## The WHY of the Flexible Well

Here is something new for women to whom ordinary shoes seem clumsy and uncomfortable. It is the La France Flexible Welt. The little illustration below shows in a graphic way how elastic this shoe is.

The leather sole bends with remarkable ease, thus adapting itself every position assumed by the foot, particularly when walking. This shoe produces the effect of lightness and a delightful sensation of comfort. Pethaps a good way to express it would be to say that the Flexible Welt feels like noshoes-at-all, except that the foot is supported just as fully and satisfactorily as would
be the case if a heavy stiff shoe were worn.

We want every woman who is looking for a maximum of comfort combined with true beauty
and the latest shoe styles, to come in and ask to see this Flexible Welt Shoe.

Governor Hughes in his Linhimself in favor of the extermination of trusts.

"To exterminate them he offers a variety of remedies. He has a large assortment of remedies, so that if you do not like one you may try another, and so on until you find one that pleases your fancy. "But, analyzing all of them,

you find that he makes three proposals which he thinks suitable and practicable in limiting the power of corporations. In the first place, he says, 'Let us prohibit the duplication of directors in competing corporations-that is, make it unlawful for a director in one concern to be a director in another.' This

is a very pretty theory. But is it workable? "You know quite well if a man owned the majority of stock in a number of corporations he would have such directors as he wanted, and whether there was any duplication or not the effect would be the same. 'Well, if you don't like that,' says Mr. Bryan, 'here is another pro-

'Well, then.' that's bound to win. Let's cut down the output of each monop-
