It is full of strongly marked parts, in which it is promised such favorites as Frank Monroe and Clark Hancock will be seen.

Offer of Trotter Mill on Main Street. All Fully Equipped for This Purpose—Two Such Schools To Be Established at State Expense This Year—Hope Strong That This Community May Be Favored. It will be a bit of cheering information for residents of the North Congregational Church that the Committee of the Ninth School District, Inc., have made application to the State Board of Education for the establishment of a trade school in this place, to be located in the Trotter mill, on Main street directly north of the State Board of Education building, which property was recently acquired by Cheney Brothers by purchase from Mr. Trotter as previously set forth in these columns.

Chief Sheridan is Central—Persons Wanting Building Should See Him. Chief John P. Sheridan of the local police force closed arrangements yesterday whereby he has secured control of the local armory on Wells street for a period of years. It will be remembered that C. O. Trotter and Dr. W. R. Tinker recently purchased the interests of F. E. Watkins and C. G. Watkins in the building and by the terms of the lease mentioned above, they turned over the entire control of the property to Chief Sheridan.

It is the purpose of Chief Sheridan to repair and rejuvenate the interior more or less during the vacation period and have it in order for the opening of the fall season. Members of fraternal and other organizations wishing the use of the armory for fairs, dances, entertainments and such like may call upon the Chief and make such arrangements as they desire.

While Chief Sheridan has not worked out in detail all the plans for use of the armory, he has considered other things the holding of roller-skating, polo contests, basketball games, moving pictures, and such like in order that the young people of this place may be furnished with proper amusement without being under the necessity of going to Hartford for same. He intends to have the interior made thoroughly presentable and satisfactory to the public in point of cleanliness and other features.

That good order will be maintained at all public entertainments of whatsoever nature, may be taken for granted. It is a piece of good news to the pleasure-loving people of this place that they will be furnished with proper amusement without being under the necessity of going to Hartford for same. He intends to have the interior made thoroughly presentable and satisfactory to the public in point of cleanliness and other features.

Another Band Concert. A band concert will be given by the Milton Band, Manchester, on Main street in the business-section next Wednesday evening. This concert will be for the purpose of advertising the excursion of the St. Marys Young Men's Club to Sarin Rock.

Section 1. Section 2. The state board of education shall expend the funds provided for the support of trade schools, and their teachers, make reports for their management, and shall file annually with the comptroller, to be audited by him, a statement of expenses on account of such schools, and shall annually make to the governor a report of the condition of such schools and the things of said board in connection therewith. Section 4. Members of Oxford Hose No. 3, South Manchester Fire Department have decided to purchase a campaign for the purpose of purchasing a new engine.

It was clearly demonstrated at the recent burning of the Home & Hale block that our water pressure is inadequate in case of a big fire when a considerable number of streams of water are employed simultaneously.

The proposed auto-chemical engine will have two large chemical tanks mounted on an automobile chassis, equipped with 60 to 90 horse power. It will carry an equipment of fire hose equivalent to that on the hose cart at present and will have arrangements for carrying chemical hand extinguishers.

Hose & Ladder Company No. 1 of the South Manchester Fire Department is equipped with a good chemical outfit. It has been observed on several occasions, when an alarm of fire was rung in certain times of the city, that hoses were not always available to draw the present fire fighting apparatus to the scene of the fire.

The following officers were installed: Noble Grand, J. D. Henderson, Jr.; vice president, R. M. O'Connell; recording secretary, J. H. ...
