Come to our sale tomorrow and he convinced of what we claim. We will make the terms of purchase easy. Our mission is to help home-builders. Can't we help you?

E. J. HOLL Auctioneer He Cuts the Earth To Suit Your Taste

It is an old saying and a true one, "that nothing succeeds like success." The success of our sale last year was a revelation but the sale now in progress has been more so. It is very easy to interest the public when we give value for money, and certainly everybody has been interested in our Orford Park Auction. The crowds artending prove it and certainly the buyers of lots prove that good real estate is yet valuable in Manchester. Everybody is surprised at the progress made in one short year. You will be surprised at the progress made in the next few years. Don't put off the visit until Monday, but come tomorrow, Saturday, and secure one of the few remaining lots. You don't have to wait for improvements, they have already arrived.

The investment of a few dollars now may mean a good deal to you later on. Real estate is one of the finest and safest invest ments that we can possibly hold. It cannot get away from you. Bank failures, embezzlements and trickery do not effect your title, and if the industries of the country continue to grow as they are bound to do, investments in real estate will continue to double and triple. Some of the largest fortunes in America were founded from small investments in suburban real estate. The same chances are here today. It is no use having opportunities if you do not grasp them. If you would buy land for a home, investment or speculation you cannot do better than invest your money in Orford Park.
