As soon as the editors of the Herald have finished reading the criticisms sent in the award of seven cash prizes for the first week will be made, and the winning criticisms will be bublished in the Herald. These comments by voters will show on just what features of the stories their decisions have been based. They will also serve to indicate the general trend of opinion, and may help to form some idea of what the final outcome is likely to be. At this early stage of the contest it looks like a close race.

It is expected that the next instalment will bring in a still larger number of votes and criticisms, as the weekly voting and prize plan, according to which the flew York Herald is conducting the configetition, makes it possible for readers to start with any instalment.

There probably will be some changes of heart on the part of voters as the contest proceeds, many transferring their allegiance from one author to the other. This will make the affair all the more exciting and interesting. In the mean-time the absorbing questions are the
