Different Arrangements of High Coiffure

Now that the high colffure is certain of success, hairdressers are evolving many attractive arrangements, each making its bid for popular favor. It is certain a new order of things is coming. There is to be more elaboration in styles for the coming season than for a year past, more pretty curls and ringlets about the face, and the return to a modest pompadour at the front. This is something to be thankful for because it is immensely becoming to most women.

The best material for the garden and for general soil upbuilding is manure. This, homely product may be well thought of in America, but only abroad, where often a living must be got from small plots of ground, is its true value appreciated. How many American farmers repeat with fervor the Danish proverb, "It is manure that puts the cake on the table". A sentiment like that would certainly change some of our methods.

Complete scientific studies have been made in Germany to find out the best manure. The conclusions reached, are at variance not only with our common practice, but also with advice often.
