GAME WITH WILLIMANTIC.

It was quite amusing to the large gathering of lovers of the great American game present at Base Ball Park in this place last Saturday afternoon, to see that the boastful Willimantics were walloped by the Mighty Manchesters, the cloquent figures of 9 to 2 in favor of the home team telling the story. It was quite apparent that the visitors were completely ontchased. Another thing that was clearly in evidence before the team and the story in evidence before the team and the story in evidence before the team and the fourth inning, as follows: Miller tatted one to the great big pitcher.

So ther medicine.

Now about the blues as a psychopath-ological condition. Whenever we feel ological condition.

It was quite amusing to the large shall fine to this eighteen letter terror coming on. On this include the story is the easiest thing possible to head off: we know that it is all wrong. A man with a good laugh is welcome things some to the great big pitcher.

The second and last score made by William the feet that he was clearly in evidence before the limit the feet that he was clearly in evidence before the limit the feet that the feet that he was clearly in evidence before the limit the feet that he was clearly in evidence before the limit that the feet that he was clearly in evidence before the limit that the feet that he was clearly in evidence as a psychopath of game was the fact that Manager Dunn inning, as follows: Miller batted one to and his trusty lieutenants were not Cross, who muffed it, and by a bad aware of the fact that they were not throw to Lewis the runner reached first CHOLERA AND DIARRHOEA REMEDY. aware of the fact that they were not in the race with the champione. Before the end of the second inning, however, all doubters along that line were thoroughly convinced. As a matter of fact the Manchesters won the game in the first inning, when they brought in three tallies. Not satisfied with this narrow margin however, they set out in the second inning to make the victory so decisive and complete as to leave no room for doubt or for argument of any kind. It was simply a case of being in the presence of their superiors, who bore down upon them with vigor and precision, and clinched the argument of the second. That was the correct of their superiors, who bore down upon them with vigor and precision, and clinched the argument of some correct of their superiors. We have the victory and precision, and clinched the argument of some correct or their string. Shaun flew to Cross and Borden flew to Bertwhistle, shutting out all chances for the Willimantics to some.

CHOLERA AND DIARRHOEA HEMEDY.

Allow me to give you a few words in praise of Chamberlain's Colic, Cholers and Diarrhoea Remedy, says Mr. John Hamlet of Eagle Pass, Texas. "I suffered one week with bowel trouble and took all kinds of medicine without getting any relief, when my friend, Mr. C. Johnson, a merchant here, advised me to take this remedy. After taking one dose I felt greatly relieved and when I had taken the third dose was entiriely cured. I thank you from the bottom of my heart for putting this great remedy in the hands of man-bottom of the willimantics to some the words and Miller landed at third. The policy of the republican party for forty years has been such protection as will develop American industries; and to the republican party alone can the people safely entrust the power of making such readjustment as business conditions may demand.

We commend and highly approve the wise sction of republican administrations in the state of Connecticut. For more than a quarter of a century republican general accemblies have been abolished. As to Carpets.

Patterns This Season Are Beautiful Beyond Compare.

If you "look around," as the saying goes, you'll of course look here, as well as elsewhere, and you'll have a chance to see which store holds the trump styles, in point of beauty and desirability. We do not stop at a few good things we take them all. We buy from every mill that makes good Garpets and Carpet Rugs. An ordinary pattern will not make a home more than ordinarily

ttractive-so we pass the ordinary things entirely. We handle Carpets and Rugs on a truly grand scale. The vaiety of patterns in each weave runs in the hundreds.

We buy so liberally that we command liberal price concessions from the mills. That's why we are able to meet and beat the prices of any and every store that sells Carpets.
