SPECIAL MEETING OF STOCKHOLDERS & NEXT MONDAY EVENING AT NEW CHENEY BLOCK.

Stock, And of Holding a Fair This Winter Leading Features. Manager Farrar Willing To Give His Whole Time To Van-

issued a call for a special meeting of the stockholders of the Mat chester Bue publican Club rooms in the new Cheney block at 8 o'clock next Mouday The principal features of the call are

to take action authorizing the issue of additional capital stock, and to discuss the subject of holing a fair for the b-nefit of the corporation during the c ming winter.

Aside from these special features there will be a number of matters discussed -time permitting. It is quite apparent that the present

issue of capital stock is insufficient to meet the requirements of the corporation, and certainly a larger issue and a gr- ater number of stockholders are most desirable. All the shares of stock originally issued were eagerly taken up as soon as placed upon the market, and a goodly number of additional shares conbi have been sold at the time were hey to be had. That dema d should now be met, and thus place mere work ing capital in our treasury.

In an interview with a Courant representative this week Manager Farrar of the Manchester Base Ball Corporation is eported as follows:

"Just what kind of a team they tend to jut in the field next year I de not know, as that will depend on the board of directors.
