Mr. Sweeney had been at the Hartford Hospital a long time before the authorties knew that he was formerly a resident of this place and it was not until December 23, 1908, that the Town of Manchester was officially notified by the hospital authorities that the Town of Manchester would be called upon to pay for Mr. Sweeney's care. As the town will have as much as \$50,000 on deposit in the bank in March and April, t was pointed out that the interest on this sum would more than pay for the interest on the borrowed money.

Chairman Cheney explained that the town's total borrowings for current expenses to date had been \$45,000. Mr. Chency asked the board of selectmen to approve of his action in borrowing the \$10 000, as indicated above. The necessary vote was passed in the affirm-

Surpassing Values in Undermuslins, Embroideries, Linens, Cottons, Men's White Goods

The plans were laid weeks ago for this White Sale, the greatest sale of the kind ever held in this city. Not only are under-

muslins offered at prices away below regular value, but this year we include Linens, Cottons, Embroideries and Men's and Boy's

Shirts and Collars. We bought at a time when the manufacturers were willing, yes anxious, to make liberal price concessions, getting values that we now in turn offer you through the agency of our always popular white sale. Indeed, this White Sale

is worthy of your careful attention; your patronage will surely follow. The price inducements are greater by far than those offer-

AGAINST CIGARETTES

Hudson Maxim, the gunpowder and high-explosive expert, has written for the Boy Magazine a letter on the "cigarette evil," which the Christian Advocate declares to be unexcelled as a contribution to the anti-cigarette literature. Concluding with the statement that "the yellow finger stain is an emblem of deeper degradation and enslavement than the ball and chair. he pronounces the opinion that with every breath of cigarette smoke a boy inhales imbecility and exhales manhood; that the wreath of cigarette smoke which curls above the head of the growing lad holds his brain in an iron grip which prevents it from growing and his mind from developing just as surely as the iron shoe does the foot of the Chinese girl; and that the cigarette is right in business in making invalids, crimnals, and fools. Mr. Maxim is no friend to the pipe or cigar, but his unfriendliness is particularly marked toward the cigar.
