Plastergon Wall Board Don't remodel a room-don't build a new home

It's the only treated wall board on the market; it has all the good points that any other wall board has, but it's better because it's treated.

Ask the Plastergon dealer why you should use this wonderful board in place of lath and plaster. With it you can quickly build at small cost, workrooms, extra bedrooms, bathrooms, dens, etc.
Plastergon is better and cheaper than lath and
plaster; it will not crack or break and will last as

long as the building itself.

With Plastergon the most artistic and handsome designs can be arranged and the Service Department of the Plastergon Wall Board Com-pany of Tonewands, N. Y., will gladly submit, through any Plastergon dealer, estimates and panel designs to meet any requirement. Send for sample. Ask to see Plastergon at
