Breakfast foods, is bread. Bread is higher in nutritive material than any of the so-called breakfast foods and it is much cheaper.

Besides bread may be served in just as many tempting ways.

Nothing is better or easier to digest than milk and bread, or bread toasted to a golden brown and spread with butter-or bread fried in egg batter.

In fact, there's nothing that can take the place of bread at any meal and there are many things that bread can take the place of.

Goetz's bread is the best, lightest and most wholesome of all foods.

Furniture As

There is nothing which nakes such a satisfactory

holiday gift as a piece of furniture. Nothing is so

sensible, so enduring, so sure of a welcome in any

household. A really fine piece of furniture is a per-

manent reminder of the giver which can be handed

down from one generation to another. That gifts of

furniture are growing in popularity is evidenced by the

fact that last December we enjoyed the largest holiday

business in our history. This year we have added to

our stock many new and attractive pieces not to be

found in the ordinary furniture store. A trip through

our big building we feel sure will afford you many val-

uable suggestions for your holiday shopping. We shall

be glad to show you, or if you prefer, you can come in
