeman was at the time looking away from Green he did not see the man fall and it is not known what caused him to lose his balance. Over twenty cars passed over him and one leg was cut off and carried to the Hop River station platform. Medical Examiner Higgins of South Coventry was notified, viewing the remains, gave the cause of death as accidental and would be reported to the coroner at the body. That was placed on a stretcher and kept in the freight depot at Hop River until evening, when it was placed on a car and carried to the station. South Manchester, Braken was taken, which had stopped at 1:17, was taken, which was Agent M.T. Whalen at the station.

CAUCUS REGISTRATION

In speaking of the caucus registration in this office, W. E. L. O. Hobenthal stated that persons who vote with minor political parties such as the Communist Party, the Prohibition party, the Economic League, or others who do not poll 10 per cent of the total vote of the town or city, are not obliged to comply with the law as at present constructed. In order to be privileged to vote in the caucuses of such minor political parties, persons who do not register however, are not obliged to register either in the caucus or in the primary. It seems to us therefore, that, on the whole, it is quite the proper thing to register for the caucuses, as by so doing one makes sure of being counted at all events. Even if it is not counted, as Mr. Hobenthal suggests, it can do no harm and places one on the safe side. The registrars will hold final caucuses for this purpose on the Town Records building, Friday, August 1st, and Friday, August 8th, from 10 o'clock noon, until 9 o'clock p.m. on each of said days.
