Wed. April 20

"FAIRVIEW"

Following our usual custcm we shall offer for sale to the highest bidders this beautiful tract of building lots and extend a cordial invitation to all who are interested to attend the sale. We are convinced that in Fairview we have absolutely the finest location that can be offered for home sites in the Town of Manchester, for home sites in the Town of Manchester, & Monday, April 188 and it was only after a great deal of trouble and at great & Monday, April 188 in all, but seventeen of these have already been sold, and some of the lots built upon. Situated on the Hartford Tuesday, Arpil 19 minutes from Hartford. It will commend itself to all thoughtful people as an ideal spot on which to locate. It is situated on high ground and every lot is as level as a

The South Manchester Water Company extended their water mains right into the property last fall thus assuring those wishing to build of a supply of town water-The selectmen have approved the layout of the three fine wide streets which run through the property and everything is being done to develop the tract in conformity with the wishes of the town authorities. FAIRVIEW was formerly known as the Merkel

Place and was owned by the late Frank Merkel. Many real estate developers have endeavored to secure it in the past few years, being attracted by its high elevation and natural advantages for building purposes. It is situated on Olcott and Adams streets opposite McKee switch.

We are convinced that all purchasers at Fairview will see their investment grow in value, and remember you make your own price, for the lots will be sold to the highest bidder at public auction.

A FEW FACTS FOR YOU § TO CONSIDER APRIL 16

INVESTIGATE THE MEN BEHIND THE PROPERTY

The advertisements and literature of real estate developements abound in glorious promises unfilled. Before you buy anything, look up the men who make the promises, investigate whether they have made good in the past, and the experience and training which they have to assure their making good in the future.

ENVIRONMENT

Don't imagine that any magic is going to make a desert waste blossom like the rose, and create beauty and great value where none logically exists. You will find, however, that our property is highly desirable and possibly more elaborate than the older portions of the town, and if anything is sure of gtowth in value, we think the lots on

A country home is an investment whose biggest dividends are HEALTH and HAPPINESS, but always buy where you can sell quickly if need be, and for never less than 100 cents on the dollar. This assurance of salability is one of the very greatest importance.

We claim we have a preperty in Fairview that will commend itself to you for home or investment purposes. One has only to visit this section and see for themselves to be convinced of what we claim: A judicious investment here may be worth a life time of labor. The average man cannot save a fortune. Fortune must be sought. It does not come to him who waits. The man who would have things must go after them. It needs nerve, courage, manhood and work—nothing more.

Come to our auction on the opening day, Saturday, April 16, when the choice lots will be offered. Prepare to

Every member of the party agreed that Wallace must have slid into the crevasse. As for me, I said nothing, thinking the chances either way were even. We returned to Interlaken, and the party reported the result of their investigations, with the opinion that the body, being in the crevasse, could not easily be recovered. I resolved to await developments. If Wallace had escaped we should hear from him withame up to me while I was standi
