Arrangements are on foot whereby the local transway company will acquire possession of what is known as the old Knox homestead at the Center. The ground has been surveyed today for the purposes of the transfer. A price has been agreed upon between representatives of the company and Selectman James Trotter, and it is only a matter of making out the necessary papers, and turning over the cash to Mr. Trotter to close the deal.

The purchase includes the old house which is at present occupied by two tenants. Burdette Hills of the Tramway force and Mrs. Emily K. Peace; all of the land fronting on West Center street, next west of the land of the Tramway company, and extending along West Center street in a westerly building occupied as a central telephone office for the local exchange, and by Horton's drug store.

Mr. Trotter has reserved a 15

driveway on the East side of his buildding, thus making the ;lot upon which the building stands 60 feet front. It is not the present purpose of the Tramway Company to make any change in the occupancy of the building, but there is little doubt that is due course of time a substantial office building for the mpany's business will find a suitable frontage on West Center street and add to the ornamentation of that locality. This can be done conveniently without removing the old homestead.
