## Our Ranges the Cheapest in the World

No well informed person questions the quality of the GLENWOOD or the CRAWFORD range. The two names stand for the very acme of perfection in stove building.

If it is a question of price with any of you ask yourself, "Is it more economical to buy an unknown range for \$18 which will wear out in three or five years or to pay \$36.50 for a GLENWOOD or CRAWFORD range which will wear a life time and be in working order every day you have it?"

Therefore we say to you that not only are our rangss the best the world affords but in the long run will prove the cheapest.

"Then look at our foreign trade. A favorite Democratic argument is that Republicans build up and cultivate the home market at the expense of our foreign commerce, when the fact is that the growth of foreign trade has almost kept proportionate pace with the domestic—from \$1,000,000,000 in 1870 to \$4,000,000,000 to 1812.

Nearly four years of honest, wise, or public or parochial school, or the premises permised produced a condition where presidential affairs has produced a condition where presidential politics has ceased to be a disturbing factor in the economic life of the nation.
