Food poisoning according to the ablest physicians and health experts, is the cause of nine-tenths of the diseases that handicap the human race. The walls of the small intestines are lined with millions of small veins which take up nourishment from the digested food. From these veins this nourishment is poured as a part of the blood into the heart and distributes though the arteries to every part of the body.

Keep your stomach healthy by eating more Goetz's bread instead of so much meat and other heavy foods. You get all the nourishment the body requires without loading and clogging the system with indigestible and poisonous food.

Where Dentistry is a Pleasure

From our personal experience we find that in a majority of eases where people are suffering from bad teeth the true cause was mostly due to the fact that they dreaded the deutal chair.

This dread disappears with those who have received one treatment by the cientific and positively painless method of the Yale Dentists. This fact of painless dentistry is made possible in the office of The Yale Dentists because they use the latest and most improved analoguesic apparatus. By this method teeth can be extracted filled or crowned positively without pain, no matter how old and nervous the

NO NEED WEARING FALSE SETS If you have broken down or missing teeth we can replace them by our Yale bridge work system so that it will be impossible to detect them from your natural teeth, and you will not be obliged to wear any plate. If your teeth are loose do not have them extracted, we can extend them and tighten them for you permanently. We invite the people who are wearing false sets of teeth that do not fit or drop to call on us and we will insert the Yale suction, which makes sets stay up.

We can furnish testimonials of patients who could not wear false teeth or other makes, and are now enjoying a Yale suction set. Our prices are not higher than what other dentists charge. Extractions free when sets are ordered. Call on us and let us give you a free sati-LADY ATTENDANT German And English Spoken

For simple decoration, bows of all sorts with and without ends of baby ribbon and of wider ribbons, are made separately and pinned on with small safety pins. Narrow ribbon rosettes and bows are sewed to place with a few easily removed stitches. They are not supposed to need laundering as often as the body of the garment and are therefore removable.

"HIS simple rule of health is daily called attention to by every doctor in the land, whose first question to the patient almost invariably is, "Are your bowels regular?" Yet there's not one person in fifty who takes proper care of the bowels. And the result of this foolish neglect is nine-tenths of all ill-health. If today you are unable to free your body of waste matter at the usual time, or if the act causes straining, pains and discomfort, don't let that condition occur again tomorrow. Unless your bowels can carry away the

waste materials left after food is digested, decay sets in, the poisons of which, taken up by the blood, increase the risk of Typhoid Fever, Appendicitis, and many other serious diseases. In treating constipation, there is a right way and a wrong way. The wrong way is to take harsh purgatives which even though they do clear the bowels, cause griping and nausea, injure the delicate tissues, and so disturb the normal functions as to cause the return of constipation. The right way is to help Nature to produce natural movement, without pain or discomfort, by using

At a meeting of Washington L. O. L. Corporation held at Orange hall last Friday evening officers for the ensuing year were chosen and reports of the officers were heard. It was reported that the debt on the building had been wiped out during the year and that at present there were only a few obligations against the corporation. The following officers were chosen for the emsuing year. President, Hamilton Metcalf, and in spection of same more easy of access and conventient for his patrons. Improved lighting is another pleasing feature of the improvements in his store. In the improvements in his store. frost is still as much as two and one-half feet deep in shaded places and on the north side of buildings. They are eagerly awaiting the coming of a warm rain to remove the frost in order that excavations may be made with speed and at reduced expense. With such a depth of frost the cost of digging foundations is practically prehibititive.

DR. C. M. PARKER

From our personal experience we find that in a majority of cases where people are suffering from bad teeth the true cause was mostly due to the fact that they dreaded the dental chair.

This dread disappears with those who have received one treatment by the scientific and positively painless method of the Yale Dentists. This fact of painless dentistry is made possible in the office of The Yale Dentists because they use the latest and most improved analgesic apparatus. By this method teeth can be extracted filled or crowned positively without pain, no matter how old and nervous the person may be.

NO NEED WEARING FALSE SETS

We can furnish testimonials of patients who could not wear false teeth or other makes, and are now enjoying a Yale suction set. Our prices are not higher than what other dentists charge. Extractions tree when sets are ordered. Call on us and let us give you a free esti-
