# .... The Fairness of Credit ....

THE Credit System or Charge Account plan as applied to our business has for its basis the equal treatment of all customers. Whether you are wealthy or in ordinary circumstances, our terms are the same -same price either for cash or credit. Your word is your cash at MOSS BROS.' We do not figure our business on how much we are going to lose. We know by experience that 99 per cent of those who come to our store are honest in their intentions. Our daily receipts from payments on account equal the receipts from cash sales of the ordinary store. Where are we any worse off than they? You can afford to pay what good garments are worth on our plan-you are not obliged to content yourself with inferior goods because you cannot pay the "spot cash."
