"Crawford Parlor." A genuine indirect draft stove with full return flue; the smoke passes down between the firepot and the outside casing of the stove to a flue beneath the ashpan, thence up and out through the back smoke pipe to the chimney, giving more heat and burning less coal. The grate center slides forward for dumping. Large clinker door; wide, deep ashpan; dust damper; nickel rails removable. Four sizes. "Tropic Crawford." With or without down draft back pipe. Draw center grate. Best stove made at the price.

Nickel rails removable. Crawford "Wood Parlor." In this new heating stove for wood the front door

swings open to give the effect of a fire-place. By moving a slide in this door the fire can be seen without opening the door itself. The slide openings are protected by wire gauze. The main top swings to one side and underneath it is a large plate that lifts to admit large pieces of wood.

This stove is made in both direct and indirect draft styles. It is strongly made and very handsome. Three sizes, to burn 10, 22 or 25 inch lengths.

PRESENT FOR ENGAGED GIRL An Apron to Slip on When Bride Does

A useful and attractive gift for an engaged girl is an apron that may be slipped on when the bride does housework, and wishes to keep presentable. Just this type of apron i hard to buy, so is doubly acceptable. Probably the most useful kind is a studio apron, such as is used by the woman artist. Get a good nattern with sleeves reaching to the wrists and cut without too much fullness. Choose a pink gingham of fine quality or a clear black and white stripe which always washes well. For the former trim the neckwhich should be cut slightly squareand sleeves with a two-inch insertion of white embroidery, and fasten at the back with white pearl buttons. The black and white apron may be trimmed with black blas bands, or with white cotton bands embroidered in a cross-stitch design in black. A somewhat dressler apron, though not so useful for protection, is made like a waitress apron, with straps over the shoulders. A pretty effect is had with ecru or pale pink percale, the straps embroidered in a crossstitch band that is carried on each side to the bottom of the apron. The hem at bottom and sides is finished
