# The Test of Ti

Is the only reliable test of a piece of machinery. An automobile may run perfectly in the hands of the demonstrator, but what you want to know is how it will run after you have driven

You can run a NEW HOME SEW) NG MACHINE after a few moments instruction as well as we and it will be doing you good service twenty five years from now. No other sewing machine is so easily cared for. No other will last so long. The reasons are easy to understand. First: There is no force or movement so direct acting, so accurate, or so simple and free from friction as a "gear winding force." The New Home is driven by two simple gears. No other sewing machine is made so simply. Second: All New Homes are made with a genuine double feed. This insures an even, straight seam and gives greater feeding surface which will carry all kinds of material without puckering or pushing the goods. No other machine has this feature. Third: All

New Homes have a flat genuine steel needle bar adjustable by two screws in the face plate. No; other sewing machines have a machine.

round needle bar which sooner or later wears noisy, then wab. bly, then entirely inaccurate in its movements. This feature alone makes the New Home worth double the price of any other It is not necessary

to take our word for it nor the word of hun-Co.with all the up-to-date town. Look into the

In the specifications which have been Magnire will be necessary in grading.

The main building, which will be used as the almshouse, will be two stories high, of brick, with basement. This will be a building 37 x 30 feet, connected to the main building by a bridge. will appear this summer when the con- the cause of death and turned the body This will be a building 87 x 30 feet, connected to the main building by a bridge.

There will be a front entrance through the keeper's building, which will admit to the almshouse, while there will also be another entrance on the east side which will admit to a hall which leads direct to the office. The basement of the keeper's building will be divided into four parts. On the first floor in the front part of the house will be located the dining room, which is separated by a main hall, while in the rear of these will be the kitchen and office. The hall runs the kitchen and office. The second fipor is taken up by four bedrooms

The main building will be 112 feet front and thirty-three feet wids. The basement of this will be used in content of the work being done fronting the car barns on West Center street where the Connecticut Company is changing the entrance to the canse of death and turred the body over to Watkins Brothers for burnal.

Mr. Pentland was a native of Portadown, Ireland and was about 60 years old. He is survived by a brother street where the Connecticut Company is changing the entrance is being placed to the west of the office building and the track, instead of running along the north side of the street has been shifted to the centre of the highway. The street is torn up tor a consid rable distance and one may form an idea of which will be used in convenience of the work being done fronting the car barns on West Center to the canse of death and turred the body over to Watkins Brothers of Portadown, Ireland and was about 60 years old. He is survived by a brother and sister in Ireland. The function of the west of the office building and the track instead of running along the north side of the street has been shifted to the centre of the highway. The street is torn up tor a considerable distance and one was journed. High School Notes

In place of the usual Bosthia the annual

basement of this will be used in con-nection with the other parts of the building, being divided into eight to.

The Connecticut Company has notibuilding, being divided into eight rooms. On the west end of the building will be the laundry, and in the rear of the laundry will be the kitchen. Next to the laundry will come the drying room and in the rear of that the pantry and vegetable cellar. Next to the drying room is the smoking room and them a reading room. In the rear of these two rooms will be the coal bunkers and boiler rooms. The hunkers and boiler rooms. The the new tracks. first floor contains in front the women's infirmary, bath and eight private rooms. Black Cravats of Style and Quality FOR CONSERVATIVE MEN OF TASTE

We have for a long time been on the for a superior grade of all Silk Barathea to use for high class black cravats. At last we have what we were in search of and wish the news to be sound-

ed far and wide. Every Man Must Have a Black Cravat of some kind included in h outfit. Our showing of styles gives him chance to get just what he wants. Four-in-Hands are shown, made of the finest black silk Barathea, in any width desired, 1, 1 1/4 and 2 inches. Bat Ties come in different sizes to fit whatever collar worn, giving chance for neat stylish bow when same is tied. Many men have used the 8x8 String Ties for years past, or the hook on the collar button made up four in hands, others with band, will find here just what he wants in kind and quality. Then there are the Graduated String Ties which are in varying lengths to fit the collar worn.

Its quite an advantage too. For Clergymen, or for evening wear, we offer choice of a complete line of four-in-Hands made of pearl grey and white Barathea of same grade as those in black. Visit Our Men's Dept. and convince yourself that you have never had choice before of such a variety of 50C each

WHITE SUMMER DRESS STUFFS

The approaching warm days will bring the need of dainty white gowns and dresses for confirmation, graduation and Summer wear. You will find at Our White Goods Dept. in Dome section, as fine a showing to choose from as one could desire. There are all weights and qualities, from the sheerest Organdie and Swiss to the heavy Pique and Corduroys. Let us call attention to some of the most popular White Materials.

Couldn't Fease Ardent Bridge

Nothing short of devotion to bridge could have nerved a party of women to do what this party of women did. Half an hour before the time set for the playing to begin in the tenth-floor apartment something went wrong with the dynamos, and all elevators stopped running for, anyhow, a day and a half. When the bridge hostess learned that she nearly fainted.

"Nine flights of stairs to climb," she said, "and every woman I have invited is fat. They'll never get here." She implored everybody about house to suggest some way out of the trouble. Nobody could, except to walk: there was no alternative. But the bostess did not give up so easily. She looked across at the neighboring apartment house, whose tenth-floor windows faced her windows. An abyss fifteen feet wide yawned tween the two buildings, but to a woman in her predicament fifteen feet dwindled to fifteen inches. "There is a way," she said.

explain matters to arriving guests, and

about those long planks on the roof? Lay them across to the opposite roof, make a handrail of ropes, and my guests can go up in the elevator to bridge, and walk down one flight my apartment." Employes of both houses gladly assumed the role of bridge builder, a hallboy was stationed in the lobby

THE END OF TUBERCULOSIS

A Brief History of the Disease. By DR. MONTGOMERY E.

> Consumption is called a disease of the masses because of its great prevalence among all classes of people. The first records of it date back to the fifth century before Christ, or about 2,500 years ago.

doubt that tuberculosis could be transmitted from one individual to another. This was verified by other famous physicians, until the disease was generally branded as infectious. In 1882 the specific germ which causes consumption was discovered by the great German scientist Robhisband's side to place her in one of | ert Koch. Researches in recent years

wholly successful owing to the lassitude and carelessness of the ed, was taken from the Carpathia

Dr. Henry J. Frauenthal, the well imove New York physician, one of the survivors of the Titanic, gave the following account of the catastrophe:

"The boat struck the leeberg at 14.60 p. m. I was in bed and asleep and did not hear the crash My room was on the other side of the best from the jeeberg side. I did not know anything until my brother, who was reading, came and aroused me.

"We rushed to the deck, I dressed as I was for bed. As I came on deck I saw the Capitain and heard him tell. Is go Colonel Astor that the boat had been injured by an iceberg. The deck was already well crowded and the passengers were rushing to the deck.

"I saw that the crew was lowering a boat and understand that it was the second boat that was lowered. The crew rushed in the boat a lot of women en who were nearby. My brother got in the boat to protect the women. My wife threatened to jump out of the leeberg."

Drobably more than any single Incledent.

"Oh. what suffering," she almost screamed, as she was led along the beroism of daily life, for no wish for recompense ever tarnished nor debased it. Brave men ask no other thanks than the whispers of their own souls. Grand women would blush to reveal the heroic things they daily do. It is to this deathless impulse of the disaster, said the ship was making twenty-one knots an hour and the officers were striving to live up to the orders to smash a record.

"It was close to midnight," said bloody, "and I was on the bridge with the second officer, who was in command. Suddenly he shouted, "Port your helm!" I did so, but it was too late. We struck the submerged portion of the iceberg."

Sys Another iceberg Scraped Ship. Miss Gretchen Longley, daughter of the channel islands, and control the channel

waters.
"So far as I know, none of the passengers saved anything."

Saw Captain inguifed by Wave.
George A. Braden told of how he did not realize anything was wrong until the water rushed into their staterooms.

Mrs. J. C. Hogeboon.

"I think that there were people on board the ship when she sunk who did striven all his life faithfully and singly toward an object and in no measure obtained it? If a man constantly aspires, is he not elevated? Did ever a man try heroism, magnantic. Striving Must Prevail.

TO GO WITH THE TURKEY.

Spanish Onions.—Parboil for fifteen minutes Spanish or Bermuda onions, chill them in cold water, then cut a V out of the hearts. Fill the space with butter, after dusting it well with | Call and let us show you these bags salt and pepper, put the onions in a and explain o von their uses. Price bag with a lump of butter and a very 25c package. O. F. Toop. 48tf minutes in a hot oven, or thirty minutes in a very moderate one.

Baked Pears.-Ripe, well-flavored pears are best for baking, but the ordinary cooking pear will answer if baked with sugar, lemon juice and spices. Peel the pears, cut off the stems and take out the core, but only a little way beyond the blossom end. Stick a clove, a shred of mace or bit of cinnamon in the core-space, fill in around it with sugar and roll the fruit in dry sugar before putting it in a buttered bag. Put in half a gill of water also to the half dozen, seal bag, and cook at slow heat fifty minutes to an hour.

Creamed Saisify .- Boll tender, dro into cold water, peel and cut in twoinch length strips, steep in a dressing of butter and cream, lightly seasoned with pepper and salt. Put in well-greased bag, seal and leave in the oven a few minutes only.

Smothered Chicken.—Have a good-sized broiler cut into joints, taking care not to leave sharp bones to the joints. Salt and pepper them lightly, dredge with flour and lay in a wellgreased bag upon thin slices of bataking care to keep the chicken spread rather flat. Add a teaspoonful of water, or a couple of peeled and sliced tomatoes. Shreds of green pepper add somewhat of flavor to the forty minutes, slacking heat almost half after the first five minutes. Make bag near the middle, and if the bacon and chicken are not so be like, cook five to ten minutes longer. Serve on a hot dish with gravy from

shorter than any temper, easier brok-en than promises. Make it by M. Soyer's recipe, then surely it will be up to grade. # TOWN MEETING

Sewing Machine Demonstration

Improvements Voted For West
Center Street. School Lines
Adopted. Centering Troller
Tracks on Main St. Deferred.
Will Report Cost of Same.
The area'd town meeting held to

the town ball last evening attracted a H. B. Chency said the selectmen as good sized body of voters The centering a body favor centering the tracks. It is done it will mean which was the principal business of the meeting brought forth a number of advocates and also a few who opposed the change. The matter was finally from the state highway commissioner left with the board of selectmen who will report at a meeting not later than the annual town meeting regarding the cost of the proposed change. The changing of lines in the Sixth School Can go over another year and at the District by adding a portion of what District by adding a portion of what time we can possibly get state sid to was formerly the South East Join reduce our cost. The state highway School District of East Hartford met commissioner has promised to build two miles of mucadam in this town this who would thereby be pisced in the year and that's all the help we can ex-Sixth District justesd of in the Ninth peet from him. When the tracks are as be is at present. That matter was centered it means a good deal of detail

of selectmen called the meeting to order and E. L. G. Hobenthal was chosen modera or. Town Clerk Benton recorded the proceedings.

After reading the call the first section relating to the changing of the lines of the Third School District was taken up. C. R. Hathaway offered a resolution for the adoption of the change which was voted.

The second section related to the selectmen the living of an engineer and getting to work on the details at once He thought to the Sixth school district of this town meeting. Mr. Hyde's resolution was then adopted.

Section 5 was next in order and lease the selectmen of the selectmen the living of an engineer and getting to work on the details at once He thought to the Sixth school district of this town meeting. Mr. Hyde's resolution was then adopted.

Selectman Schiel ge offered a reschest postpone. H. M. Burks agreed with Mr. Hohenthal regarding his stand but school district to the Sixth School district to the Sixth School he did not think that the action of the dis rict without defining the lines and previous town meeting was legal. The Ninth school district is an incorporated was taken after being in session two and one-half hours. district and the town has no authority to change the lines. This can be done only by the legislature. Indefinite post

mement was voted When it came to the acceptance of Lyness avence H. B. Cheney said that the road superintendent had not taken the necessary legal steps for the acceptance of the street and the matter would necessarily have to go over for nother meeting. It was so voted.

CENTERING TROLLEY TRACKS Section 4 of the warning which related to centering the trolley tracks on Main street was next in order and John Cairns moved that action on that section be deferred until the other sections in the warning were acted upon. H. M. Burke said that it made no difference whether the section was

taken up at this time or deferred, because, according to the statutes, the power is vested with the selectmen. H. B. Cheney said that the clause was aserted in the warning for two purposee. In the first place it was at the request of a number of the legal voters of the town and the selectmen had been petitioned in the proper manner and were compelled to have it in the call. The selectmen also wanted to

find out how the voters stood on the mestion and as the improvement would mean the building of a highway the voters had something to say on that question. N. B. Richards said that the change will have to be made some day and it will cost less now than
