Wedded

WILSON—FRANTICE
David Wilson and Miss Ruth Frantice, daughter of Adam and Mrs. Frantice of South Main street were married at the parsonage of the Norb Methodist church Labor Day. Rev. W. F. Taylor performed the ceremony. The couple were attended by Miss Annie Telford as bridesmaid and Thomas Frantice, brother of the bride acted as groomsmen. They went on a short wedding trip and now have taken up housekeeping on Charter Oak street.

ROGERS—TROY
Dr. Arthur E. Rogers of Waterbury, son of James and Mrs. Rogers of Pearl street and Miss Josephine Troy, daughter of Mrs. Margaret E. Troy of Glastonbury were married at the home of the bride last Tuesday afternoon in the presence of a goodly gathering of relatives and friends. Rev. George H. Rogers, pastor of the First M. E. church of West Springfield, Mass. and uncle of the groom performed the ceremony, which took place underneath a bower of golden rod and ferns. The bride was beautifully attired in a gown of "le crepe-de-chine over white silk and carried a shower bouquet of white bridal roses. Her bridal veil was caught up with orange blossoms. They were unattended. The house was prettily decorated for the occasion, the color scheme of the parlor being green and yellow and of the dining room pink and white. A wedding lunch followed which was served by Habersheim of Hartford. Guests were present from Springfield, Mass., Hartford, Manchester, Middletown, Waterbury, Meriden, New Haven and Glastonbury. The young couple left on a honeymoon trip to spend at Bermuda and then return will reside at 91 Waterbury street, Hartford, where they will be at home after October 1st. Dr. and Mrs. Rogers are well and popularly known in this place. The bride is a graduate of the local high school in the class of 1910. The groom is a native of this town and is also a graduate of the local high school. He was a member of the class of 1903. After graduating from the high school he went to college in Springfield, the Baltimore College of Dental Surgery and practiced in town before opening his office in Waterbury. The couple received a large number of wedding presents in cut glass, linen and silver.

Accidents

While returning from work on his bicycle last Monday evening William Brown of Highland Park collided with John O'Keefe of Spruce street and both men were thrown to the ground. Mr. Brown's shoulder was wrenched and bruised and Mr. O'Keefe came out of the fray with a fractured rib.

James Goodrich, employed by the Manchester Lumber Company was struck in the head by a timber while loading his wagon last Monday and received a cut in the head which required several stitches to close.

Mrs. Schaller is suffering with blood poisoning because she did not give the necessary attention to a cut on her hand which she received last week. While going to Hartford last Saturday afternoon on a trolley car Thomas Joyce of Waterbury received a bad injury to his left knee. The accident happened on the 'twain Hill' section where the new track is being laid. The new track is not in position as yet and as the car in which Mr. Joyce was riding passed a work car on the new track his left knee, which was protruding, came in contact with the work car inflicting a cut and inch and a half laceration.

While at work in the silk mill yesterday Miss Margaret Leary caught her finger in a loom and it was badly marked before the loom could be stopped.

John Gribbin, who has been in the Hartford hospital suffering with a fractured hip has returned to his home in this place.

WILL YOU MR. VOTER DEFEND YOURSELF AT DIRECT PRIMARY HERE NEXT TUESDAY?

Selectmen Who Ignored Your Remonstrance Against Double Tracking and Laying Tracks On Side of Streets Are Now Looking for Your Votes.

One does not need to have his ear very close to the ground to find out that there is considerable resentment felt in town because of the recent action of the board of selectmen in going directly to the polls in order to vote on the petition in opposition to the clearly and forcibly expressed will of the people in the matter of granting concessions to the Connecticut Company.

Hearings were held for the alleged purpose of ascertaining the public will in the matter of granting the petition of the Connecticut Company to lay double tracks within the borders of the town of Manchester. The people assembled in goodly numbers in response to the invitation of the board of selectmen. They voiced their opposition to granting the petition unless the Connecticut Company granted a ten-cent trolley fare between this place and Hartford. Our people have been contending for this just demand for several years. They have employed every reasonable method within their control to bring about this important consideration. They felt that it was within their power to exert some pressure to secure their demands for a ten-cent trolley fare between this place and Hartford. They are naturally confident that the granting of the petition of the company for privilege to lay double tracks. They were also opposed almost unanimously to permitting the Connecticut Company to operate any more tracks on the side of the highways. They told the board of selectmen that if tracks were to be laid in the highways of the town of Manchester, they should be laid in the center of the street.

These two conditions they requested: First, that the petition of the Connecticut Company be not granted unless the request of the public for a ten-cent fare between this place and Hartford be granted. Second, that even if the ten-cent fare were granted and the permission given the company to lay double track, the line that should be laid should be laid in the middle of the highways.

The board of selectmen saw fit in their wisdom to go directly against the clearly expressed wishes of their constituents. They granted the petition of the Connecticut Company without insisting upon the request of the public upon the point just stated above. They failed to consider the desire of their constituents. They did not even make any explanation of their action or tell the people why they had yielded to the pressure of the most unscrupulous men in the town of Manchester. They failed to give to the public the reasons why they had yielded to the pressure of the most unscrupulous men in the town of Manchester.

What was the use of having the hearings if it was understood in advance by the board of selectmen that the board would not grant the request of the people for a ten-cent fare? It was of no consequence and that they were not rejected whether they were right or wrong.

Now, friends, these same gentlemen come before the voters and after the usual talk about the importance of the matter, they ask the voters to go to the polls and vote on the petition for the grant of a ten-cent fare between this place and Hartford. They ask the voters to go to the polls and vote on the petition for the grant of a ten-cent fare between this place and Hartford.

Be sure to mark an X beside the name of the candidate or candidates for whom you wish to vote.

It is well to remember that the officers for which more than the requisite number of names will appear on the ballot are only selectmen and assessors.

Should you by any mistake vote for more than the legal number, you will render your ballot void and will lose your vote for the particular candidate or candidates you intended to vote for.

Under the heading Primary Nominations appearing at the top of column on page three of this paper, you will find the official list prepared by the Town Clerk showing the candidates to be voted upon for the several offices.

Industrial Insurance

Arthur Beadell of Charter Oak street
is enjoying his annual vacation. He is
on a motorcycle tour to various points
of interest. Mr. Beadell has charge of
the department devoted to the interests
of beneficiaries under the provisions of
the Cheney Brothers Industrial Insurance
Company. It is his duty to investigate all
cases reported for benefits by members
and to make suitable record of same.
He must keep a correct history of every
case requiring benefits and see to it
that all are duly entitled to such.
This has grown to be a large depart-
ment and to call for much careful detail
work. A special system of bookkeeping
has been devised for keeping the
records of all such cases. Greatest care
is exercised to see that exact justice is
meted out to all parties concerned.
During the absence of the secretary-
tendant of this department the work is
in charge of his brother, Fred J. Beadell.
All members pay one and one-half
per centum of their weekly wages
into a fund that is used to pay them
in time of sickness or accident or as
pension in old age as the case may be.
There are five classes of beneficiaries
known as A, B, C, D, E and graded ac-
cording to the weekly wage received.
The higher the weekly wage the greater
the amount paid into the fund and
also the larger amount received as
benefits in case of sickness, accident,
or old age pension. The new system of
industrial insurance was started by
Cheney Brothers last year and is working
satisfactorily.

Back From Honeymoon

Attorney W. S. Hyde and bride
returned Saturday from their honeymoon.
When Mr. Hyde came down to his
office Monday morning he was met by
a box of cigars which were passed out
freely to all friends. Congratulations
were in order. The marriage was
conducted in executive session and
even the reporters were excluded.
Mr. Hyde went to Buffalo, Niagara
Falls, Toronto, Quebec, Montreal,
and also took a trip up the St. Lawrence.
They attended the great Toronto
Exposition. Mr. Hyde says that is
the largest thing of the kind he ever
witnessed. It is said that there is no
such annual exposition on the American
Continent as that to be seen at the
present time at Toronto. It attracts
visitors from all parts of the United
States year after year. Mr. Hyde found
Toronto to be a thoroughly Americanized
and progressive city. He says no
woods not only the difference between
Toronto and any American city of sim-
ilar size. Very little French is spoken
there. It was different at Quebec and
Montreal where nearly all speak the
French tongue. Mr. Hyde finds that
people of Canada are very much di-
vided on the reciprocity question but
believes that it will prevail. Mr. Hyde
visited a number of the Cathedrals and
Catholic churches in Canada and was
greatly surprised at their size, their
leading of adornment and their mag-
nificence in general. He says the
Canadian people are very religious.

Utilities Com. Organizes

Members of the former state railroad
commission, J. Howard Hale, Theodore
E. Ford and Richard T. Higgins, met
at the state capital last Saturday after-
noon and formally assumed their
duties as the first public utilities com-
missioners of the state. The railroad
members were appointed by the com-
missioners of the public utilities commis-
sion by Governor Simeon E. Baldwin in
accordance with the provisions of chap-
ter 128 of the public acts of 1911. Richard
T. Higgins, who will serve until
July 1, 1917, was chosen chief counsel
and Henry T. Billings was appointed sec-
retary. It was voted to employ C. C.
Ewell of New Haven as chief engineer
and inspector.

NEW PLAN

One of the winning musical forces
of the season is booked to appear at the
Army Opera House next Wednesday
evening, September 20, with a first
class company headed by the favorite
comedian James E. Ross. The piece is
full of snap and glee from beginning
to end and the comedy dialogue and
complicated situations create no end of
laughter. There is just enough plot to
keep interest up to the point where the
leading role of "Lamb" is in the hands
of Mr. Ross who exerts the character
of a young doctor who has an aged
aunt in a distant city whom he has
never met. The aunt determines to give
a big part of her fortune to the young
nephew provided he has proved him-
self to be a steady business man of good
habits. She thereupon unknown to
"Lamb" engages a lawyer to look into
his past life and make a report to her
regarding his habits. The lawyer who
has two marriageable daughters tries
to get one of them married off to the
doctor in order to secure some of the
aunt's wealth. The many complications
arising from the many mixups during
the action of the comedy create
screams of laughter. The production
has twenty odd musical numbers and
song hits. Reserved sitings at 35 cents
and 50 cents are on sale at Magnolia.

Game Club met at a restaurant in
Hartford last Saturday evening and
elected their annual meeting, which
was followed by a banquet. The club mem-
bership includes a number of Manches-
ter men. They have a game program
in Coventry which covers about 4,000
acres. They have acquired the right
to lease the land. The owners,
George M. Cobain and McEvitt, two local
players were in the visitors lineup.

The Auto Express

deliver and collect. They plan to
have Hartford at 10:30 and deliver here
before noon. They leave in the after-
noon for the second trip at 1:30 and
leave the city at 4:30. They have a
telephone at the South Manchester
office, 24 Summit street, the call of
which is 135-3. Their headquarters in
the city are at J. W. Roberts & Co.,
corner 49 Morgan street, where pack-
ages or telephone orders can be left
and will receive prompt attention.
They also have a delivery depot at the

HIS GRANDFATHER COLLECTS MINES, BUT HE PREFERENCES DOGS

This charming little boy represents a probable future head of the Guggenheim smelter trust, which at present occupies so large a place in the public eye on account of its alleged weakness for grabbing up vast tracts of rich mineral land. The little boy is Daniel Guggenheim, Jr., and the pretty lady in the picture is his mamma, who was Miss Green L. Bernheimer. Daniel is the son of M. Robert Guggenheim of New York. His grandpa is Daniel Guggenheim, the millionaire smelter and mine owner, president of the American Smelting and Refining company and of the

Photo by American Press Association. MASTER DANIEL GUGGENHEIM WITH HIS MOTHER AND DOG.

American Smelters Securities company, etc. Daniel's grandfather is probably the controller of more rich mines than King Solomon ever dreamed of. Little Daniel's great love at present is dogs. He has been photographed here with his pet Porthos, a captivating little King Charles spaniel that bears with dignity the honors won at a recent suburban dog show. Daniel's father is interested in the remains of English buildings, and the little boy's love of dogs is therefore inherited. Little Daniel in future years may grow to be as fond of mines as his grandfather, but just at present he wouldn't exchange his beloved Porthos for all the mines in the world.

FLOWER SOUVENIR.

A Suggestion for Travelers or Vacationists. Travelers and vacationists will find that a flower souvenir picked in the place it is sent from will be greatly appreciated by friends. The flower may be pressed and should be fastened to a card giving date and particulars of its picking. If possible send a flower or leaves characteristic of the place where it was picked. It is possible to send them on a picture postcard illustrating the place where they were found.

QUEEN MARY'S GEMS.

She Owns Nearly Half a Hundred Diamonds. Queen Mary had had her wonderful collection of diamonds reset. This serves to direct attention to the fact that these are her favorite stones. Though she possesses some very valuable rubies, emeralds and opals, she rarely wears them, and as a rule diamonds form her sole ornaments. Queen Alexandra, on the other hand, prefers to have her diamonds mixed with other stones. Her jewelry consists of emeralds and amethysts. Emeralds are the favorite stone of the Duchess of Connaught, who possesses the wonderful gem of the same name, worth a visit to the historical museum, museum of industry and the museums of art and nature; several libraries and the public gardens, which contain the great bear pit so universally known, to say nothing of the quaint gates and the headquarters of the Victoria station. Borne has been kept on public exhibition in Borne since 1860 in commemoration of the killing of one of the tigers of Zangrion on the site of the town.

TOMB IN A TOWER.

A Remarkable Edifice, the Whim of a Wealthy Tea Planter. Near the well known resort of Southampton, England, there is a remarkable edifice known as Peterston tower. The erection is all the more singular because it marks the burying place of a certain John Peterston, a wealthy tea planter.

The man appears to have been rather an eccentric individual, and in order to prove to the world his belief in concrete as a building material set about the construction of this great tower. The building took many years to complete, but is entirely of concrete and by the time the final layers had been placed had reached an altitude of more than 300 feet. It is about forty years since the tower was erected, and its present condition is certainly a justification of the faith of the builder.

PULLING THE COURT'S LEG.

A Practice the English Judge Did His Best to Discourage. The following remarkable judgment was delivered some years ago by a magistrate in one of the English colonies:

"I have been charged with having committed the crime of perjury in the court on his rising and while said court was in the act of mounting into his buggy came from behind and, seizing the court's hanging leg of the floor foot being on the step, forcibly pulled back the court, frightened the horse and nearly caused an accident. The reason for my doing this was that he wanted to hear the result of an application of his. The practice by petitioners of pulling the courts by the legs is one that should be discouraged. Accused only says he is a poor man, admitting the truth of the complaint. He is sentenced to one month's rigorous imprisonment."

Strange to relate, the lieutenant governor of the province on reading this judgment which was composed and dictated to meet with approval from minds running in legal grooves.

Borne and Its Bears. Borne is surrounded by the blue green river Aere, and seven bridges cross the picturesque suburbs; the number of the bears is one of the things to be had. One may walk through the streets of Borne with an American visitor, and find constant surprises. The odd continents will be observed with interest. They were mostly built in the sixteenth century. There are a number of public buildings, and a visit to the historical museum, museum of industry and the museums of art and nature; several libraries and the public gardens, which contain the great bear pit so universally known, to say nothing of the quaint gates and the headquarters of the Victoria station. Borne has been kept on public exhibition in Borne since 1860 in commemoration of the killing of one of the tigers of Zangrion on the site of the town.

When the Guitar Arrived. The advent of the English guitar in the eighteenth century caused the disappearance of dulcimers, polipaltans and similar instruments with lute-like construction. It supplanted them, for, owing to the use of fingers, the English guitar, though smaller, could be used for accompanying the voice as well as for solo performances. The instrument, which had a decorative appearance, is frequently depicted in the portraits of the eighteenth century. It was made in various sizes, two of the smaller, "to be managed by young ladies from seven to ten years of age, the other by ladies of ten and upward."

Fish Delusions. There are two popular delusions about fish—ones that they cannot live out of water and the other that they can live in any pure water, the food supply taking care of itself. As a matter of fact, there are fish in Africa which having to exist in absolutely dry rivers for a portion of the year, have developed lungs, with which they can breathe air. Fish cannot live in the water provided owing to lack of food.

Suspicious. "Very suspicious man, they say." "Very." Bought a dictionary last week, and now he's counting the words to see if it contains as many as the publishers claim.

True Courage. True courage has little to do with anger that there lies always the strongest suspicion against it where this passion is highest. True courage is cool and calm.

Cheerful Disposition. "She's of a very cheerful disposition, isn't she?" "Yes." Indeed, she even sings while washing dishes.—Detroit Free Press.

There are few things more can discover with so much certainty and ease as its own insincerity.—Collier.

The Cooks who have used the Single Damper of the Crawford Ranges

will never go back to the troublesome two-damper range

The cost of the food spoiled by mistakes in regulating the ordinary two-damper ranges amounts to a large sum.

The Single Damper of the Crawford affords absolute fire and oven control by one motion—slide the knob to "kindle," "bake" or "check," the range does the rest. The Oven of the Crawford has cup-joint heat flues which heat everywhere alike and make it the quickest and surest of bakers. The Two Hods (patented) in the base—one for ashes instead of the old clumsy ash pan—one for coal, is a great trouble-saving feature. Gas Ovens and Broilers above or at end of range, if desired. Ask the Crawford agent to show you and write us for circular. Walker & Pratt Mfg. Co., 31 Union St., Boston

A MERE MAN'S VIEWPOINT

Use a Little Diplomacy and the Neighbor's Boy Will Never Trouble You—Instead He'll Be an Ally.

THE neighbor's boy is a bad boy! It's because he is the housekeeper that when new boys are little derks. Upon questioning I discovered that they had come into the yard, had been told to leave and had resented the impertinence by throwing a stone through a basement window. "We'll have to get acquainted with these boys," I told Mary. "I'll see less you have" to do with them. "I'll see less you have" to do with them. "I'll see less you have" to do with them.

THE OLD LIBERTY BELL.

History of This Relic of the Revolutionary Patriots. Overgrown child of the old Liberty bell many years ago on the occasion of the celebration of the Declaration of Independence was what put the crack in it and forever destroyed its resonant tone. It was cast by Pass & Shaw in Philadelphia and being in the custody of the new historic state house in lower Chestnut street early in June, 1753. It contains 2,080 pounds of metal.

Valuable Advice...

Manchester and South Manchester Citizens Should Profit by the Following Statement.

Doan's Kidney Pills cured this Manchester resident. Their merits were shown—the story told. Now comes further evidence. The testimony is confirmed. This remedy was tested—the cure lasted. Could Manchester and South Manchester residents demand stronger proof? The Manchester testimonial, it can be investigated.

Mrs. David Wilson, 3 Malabar St., Manchester, Conn., says: "For a long time I was bothered by lameness in my back and was hardly able to get out of bed in the morning. Short use of Doan's Kidney Pills, procured of Quinn & Co.'s Drug Store, cured me, and since then I have felt better in every way."

The above statement was given in March 1909 and on August 1, 1911 Mrs. Wilson said: "I will gladly confirm all said in praise of Doan's Kidney Pills in any previous statement. I can only add at this time that I had no kinder trouble since then."

For sale by all dealers. Price 30c. Foster—McMurrin Co., Buffalo, New York, agents for the United States.

The 25 Hoosiers Have Arrived

And The Great Hoosier KITCHEN CABINET CLUB Opens For Members MONDAY

"The Hoosier Special Saves miles of steps for tired feet"

We have heralded the coming of the Hoosiers for some time, and much interest has been shown in their arrival. Now they are here, and Monday we begin enrolling members in the Manchester Kitchen Cabinet Club.

These clubs are formed in all the leading cities by the Hoosier representatives, for the sole purpose of allowing people to buy one of the celebrated Hoosier Kitchen Cabinets—exactly like picture—at the club rate of One Dollar at the time of entering your name, and

ONE DOLLAR A WEEK

for a few weeks. In other words, until the full price of the cabinet has been paid.

This club should not be confused with the installment plan, as it is under the direct supervision of The Hoosier Manufacturing Company, New Castle, Ind., the largest manufacturers of kitchen cabinets in the world.

Anyone upon entering her name in the Hoosier Club receives the immediate delivery of the cabinet to her home where it will begin at once to save hundreds of steps each day.

NEXT WEEK ONLY

The club will be open to members and is limited to 25 members, so if you wish to secure one of the cabinets at the club rate of One Dollar a week, you should enter your name at once.

The Hoosier has a separate place for everything used in the preparation of a meal, and will earn its cost many times over in the hundreds of steps and material it saves.

If you wish to know more about the Hoosier Cabinets or the Club plan, our demonstrator will be pleased to give you all information.

SOFT SHOES FOR TENDER FEET

Made by J. J. GROVER'S SONS
GROVER SOFT SHOES
FOR TENDER FEET
STANDARD OF COMFORT IN WOMEN'S FOOTWEAR
For more than forty years this house has made a specialty of shoes designed to give relief and comfort to tender and tired feet.

Every turned shoe manufactured by them (look for the trade-mark) is genuinely hand-sewed, bench-made in the old-fashioned way, with an excellent quality of material and workmanship.

Women whose feet are naturally tender, or have been made over-sensitive by the wearing of ill-fitting boots, may here find shoes peculiarly adapted to their need.

SELECTMEN MEET

MATTERS NEEDING ADJUSTMENT PRIOR TO TOWN MEETING

License Question To Voted Upon. School District Lines Discussed. Appropriations Asked For New Almshouse, Post House, Barn, Prospect St. Bridge

The board of selectmen held a meeting in the Hall of Records last Wednesday evening to discuss the question of a new almshouse and the location of same in another part of the town was taken up. The board was unanimous in their opinion that some action should be taken to have the present structure removed from its present location. The building and barns are now on the water shed of the reservoir located early and the board of selectmen has been requested to make it a great menace to the public health. The building and equipment were never what they should be and there has been little to improve the old conditions. As the town is constantly growing and the town charges are increasing year after year it was thought that this matter should be settled at once. The post house too, should not be in its present location and action will be taken at the town meeting for its removal.

Charles R. Hathaway appeared before the board at the request of Chairman Ulrich to explain to the board the boundaries of the different school districts of town. Mr. Hathaway said that he had looked into the matter considerable of late and he was of the opinion that the boundaries of the several districts were in a very hazy condition. He cited the fact that when the Ninth district was incorporated the incorporation papers said that the district limits would be the same as those now occupied by the said district. But there was no record before that to show just where those lines were. He informed the board that the assessors and collectors in the several districts are put to considerable trouble in making up their tax lists and he thought that the lines should be defined.

When asked as to the proper procedure in such a matter he read from the statutes which placed all the power for defining the district lines in the hands of the selectmen of the town. The law says that it is the duty of the selectmen to have the school lines entered on the records of the town. He suggested that the selectmen collect all the data they can find and make a digest of same with an engineer and in that manner they could arrive at a solution of the matter.

Superintendent Ulrich was present with the maps of the proposed change in the highway on West Center and Clout streets. The selectmen signed the map and also an explanation of same and they will be kept as official records. The secretary of the board was instructed to mail a copy of the definition of the lines to each of the abutting property owners. The property owners have an opportunity to appeal from the action of the selectmen in defining the highway in these two streets provided they make their appeal within ten days after a copy of the papers defining such highway are mailed to them. It is not thought however that any of the property owners will appeal from the decision to improve the highway as they have all signed their acceptance of same.

Superintendent Ulrich said he would like a vacation before the old board returns from office. He said that he had a written order from Highway Commissioner McDonald to survey the road from Le Lane to McKee street in preparation for the proposed state road that is to be built there. Mr. Ulrich said that he would be paid by the state for the work and he wanted to do it in. Then people could not say that he was being paid by the town for doing state work. Chairman Keeseley asked Mr. Ulrich how he was getting along with the work for the Prospect street bridge and he was informed that he would be able to order the steel work for same in a day or two. Mr. Ulrich was granted a vacation which started yesterday morning and will continue until October 2nd. Mr. Ulrich said that making the survey now of Chapman road would probably mean the starting of the work this fall.

Selectman Ulrich called the attention of the board to the fact that the term of the present examiner of records expires this month and that action should be taken on same. Charles R. Hathaway, the present incumbent, was reappointed.

The selectmen and the town clerk will be at the Hall of Records tomorrow for the purpose of making voters and selectmen Keeseley and Cowley were appointed to represent the board at the joint meeting of the board and selectmen called for the annual town meeting.

The no-license advocate had presented a petition to the board asking that a vote be taken at the town meeting to determine whether or not they are desiring to hold a ballot whenever any person should be licensed to sell alcoholic and intoxicating liquors in the town during the coming year. The list contained 300
