OL. XIX NO. 13

SOUTH MANCHESTER CONN. FRIDAY MAY 26 1911

THREE CENTS

Local Paragraphs

INTERESTING ITEMS BOILED DOWN FOR BUSY READERS.

The annual spraying of elm trees on the Cheney lawn is now in progress. E. J. Holl is superintending the construction of a double tenement of six rooms each side at Orford park.

The local W. C. T. U. will meet at the South Methodist church next Tuesday afternoon at 2:45 o'clock.

A daughter was born Tuesday to Nelson and Mrs. Fields of Charter Oak street.

Mrs. William Rubnow has returned from New York after enjoying a visit with relatives.

Mrs. Henry Morgan and her daughter Mrs. Adele Morgan are spending two weeks visiting with friends in New Haven.

Road Superintendent Ulrich is staking out the line for the proposed 60-foot highway on West Center and Chestnut streets.

The twelve-year-old son of Mr. and Mrs. Best of Edgerton street is suffering with scarlet fever and the premises have been quarantined by Health Officer Dr. W. R. Tinker.

Dr. H. A. Hfahling has leased the residence corner of Main and Charter Oak streets recently vacated by W. J. Flood and family and expects to occupy same as soon as necessary repairs can be made.

Thomas and Mrs. Fraize of Summit street took the body of their daughter Grace to Boston for burial last Wednesday. The child died at the home for incurables in Newburg Monday.

The family formerly resided in Boston. Next week Thursday evening a special meeting will be held at the Swedish Lutheran church to take action with reference to calling a pastor to succeed Rev. W. P. Anderson who leaves this week for Gladstone, Ill. to assume the duties of his new pastor to there.

It is estimated that the recent forest fire in Bolton did \$6,000 worth of damage to so far as the cost can be at this time be reckoned. That amount is for timber destroyed and in addition the cost of the fire fighters will add several hundred dollars more to the total amount.

Thomas Humphries, William Gleason and David Conlin agent Saturday in Bolton. If you want to hear some good fish stories just ask these boys what happened. They caught a long string of fish stories.

The tax for the Ninth School District incorporated will be due and collectible June first. It will be levied at the rate of two mills on the dollar and will be collected by tax collector J. Watson Goslee.

The work of laying the sanitary sewer from Main street near Eldridge has progressed up Main to School to the Rogers block and now is being pushed along in a northerly direction following the course of the dry brook.

Polignea A. Perry of High street has been indisposed for the past two weeks and unable to follow his usual occupation in Cheney Brothers silk mills. He is able to be out of doors and about however.

The two-year-old daughter of Jeffrey Moriarty, engineer at the South Manchester High school building, is suffering with a combination of the measles and croup at the home of Mrs. Louis F. Comst of 263 South Main street.

Mrs. Eugenia Oswald and her two little daughters and Mrs. Oswald's sister, Miss Myrtle Parker all of New York City arrived in town Tuesday afternoon and are to spend the summer here with Mrs. Anderson of the Farr block, Main street. Mrs. Oswald and Miss Parker are sisters of Mrs. Anderson.

Angelo Vined bought a six-roomed cottage on Birch street near Hill Wednesday. The transfer was made by Thomas R. Hayes for the owner, John G. Hawley of Hartford. The house was built last year by James Lenon, who exchanged it with Mr. Hawley for a farm in Wapville.

The widows and the blizzards are now in bloom and are mingling their fragrance with that of the new morn. The spice bushes also are lending their sweetness and perfume to the atmosphere in their immediate locality thus adding to the charm of life in this very delightful community at the present time.

Miss Dorothy Gilnock of South Main street expects to go to the Hartford Hospital next week to undergo an operation for appendicitis. It was her purpose to pass through the ordeal this week but the surgeons deemed it advisable that she should acquire some more strength first and consequently the operation was deferred another week.

Fire Insurance

Automobile liability insurance, real estate, fire, bank, etc. 111 1/2 Popular wall paper retailed at wholesale prices. Manchester Wall Paper Store, 51 street.

Goodman Strong has purchased a Harley-Davidson motor cycle from Madden Brothers, the local agents.

The six-year-old son of John and Mrs. Graham of Wadsworth street is suffering with diphtheria and the premises are quarantined.

Dr. Harry R. Sharpe is at Baltimore, Md., taking a special course of study at the Johns Hopkins University hospital. He expects to return about the middle of June.

The Girls Friendly Society will give a supper at Cheney Hall Thursday evening, May 25, from six to eight o'clock. Tickets at 25 cents each are on sale by the members. All are invited.

L. J. Richman the jeweler has added a quartered oak cabinet to his store equipment this week. In the amount of space at his disposal Mr. Richman manages to carry a choice and select stock of jewelry, cut glass, silverware, etc.

The town received a new watering cart this week and the macadam roads are being better sprinkled accordingly. In view of the protracted dry spell which is prevailing here this additional equipment is most timely.

Mrs. Harry M. Burke of Church street has been indisposed all this week but is somewhat better this morning. She is not able to be out of bed yet however. Her daughter, Miss Lorenza, is recovering from an attack of measles.

John Nelson, the shoe repairer in the La Lango block on Main street, this place, was operated upon for appendicitis last Monday at the New Britain hospital. Dr. E. T. Foxman performed the operation, which was successful.

A surprise party was given Mrs. Amanda's Friday at her home on Ridge street Monday afternoon. An abundance of good things to eat was brought in by the neighbors and friends and a very pleasant social time ensued. As a pleasant reminder of the occasion Mrs. Friberg was presented with a linen tablecloth.

Cheney Brothers have donated to the Sixth school district a strip of land suitable for a playground at the school building on Chestnut street. They also intend to furnish the material for fencing the grounds as the present enclosure has become dilapidated and will be replaced by a new and more sightly one.

G. L. Bidwell of Hartford but formerly of the Center street, this place, has purchased the property of the Vernon Woolen Company at Vernon which includes the 150 horse power water privilege, fourteen dwellings and all the land owned there by the Company. The mill was destroyed by fire October 14, 1909.

Rev. W. P. Anderson preached his farewell sermon as pastor of the Swedish Lutheran church here last Sunday and gave a review of his sixteen years pastorate which will appear in our columns next week. His household effects were shipped yesterday to Stoughton, Illinois, where he has secured the pastorate of the Swedish Lutheran church. He expects to leave town for his new home in a few days.

The following committee has been appointed to arrange for the annual meeting of the Manchester Business Men's Association: Chairman O. F. Toop, W. C. Cheney, N. B. Richards, G. E. Willis, G. H. Howe, E. J. Holl, E. S. Egan, F. J. Farrar, W. E. Hibbard, G. E. Keith, E. T. Ferris, L. E. House, H. F. Hille and J. A. Alford, and G. W. Smith.

George Miner the genial tonsorial artist at the Count's Barber shop and George Ferris of the Herald are displaying new bicycle models of the Crumpler pattern this week. These machines are right up to date in every particular and are of the very popular gray line. Both young men are very proud of their mounts.

Rev. Dr. George W. Reynolds will give an illustrated lecture in the Center Congregational church parish hall next Sunday evening at 7 o'clock. His subject will be "The World in Boston. The views will be thrown on the screen by means of the reflectoscope from postals that Dr. Reynolds purchased while attending the great Missionary Convention in Boston last week.

Druggist William F. Bostwick is suffering with rheumatism which has disabled him since last Friday. Albert Wilkinson is substituting as druggist for Mr. Bostwick at the Weldon Drug Store. The genial "Billy" is greatly enjoying his vacation here in Wadsworth's drug store. It seems as though he were a permanent fixture there and that Weldon's drug store without "Billy" would be a very unusual and strange place to many of the regular patrons of that well known and popular rendezvous.

Banish Flies

Flies may be effectively disposed of without the use of poison. Take half a teaspoonful of black pepper and a whole teaspoon of cream, mix well and put on a plate; then place where the flies are most troublesome and they will soon disappear.—Nations' Magazine for May.

Window shades in all grades and at low prices. Manchester Wall Paper Store, 51 street.

STRAW HATS

All the latest styles in the newest straws at lowest possible prices.

Everything you want in Straws will be found here. Every Hat is absolutely new as we carried over none of last year's hats. Values at \$5.00 and \$6.00 that will interest you. These are the very best values ever offered in Manchester. Call and get our prices. We invite comparison.

PANAMA HATS CLEANED AND REBLOKED

Summer Underwear in the B. V. D. and Porosknit BALBRIGGAN AND DERBY RIBBED 25c to \$1.00 Short and Stout Drawers for Men who have short legs Union Suits that are Cool and Comfortable

NOTICE

All persons liable by law to pay taxes in the Ninth School District of Manchester, are hereby notified that the assessors of said town of Manchester have returned to Charles R. Hathaway, clerk of said district, a list of valuation on the grand list of 1910, of said town, made by them under provisions of the General Statutes, and that said assessors and the selectmen of said town will meet at the office of the selectmen in said town on the 29th day of May 1911 at 2 o'clock on the afternoon, at which time said assessors and said selectmen have the same power in relation to said list that the Board of Relief has in relation to town lists. Dated at Manchester, May 19th, 1911.

Howell Henchay Charles R. Hathaway William J. McGurk George W. Reynolds District Committee

The Elusive Fly. Any one who has tried with outstretched hand to catch a fly cannot fail to have noticed its wonderful alertness in escaping. "One reason for this," explains a naturalist, "is the fact that the fly was watching the movements of its would be captor out of all or most of its 8,000 eyes. Another reason for its rapid retreat is that, instead of seeing one hand coming toward it, the fly could have seen at least 7,000 hands all looking alike and all moving down upon it in the same direction. A third reason of the fly's aliveness is its ability to vibrate its wings nearly 700 times in a second and to travel through the air at a rate of a mile in two and a half minutes or twenty-four miles an hour."

Antiquity of the Bee. The bee has been man's companion and friend from the very dawn of historic time. As far back as we can go we find the busy bee working for man's delight. The oldest writings of the Hebrews, Greeks and Romans are full of references to honey and its interesting makers. The "honey of Hymettus" was noted for its delightful flavor and from the bees that made it the most illustrious of the Greek writers and orators took some of their most telling simile and illustrations.—New York American.

The Elusive Fly. Any one who has tried with outstretched hand to catch a fly cannot fail to have noticed its wonderful alertness in escaping. "One reason for this," explains a naturalist, "is the fact that the fly was watching the movements of its would be captor out of all or most of its 8,000 eyes. Another reason for its rapid retreat is that, instead of seeing one hand coming toward it, the fly could have seen at least 7,000 hands all looking alike and all moving down upon it in the same direction. A third reason of the fly's aliveness is its ability to vibrate its wings nearly 700 times in a second and to travel through the air at a rate of a mile in two and a half minutes or twenty-four miles an hour."

Antiquity of the Bee. The bee has been man's companion and friend from the very dawn of historic time. As far back as we can go we find the busy bee working for man's delight. The oldest writings of the Hebrews, Greeks and Romans are full of references to honey and its interesting makers. The "honey of Hymettus" was noted for its delightful flavor and from the bees that made it the most illustrious of the Greek writers and orators took some of their most telling simile and illustrations.—New York American.

Memorial Day

Next Tuesday will be Memorial Day on which occasion the mills the schools and the banks will be closed all day and stores will close at one o'clock in the afternoon. The regular Memorial Exercises will begin at Cheney hall at 2 o'clock where the program as published in these columns last week will be carried out. Company G First Infantry C. N. G. will act as escort for Dragoes Post No. 4 G. A. R. The Salvation Army Band and the Center Flute Band will furnish music. Frank D. Cheney will act as marshal of the day and with his aids will have charge of the procession. The town authorities have given the Grand Army the right of way on Elm street, Hartford Road and Main street, from Hartford Road to Center during the time of the parade. Persons who desire to contribute flowers will be kind enough to arrange them in bouquets, wreaths, etc. and leave them at Cheney hall or at Balc's and Brown's store sometime during the forenoon of Memorial Day. Attorney Wm. F. Atone of New Haven will deliver the oration at Cheney hall. Householders will display the American Flag as a tribute to the memory of the departed veterans. Delegations from Dragoes Post will decorate the graves of their departed comrades.

Left Town

Rev. Aaron Hart, pastor of the Pentecostal Church of the Nazarenes has resigned his pastorate and removed to Sagamore, Mass. where he and his good wife will reside with their son-in-law and spend their remaining days on a farm. Rev. Mr. Hart is 71 years old but is robust and vigorous. He received a unanimous call to remain with the church over for another year and his parishioners expected that he would accept. The decision to retire from the ministry was made rather abruptly and therefore came as a surprise to his people. The annual meeting of the district will take place the latter part of June and at that time it is believed that a successor to Rev. Mr. Hart will be appointed. The parishioners of the Pentecostal Church of the Nazarenes fixed up a nice home for Rev. Mr. Hart as an annex to the church. It is well appointed, comfortable and convenient and will be enjoyed by his son-in-law. Rev. Mr. Hart leaves today with the kindliest wishes of many persons here outside of his pastorate. He was an earnest, able, popular, preacher and did much good work in this community. He has labored in the Ministry vineyard for three and one-half years in this community.

Needs Oiling

If there is a thoroughfare in town that needs a complete saturation with oil it is that leading from Main street to the Manchester freight depot. The dust there is dry weather is certainly an abomination. We know of no other town so much so as to be along the route described above. A thorough soaking of oil there would do much good and be greatly appreciated by the many teamsters who drive three day after day.

Reducing Church Debt

At all the masses in St. James church last Sunday Rev. W. J. McGark announced that the annual collection for the parish would take place five Sundays from last Sunday, which will be June 25th. This entire collection is to be applied to reducing the debt of the parish. Father McGark also announced that the offertory collections for this year had been applied to the debt account and had already reduced it to \$500.

The Borough of Bristol is to receive plans and specifications for a new Washington, D. C. for a proposed federal building for Bristol. Work on the building is to be started this year and it is believed that it will be ready for occupancy by July 1912.

Last Tuesday was a stunner for May 25. The official record of the temperature was 95 in the shade. This sets the record of the provincial oldest inhabitant to bring to mind so high a marking heretofore at that date.

Hunter-Bradford

Carefully computed figures of attendance show that this far the patronage of the Hunter-Bradford Players at Pasqua Theater is one-third greater than at any previous season, a notable tribute to the great progress in popular favor of this organization and of the special attractiveness of the plays chosen for presentation. The notable figures of all the seven successful seasons are being recorded by the Hunter-Bradford Players. Incidentally all the players have opportunity to score yet more decisive personal hits, with Marion Lorne's portrayal of the title role a prime feature. The role of Miss Kitty is a unique test of the abilities of any comedienne and that Miss Lorne should emerge from the gamut with such complete honors is fresh proof of her remarkable qualities. The big gala revival event scheduled for next week when The College Widow will be given with a honied presence in the cast, is attracting great attention. This masterpiece by George Ade drew enormous audiences a year ago and the requests that it be presented anew have come in increasing numbers ever since the opening of the current season. The Hunter-Bradford Players are planning an even greater production in every respect than the brilliant success of last year. The production will be many novel features, especially in the musical aspect of the comedy. The scenic production will be entirely new and the cast will be faithfully representative of the town. The play has hit the boards in Chicago. On Monday evening will be the big benefit charity event which great success is already assured.

Swear, KERRY BELLAIS

The Hunter-Bradford Players are having fine success this week with their presentation of that very diverting and allegorically comedy-drama Swear, Kitty Bella. Performances will be given tonight and twice tomorrow, which will close a week's successful run of this very popular play. "COLLEGE WIDOW" NEXT WEEK Next week at Pasqua Theater will be the revival work—George Ade's highly diverting comedy, The College Widow being the selection by the Hunter-Bradford Players. The fourth week of the Hunter-Bradford season has always been the occasion for presenting anew the offering that had previously proven a success to Rev. Mr. Hart. There is an abundance of custom in this revival. The College Widow needs no introduction, but it is apropos to remark that this presentation will be on a more elaborate scale than when it first went Hartford playgoers into wild raptures of excitement. There will be an even hand-drawn persons in the company, and there will be notable addition to the musical aspect of the entertainment—thereby giving one of the most interesting revivals of the past season.

Going To Ireland

Timothy Hayes of Hackensack street will leave for Hartford on Friday New York City this evening and tomorrow will sail for Ireland going on the steamship Cedric of the White Star Line. Mr. Hayes intends to go to County Clare, Limerick, the place of his birth and visit the graves of his ancestors over the hills and valleys that were so dear to his heart and so entwined with his happy childhood days. It is 45 years since he saw the Old Sod and he has a longing in his heart to return once again and remain in so far as he may access and acquaintance of merry boyhood. He will be accompanied by his son Daniel, who is 15 years old. Mr. Hayes is employed as teamster for R. O. Cheney and has been in the service of Ch. Wm. Brothers either as a firm or as individual members thereof 42 years; or nearly during the entire period of his residence in the United States. The only break there was in this long sojourn was when he took a trip across the Continent once to California, and was away from South Manchester for a year. He has not in a long and faithful stewardship here and is greatly esteemed by his present employers. They have noted his faithfulness, his reliability and his efficiency and know that as one truly up to the standard and of his station in life. That's a creditable performance for any man and one that not many are able to accomplish.

Hacker's Bro here of Bostland are vacationing in the tobacco growers and as a consequence they have two four-act plays now on in course of construction on the railroad tracks in Bostland, evenings, Sundays and holidays they go out riding in their own automobiles.

Widow's eye is pained from books, but she knows she is gaining from experience.

Decoration Specials in The Surprise Store!

PUBLIC UTILITIES REPORTS COME IN

Majority For Two Commissions; Minority For One. SUNDAY LIQUOR LAW PASSED.

Senate Reverses Itself Despite Senator Fitch's Efforts—Filibuster Passes Out and Save is Turned Down—House Settles Auto Bill. Hartford, May 24.—At last the public utilities bill report—two reports, in fact. They came into the senate yesterday. The majority report provides for another commission of three to take charge of all other public service corporations except railroads and trolley cars and the retention of the present state railroad commission. The minority report provides for a single commission to take over all public utilities of any kind and the abolition of the present railroad commission. There are to be three commissioners at a salary of \$5,000 a year as against three at \$3,000 a year in the majority report. The minority report provides for the State Business Men's association bill in a general way, furnishing jurisdiction over rates, service and capitalization. Senator Mahan, House Chairman of the Judiciary committee and Messrs. Stewart of North Stonington, Hobbart of Ansonia, Reynolds of East Hartford, Hartford of Stamford and Hitchcock of New Britain have signed the majority report and Senator Judson, senate chairman of the committee, and Messrs. Tingler of Vernon, the Democratic leader of the house, Huntington of Windsor and Edwards of Thomaston signed the minority report. Mr. Huntington is credited with being against all commissions; but, feeling that the minority bill had the lesser chance, he voted for it, and he was hardly been taken up in the senate this week in all likelihood. Sunday Liquor Bill Passed. The house spent a lot of time today on the matter of election of county commissioners by the people, a Democratic bill which has been before several recent general assemblies. Many Democrats made speeches on it, though it was a foregone conclusion that it would be defeated. One or two Republicans favored it also, and the vote showed that there were Republican voters for it. The vote was by roll call and stood 113 to 95 against the proposition. Meaning the senate was struggling with the measure which would permit hotels to sell liquors to guests on Sundays, described below. Last week this bill was rejected, then rescinded and laid on the table. On the morning of the day the senate passed the bill by a vote of 24 to 6. The senate also passed the new charter, the first commission charter for a Connecticut city, which has already passed the house. Senate Filibuster Expires. The senatorial filibuster which was started last Tuesday came to a very sudden end the next day. When the senate recessed Tuesday afternoon it was intended to prolong it until after the tenth legislative day had expired, but the Democrats realized that it would be entirely possible to recess at the end of each day's business, so that the filibuster would not be extended beyond Tuesday's work, and until the session itself ended so far as the senate was concerned if the Republicans gave every indication of choosing to do so, moreover. Not only that, but the Democrats came to see also that there was nothing in their filibuster. To prolong the executive session's consideration of the nomination of John I. Saxe of Waterbury for state factory inspector until the last day for the senate to act on the tenth session day after it was made by the governor, had passed would not affect the situation at all. In fact, the statute says that the senate must act within ten days, but provides a penalty or alternative, and its failure to do so would not make the appointment good, but this was the order of the day, and Tuesday was started being that it would. Another thought was that if the filibuster was successful, the governor would have no action by the senate this would create a vacancy, and the governor could then appoint the office, whereas the bill might choose. But this was also exploded as soon as it was possible to get expert advice on the matter, for Factory Inspector McLean was appointed to hold office until his successor was duly appointed and qualified and would therefore simply hold over. Saxe Turned Down. When the senate came in Wednesday morning the executive session was postponed a day to admit of the preliminary business of the day, and Mr. Saxe of Waterbury introduced an amendment making the rate 90 cents flat, and this passed. It was after 10 o'clock when the amendment passed, and adjourned for the week.

Cities to Pay For Oil

Another matter which was not definitely settled took up considerable time of the senate on Thursday, and a bill which would make it necessary for cities and towns where street sprinkling is done with something besides water, meaning all of some sort to pay for the oil used by the street railways in sprinkling within their trucks and for two feet outside, at the state law requires them to do. The house amended this bill so as to require the trolley companies to pay for their own oil, but whatever other amendments were required to be made by the local government except water, which the present law makes it compulsory on the city or town to furnish. This was quite contrary to the ideas of Senator Bartlett, who made a rambling explanation on behalf of the cities and boroughs committees, of which he is senate chairman. Senators Penn and Judson, however, couldn't see why the cost of the oil should be imposed on the city or town. They would furnish water without cost, but they would have to go to expense, in some cases heavy, to furnish oil. Both were so in their support of the house amendment. When Senator Bartlett realized that there was every likelihood of the senate passing this bill, he was agreeable to the suggestion that the bill be tabled for the printing of the amendment, which was done.

Automobile Bill Passes

The house was in session May Tuesday and Wednesday of last week, but on the latter day held the first afternoon session of the year. The automobile bill was the order of the day, and three or four hours were spent on it, a recess being taken at midday for lunch. The point about which there was the most discussion concerned the speed limit, which had been put into the law by the committee on roads, bridges and rivers. Otherwise the bill changes the present law but little and along the lines already described in this correspondence. The state grants a back of the effort to get into the law a speed limit of thirty-five miles an hour, beyond which it shall be unlawful for any driver to drive at any time. The present sections making reckless driving the criterion and making it prima facie evidence of reckless driving to drive over twenty-five miles an hour were left as they were by the committee, but the house was not satisfied with this and talked and talked about it. Amendment after amendment was offered with the idea of making this provision apply only to repair, and in the end nothing was done about it. The thirty-five mile limit was simply stricken from the bill and the law left as it is. It took hours to do this, however. Another amendment which was suggested took from the bill the provision that for every horsepower over thirty the license fee should be 90 cents a horsepower instead of 80 cents, but Mr. Hall of Willington introduced an amendment making the rate 90 cents flat, and this passed. It was after 10 o'clock when the amendment passed, and adjourned for the week.

Window shades from twenty-five cents upwards. Manchester Wall Paper Store, 51 Spruce street.

Automobile liability insurance, real estate. Faulkner, Bank Bldg. 1117

POSTAL SAVINGS BANK

South Manchester To Have One This Month

The postal authorities at Washington, D. C. have decided to open a postal savings bank at the South Manchester postoffice Tuesday, June 27.

It is usual to have a National Bank serve as such depository but as we have no such bank here perhaps a different arrangement may be made.

It is the purpose of the new owners to develop the property. They intend to cut a street from Wells street to Charter Oak directly east of the Armory opera house which they own.

Larson-Ostergren

John A. Larson and Miss Judith Ostergren were married at the Swedish Congregational church last evening by Rev. E. E. Nordberg.

Postmaster W. B. Cheney received the new mail today official notification from the Post Office Department at Washington, D. C. of the proposed installing of a postal savings bank as noted above.

Registrar To Meet

Registrar of Voters Thomas Ferguson and E. L. J. Hohenthal will hold a public session at the Hall of Records next Wednesday evening from 7 to 9 o'clock for the purpose of giving information relative to those becoming naturalized citizens of the United States and taking out the necessary papers admitting all such to this important privilege.

Going To Maine

Rev. F. E. Nordberg pastor of the Swedish Congregational church will attend prolonged meetings in Maine of pastors of Swedish Congregational churches of New England during the last two weeks in June.

Admiral Place Sold

Through the agency of Thomas R. Hayes the Dr. Adams place on Main street has been sold to Clarence Ely of Hartford and Hartford and is to be occupied by the new owner as soon as the necessary arrangements can be made.

Fire Insurance

Automobile liability insurance, real estate. Faulkner, Bank Bldg. 1117

Queen Quality SHOES

The makers of "Queen Quality" shoes have made an outlay of over a million dollars for the permanent establishment of the name "Queen Quality" so that women may escape all risks and be sure of what they are buying.

Buy the shoe with the one-million dollar reputation behind it. Insist on the "Queen Quality" trade-mark.

The early summer styles are now on view and we most cordially invite your inspection of these "World Famous Shoes."

GEO. W. SMITH

3-Burner New Perfection Oil Stoves 7.75

There has been the thought on the part of some that these stoves were being sold cheaply because of inferior quality.

Now as a matter of fact there is no such thing as a second hand Standard Oil Company stove.

They are making an oil stove in order to increase the demand for their oil and it is their one idea to make it just as perfect, just as cheap as possible.

The more satisfactory the stove, the lower the price, the more people will use them and consequently the more oil will be required by the general public.

In pursuance of this idea of making a place for more oil, the Standard Oil Company said to us—"You buy a certain number of stoves of us and we will let you have them at a price that will allow you to sell them cheap."

You see the idea—the Standard Oil Company sell us a good many more than they otherwise would; we double our output; you reap the benefit in a greatly reduced selling price.

The only thing about it is you will have to take the stoves in the crates.

Perhaps you think it would be a small matter for us to set them up and it actually does not take but a few minutes to put together one stove but when it comes to six or eight in a day the time required runs into hours.

If you find anything the matter with the stove on opening the crate or if for any reason it is not entirely satisfactory you can bring it back and we will give you a new stove or your money as you wish.

There is no good reason why anyone should stand over a hot coal range this summer. Any family can own a reliable oil stove at these prices.

Installments purchases will be welcomed at our former cash prices and on our usual terms.

All kinds of ovens \$1 75 \$2 00 \$2 25 \$2 50 \$2 75 Cabinets for the two-burner \$4 00 extra. Cabinets for the three-burner \$4 50 extra.
