

Anyone Can Make a Room Artistic and Beautiful With Plasterboard Wall Board

Don't remodel a room—don't build a new home or a cottage, bungalow or garage until you see Plasterboard.

It's the only treated wall board on the market. It has all the good points that any other wall board has, but it's better because it's treated.

Ask the Plasterboard dealer why you should use this wonderful board in place of lath and plaster. With it you can quickly build at small cost, workrooms, extra bedrooms, bathrooms, dens, etc.

Plasterboard is better and cheaper than lath and plaster; it will not crack or break and will last as long as the building itself.

With Plasterboard the most artistic and handsome designs can be arranged and the Service Department of the Plasterboard Wall Board Company of Tonawanda, N. Y., will gladly submit through any Plasterboard dealer, estimates and panel designs to meet any requirement. Send for sample. Ask to see Plasterboard.

Public Inspection

Milk Station and Playground Open for Visitors Tomorrow

An informal opening and inspection of the milk station, which has been established at the out-door school will take place tomorrow afternoon between the hours of five and five o'clock. All mothers are earnestly invited to call and learn from actual observation how the milk is properly prepared. A light luncheon will be served. Visitation will also have an opportunity to see the arrangements that have been made for the care of the children at the playground. The playground is growing more popular every day and daily additions are being made to the number of children who go there for pleasure and care.

Owing to the increased call for prepared milk it has been found necessary to establish regular hours when the milk can be prepared. These hours are from 9 to 10 a. m., 3 to 4 p. m. and 7 to 8 p. m. Mothers interested in the health of the station, will give their time to visits at the homes of the mothers and children who get the milk. There she will give necessary attention to the babies and also instruction to mothers in the care of their little ones. Miss Stetson has made a number of calls already and if pleased with the way the mothers receive from the mothers and also with the manner in which her instructions are being followed out, already much beneficial results are noted.

A party of mothers gathered on the lawn of St. Mary's rectory last Sunday afternoon where they were addressed by Miss Brennan on cleanliness as the proper care of their babies in hot weather.

Dr. Edward Dolan of Stamford, the dentist who is to open an office in the Park building on Main street, is receiving his office supplies here this week. Preparations will be made for the opening as early as possible.

Successful Outing

Manchester Business Men Disport Themselves At Savin Rock

The annual mid-summer outing of the Manchester Business Men's Association took place yesterday at Savin Rock and was a thoroughly enjoyable and satisfactory event. The trip was made in automobiles, 22 cars being employed to carry the 90 business men who participated in the festivities. The large touring car owned by G. E. Willis broke down near the shore, the occupants being cared for in other cars that followed. One Brothers car and that of George M. Barber had the trouble but were enabled to make the trip both ways after necessary delays.

The weather was charming for the event, clear, warm and enjoyable. The business men are loud in their praises of the bonanza and satisfactory dinner served by Landlord Bishop of The Colonnade. There was a band concert on the park during the afternoon and another during the evening the latter being augmented by the orchestra.

All of the attractions seemed to be doing plenty of business and things at the Rock were kept moving at a lively pace. The business men themselves entered into the sports presented with much zest and did their share to keep things active.

A goodly number of business men reached here by eight o'clock last evening. They didn't wait to see the fireworks at Savin Rock. Some of those who did stay over didn't reach home until driven to shelter by the shower at seven o'clock this morning. They were the younger and more progressive set and wanted to see the entire entertainment—which they did.

The Manchester Retail Clerks Association held their annual outing at Savin Rock yesterday also, going by trolley and dining wherever they fancy. They were the younger and more progressive set and wanted to see the entire entertainment—which they did.

The Ladies' Auxiliary to the A. O. H. of this place will also send their seven officers to attend the convention, but they will not take part in the parade. It will be a big day for the Hibernians and for Ladies Auxiliaries to the A. O. H. of Connecticut.

CHAPTER I.

The young man in the taxicab scuttling frantically down the street, struck to the arm of the young man alongside, and he was arrested at the lawbreaking, near-falling speed. But evidently some greater fear goaded her, she gasped: "Can't you go a little faster?" "Can't you go a little faster?" The young man alongside howled as he thrust his head and shoulders through the window in the door.

CHAPTER II.

The young man named Harry was wondering how they were to proceed. He had already studied the region with dismay, when the girl resolved: "We'll have to take another taxi, Harry." "Yes, Marjorie, but we can't take it until we get it." "You might have here all night waiting for a glimpse of me," the chauffeur ventured. "I come this way because you wanted me to take a short cut."

The ability to write a good business hand is one of the best aids to an applicant to secure a good position. The use of the typewriter has not lessened the call for good penmanship and nearly every request received by our situation department either for bookkeeper or stenographer calls for a good hand.

THREE EXPERT MEN and teachers of business writing are employed by Huntsinger, not only to be obtained in any other business school in Connecticut. Have you not seen our new booklet showing the wonderful improvement in penmanship made by Huntsinger pupils?

Through the Swiss Mountains at Berovic (Old Base), among the Alps the railroad passes the rocks, from which the Swiss government procures most of the salt which is a government monopoly, and often sold only by the local post-office. Here the road is in a narrow bed in salt. At this point a tunnel is brought into play, and the gradient rapidly increases as cars pass through woods of walnuts and cedars, here an important item of the diet and income of their owners.

For Business Reasons

"If you really cared about me—Elinor began, breaking off there in a sobbing cry.

"I'll suppose the root of the matter is you want to go home. Understand I shall not do it! That's flat. You married me with your eyes open—knowing all she had done for me."

"Really, Elinor—this is too ridiculous. With the Traverses expecting us to dinner—and the theater afterward, I can't go to the doctor's."

"Suppose you go in my place—I'm staying at home. And I can help you dress. Elinor said, he voice 'studiedly commonplace."

"Her mother-in-law stared at her. 'You're pining for me now you're poor, but must say I never dreamed you could be ignorant enough to think of such a thing.'

"I'll be much greater pleasure to have him see my son and his wife at their best, among the best people."

"The shock striking the old hour made her hurry off with a veiled exclamation.

"We're not paupers—thanks to my mother. She saved my father's estate for me. But one can't stand to have you know that without letting 'em know they're poor. I've had a real place in a deal that Traver can make something. I throw myself on your mercy."

"I saw you at the show last night, forsook. I tried to catch your eye just as you were about to hop—a couple of elephants. I did everything I could to attract your attention. I even threw my programs at you. I rolled up in the hall and thought I hit you on the leg. You never noticed it."
