Enough cemetery stonework to supply all Hartford and surrounding towns for this year has just arrived.

Owing to delay at the quarries our stone work did not arrive in time and it is now piling in by the carload with not room enough for quarter of it. Come up to our place and you will see the reason that price is not our object. We must dispose of this stock, as we cannot leave it where it is.

NOMINATED FOR GOVERNOR.

Honor Comes to Robert N. Stanley of Highland Park.—Sketch of the Candidate.

The prohibition nomination for governor comes to Manchester after all, although it was R. N. Stanley who was named instead of E. L. G. Hobbenthal, who was prominently spoken of. Mr. Hobbenthal is doing effective work as chairman of the state central committee, and it was thought prudent to keep him in that position for another term.

Mr. Stanley has been associated with Cass Brothers, paper manufacturers, in their office at Highland Park, since 1876, when he first came to Manchester. He was born in East Thompson, this state, in 1847. He received his early business training in a wholesale home in Providence, R. I., serving ten years as bookkeeper and confidential clerk. He traces his ancestry back to the days of the Revolution, and is a descendant of reformers. His father was a member of the first Free Soil convention held in this state, and earnestly advocated the freedom of the slave during his career as a minister in the Methodist church. Mr. Stanley is an active worker in the South Methodist church, and takes a leading part in the Sunday school and social affairs. He has been the party nominee for various offices, including secretary of state for two years.—Times.

DEMOCRATIC CAUCUS.

The democratic caucus for the election of delegates to the convention was held in the town hall last Wednesday evening. It was a short and quiet affair. The caucus opened at 8 o'clock and closed soon after 8 1/2. Several persons who were not registered appeared and were allowed to attend but not to vote.

Thomas J. Smith was moderator and John P. Smith was clerk. The following delegates were chosen: State—C. W. Cowles, John S. Risley, Daniel J. Garin, John P. Smith, T. R. King.

Congressional—J. F. Sheridan, Albert Spencer, C. S. McLaile, James Doyle, W. W. Cowles.

County—Thomas J. Smith, John F. Sheridan, M. O'Connell, William H. Schiedler, Robert Hurley.

SWEDISH LECTURE.

Notice is hereby given that Rev. A. G. Olson of Millville, Mass., will deliver a temperance lecture at Masonic hall on Wednesday evening, September 24th, at 8 o'clock. The meeting will be held under the auspices of the Swedish Temperance Society.

Rev. Mr. Olson was for several years pastor of the Swedish Lutheran church here. He is an eloquent speaker. No doubt there will be a large number of his former parishioners on hand to greet him, as well as many who were not here when Mr. Olson resided in this place. Singing and other local talent will be furnished.

PARISH IMPROVEMENT SOCIETY.

The Parish Improvement Society of St. Mary's church will give an entertainment in the Parish hall next Tuesday evening at eight o'clock. A pleasing farce entitled Bob and Cox will be given by Robert Cushman, James Harrison and Miss Minnie Marley.

The admission will be ten cents and refreshments will be served at the close of the entertainment.

The society has been working hard during the past year to raise enough money to finish off the lower room, which has been done this summer while the Sunday school was having a vacation. It is hoped that a large audience will be present to enjoy some ice cream in the newly finished dining room. The orchestra will render several selections and there will be vocal music introduced.

"RIP VAN WINKLE"

A commendable desire on the part of Manager E. F. Vanrenselaar to give to "Rip Van Winkle" a more complete scenic and mechanical representation than has usually been accorded to that wonderful fortune maker has led to his securing an exceptionally capable company of players who will add to the scenic environment, electrical and mechanical effects such as would be a credit to any metropolitan production.

PICTURES OF CORONATION.

Remember that L. W. Robertson's Moving Pictures will be seen in the Armory opera house tomorrow evening. They promise an entirely new and elaborate set of pictures, some of which were taken in the coronation of King Edward VII, and which were taken especially for Mr. Robertson, and are not exhibited by any other show on the road. This feature indicates how thoroughly up-to-date Mr. Robertson is in his work, and to what expense he goes to furnish the latest, the best and most attractive moving picture exhibition in the United States. Tickets are now on sale at Watkins Brothers.

Some of the students in Paris, when perusing ancient books in the National library, protect themselves with muskets. This is done to prevent the inhalation of dangerous microbes said to infest old volumes.

INJUNCTION SERVED.

CHENEY BROTHERS INVOKE AID OF SUPERIOR COURT TO RESTRAIN STRIKING VELVET WEAVERS FROM PICKETING MILLS, TRAINS AND TROLLEY CARS.

Judge Thayer Issues Temporary Injunction as Requested—Also Injunction for \$125,000 Damages—Result of Legal Action Will Be to Absolutely Stop all Action in Matter Named Above. Request is Also Made by Cheney Bros. to Have Injunction Made Permanent.

A great surprise was given the striking velvet weavers here last Wednesday afternoon when Deputy Sheriff George H. Hall served a temporary writ of injunction upon as many of the strikers named as he could locate that day. The writ was issued by Judge Thayer of Norwich as a judge of the superior court, and will have the present effect of absolutely stopping all picketing of mills, trains, and trolleys here.

During the prevalence of the strike several of the striking velvet weavers have done some picketing about the mills, the trains and the trolleys, in the effort to dislocate men from working positions in the velvet mills. Arrests have been made for these and other acts, as mentioned in these columns from time to time. Fines have been imposed and paid, and the work of picketing has gone on. The effect of using this arm of the law will be to absolutely prevent any further action along these lines, under penalty of incurring contempt of court and receiving a fine of \$500 and imprisonment for three months.

The injunction was issued Tuesday also asked for by Cheney Brothers, and these questions will be discussed on the date named above. Attorney Harry M. Burke has been retained to represent the persons upon whom this injunction has been served and Judge Olin R. Wood is representing Cheney Brothers in the matter.

The injunction was issued August 29th, 1902, but not served until Sept. 24th, 1902. The papers were served Wednesday afternoon on the members of the union, known as the "Velvet Weavers' Union," Local No. 387, and attached to the extent of \$25,000 placed. The men enjoined are Edward Lillard, John Russell, Joseph Corveta, Thomas Chambers, John DeWitt, George M. Porter, Arthur E. Johnson, George McKee, Fritz Pohl, J. W. Rogers, D. N. Jones, John Stevenson, Alexander Trotter, Carl Johnson, Adolph Swanson, Frederick Buzzell, Albert Anderson, Edward Dogevitch, Eli Hainesworth, Albin Johnson, George Leggett, John Lennon, William F. McHale, John Keardon, John Bunker, Thomas Vennert, John O'Brien, Samuel Curran, Thomas Freshburn, Nicholas Washkovich, Nathaniel Holmes, Thomas Jackson, Isaac Jackson, Joseph Kissel, Oscar Lind, George Murdock, John McCormack, John Hall and Joseph Heeger, all of the town of Manchester.

The complaint sets forth that on July 17, 1902, the plaintiff was engaged in the manufacture of silk and velvet in the town of Manchester, operating a plant which, when running at its full capacity employs 2,000 persons, composed of silk and velvet weavers and other artisans, and in which the plaintiff has invested more than \$8,000,000. The individual defendants on the date specified were in the employ of the plaintiff as velvet weavers. The complaint further states that "for many months the plaintiff had been manufacturing with its other velvets a cheaper and thinner grade of velvet, in the manufacture of which its officers and directors believed two looms could be operated simultaneously by one weaver, and such operation of the looms used in the manufacture of the said grade of velvet is possible and feasible and understood with danger or injury of any sort to the operator. And during said period of time the plaintiff has been desirous of testing the operations of two looms by one weaver in the manufacture of the aforesaid quality velvet, with a view to decreasing the cost of manufacture of such velvet to itself and to the public without diminishing the

quality of the same." The complaint further states that the defendants, by their acts, have been engaged in the manufacture of such velvet, and that the plaintiff has been damaged by such acts to the amount of \$125,000. The complaint further states that the defendants have been engaged in the manufacture of such velvet, and that the plaintiff has been damaged by such acts to the amount of \$125,000.

THE REPUBLICAN CAUCUS.

Much Uncertainty As to Its Outcome—Unusual Conditions Exist in the Republican Ranks This Year.

The official call for the Republican caucus will be found in another column of THE NEWS. It will be noticed that the caucus will be held in the Armory opera house next Monday evening, September 22nd, at 8 o'clock, because the Town hall could not be secured for that evening, as the Prohibitionists had it engaged in advance.

It is understood and agreed that the check list will be used at the entrance to the Armory, and that none but registered electors will be admitted. There is a strong feeling of uncertainty as to the result of the Republican caucus. Old campaigners are very much in doubt as to the issue of next Monday night's work. Rather, as a usual condition confronts the Republicans in this town at present. The injection of the element of uncertainty as to the result of a Republican caucus here has been never known heretofore. The question "What is your opinion as to the result of next Monday night's caucus" is oft repeated, and as oft answered with shaking of heads, and expressions of doubt.

The working men in the Republican party have chosen as their standard bearer for nomination as first selectman, Mr. Thomas H. Wood. Captain John Hickey is mentioned as the present choice of the conservative wing of the Republican party here for the nomination as first selectman.

Harry M. Burke is listed as the choice of the working men if the Republican party as nominee for the office of judge of probate. The elder element in the Republican party favor Judge Olin R. Wood, the present incumbent, as the man of their choice for that office.

As these are the two most important nominations on the list, the contest will in all probability be warmest as to the outcome of the caucus on these nominations. It promises to be an interesting gathering.

A Republican nomination in this town usually means an election. It will mean such this year. Thereby hangs a tale. The present industrial conditions have greatly upset all calculations, political and the result no man knows at this writing. There are about 700 voters in the ranks of Organized labor in this town. Do you know how they will vote? Will they hang together, or will they hang separately? These are interesting queries.
