The regular monthly meeting of the Manchester Business Men's Association took place last evening. The report of the banquet committee brought forth much spirited discussion. It was finally accepted, together with a set of recommendations drawn up by the secretary to be used in managing future banquets.

E. L. G. Hobentbal pleaded for the placing of large signs—electrical or other—over north in view of passengers in railroad trains, such signs to set forth facts about ome of the leading industries of the town. This was discussed at length The Committee on New Industries was asked to take the matter up and report to the Association. # Victor Victrola

For two or three years past friends of ours have been urging us to take the agency for the VICTOR. We hesitated for two reasons. One was we did not have the room to properly display the machines. Another was we were not certain that the demand was great enough to warrant our putting so much' money into the venture.

With the recent alterations in the store the necessary space appeared. When we began to sound people we received immediate and substantial encouragement in the shape of two or three actual orders to be delivered as soon as our stock was received. These machines together with all the other models (all we could get at this time) from \$15 to \$200 are now on exhibition and we shall be glad to show you at any time.

Next Saturday Evening and every Saturday evening thereafter we shall play a carefully selected program of opera music to which all are cordial-

It is needless for us to extol the merits of the Victor. Every musician knows that this is the one instrument capable of faithfully reproducing the voices of the world's most famous singers. The fact that most of the gree artists sing for the Victor exclusively is significant enough. Come to the concert next Saturday evening and hear Carnso, Scotti, Nordica, Sembrich Emma Eames, Schuman Heink and all the rest.
