A DEED OF DARING. Twenty-seven Lives Baved by One

Man In a Shipwrook, A historic case of daring and endurance rarely equaled in life saving annals was that of the rescue of twentyseven souls by one man in 1867. The fishing schooner Sea Clipper was driven by the tempest against a reef near the Spotted islands on that coast and speedily went to pieces. Captain William Jackman, in charge of a fishing crew at these islands, had wandered in a direction he had never been before as if by inspiration and suddenly saw the whole tragedy enacted before his eyes. Hurrying his one companion back to the fishing station to summon help, he plunged into the howling swirl himself and eleven times swam to the ship Each time he took back splendidly against wind and tide.
