ST. ALOYSIUS DEFEATED G Team Wins Hard Fought

The G ba k-tball team trought their Magee Ranges local seaton to an end last Saturday evening when they won a hard fought hattle from the St. Aloysius five of Holyoke. The up-river boys put up hard struggle to carry off the honors of the game, but the locals just nosed out victory. The game opened with the visitors d fewling the north goal and the i

bas the south goal. "Yump" Johnson

was the first player to enter the scoring c dumn with a goal from under the besket. E. Johnson heaved one in from the side and Clark, the fast little guard of the paper makers carried the ball the entire length of the ball and dropped it through the net for the first score for his team. Numerous fouls were called on the Holyoke players but they availed nothing to the G -Life. team as the trials all failed. Three fi-ld goals were shot in rapid succession ent for G and then Bale of the Saints made automatically raise up from the road amounting to about \$2,000,000, the G with a nice shot from the center of

At the present time there are at the hbay hatchery 13,529 seed lob-

ers extends into the spring of the year, so that it is safe to say that fully two-thirds as many lobsters as have already been collected will be added to the number on hand. The average number of eggs secured from the mother lobster is 20,000. The percentage of fertility of these as they are hatched at the government station is so high that it is safe to say that practically all of them will be hatch-

ber of seeders now at the hatchery will produce 270,000,000 lobsters. The number yet to be collected will very nearly total up to 500,000,000.

AT THE AGE OF REAL WORTH Youth of Eighty Years of Age Hopes to Demonstrate His Value Before the World.

Here is a young fellow who is the real thing. Andrew D. White, founder of Cornell university, for several years representative of the nation at St. Petersburg and Berlin, and delegate to the first Hague peace congress, recently reached the age of discretion and celebrated his eightieth birthday. So now he expects to be able to do some real work. He has taken up the study of criminology and hopes, he says, within the next few years to make some contributions worth while

That is the sort of spirit of youth to make a man envious. But why not? At eighty a person is just beginning to accumulate a bit of wisdom and to get rid of the half-baked ideas of his boybood. He is reaching a point where he sees through the shams of success that really is failure and failure that really is success. With such a good foundation to build on, why shouldn't he start in to do something of real Blessed are the young in heart.

Kansas City Star.

Who Invented Paper? All the world knows that the Arabs ensmitted from India to Europe, through Arabia, the figures with which we do our sums, but it is not generally known that we also have them to thank for paper. At various times the scholars of different countries Local Red Men have tried definitely to determine the Event In Tinker Hall hand speaks of what was then known as "paper" as originating in Damascus. The later invention of making paper from flax, linen, hemp has been was instituted March 9, 1912 with 67 R. Johnson was instituted March 9, 1912 with 67 R.
