Where Dentistry is a Pleasure

From our personal experience we find that in a majority of cases where people are suffering from bad teeth the true cause was mostly due to the fact that they dreaded the dental chair.

This dread disappears with those who have received one treatment by the scientific and positively painless method of the Yale Dentists. This fact of painless dentistry is made possible in the office of the Yale Dentists because they use the latest and most improved analysesic apparatus. By this method teeth can be extracted filled or crowned positively without pain, no matter how old and nervous the person may be.

NO NEED WEARING FALSE SETS

If you have broken down or missing teeth we can replace them by our Yale bridge work system so that it will be impossible to detect them from your natural teeth, and you will not be obliged to wear any plate. If your teeth are loose do not have them extracted, we can cure them and tighten them for you permanently. We invite the people who are wearing false sets of teeth that do not fit or drop to call on us and we will insert the Yale suction, which makes sets stay up. We can furnish testimonials of patients who could not wear false teeth or other makes, and are now enjoying a Yale suction set. Our prices are not higher than what other dentists charge. Extractions free when sets are ordered. Call on us and let us give you a free esti-

You Have Nasal Catarrh

Not Very Bad, But---It Bothers You a Good Deal.

Some people have nasal catarrh and know it. Not only the patient knows it, but all of his friends know it. Many people know it that are not his friends. Just those people who happen to meet him in the street car or, still better, nasal catarrh fust be-

or on the public square.

That sort of a nasal catarrh need not be described. Everybody knows the symptoms without their disgusting recital.

Peruna helps such cases every day. Thousands have attested to this fact unsolicited. Peruna benefits even the worst cases of old pasal catarrh.

But there are cases of nasal catarrh.

Where Dentistry is a Pleasure

From our personal experience we find that in a majority e people are suffering from bad teeth the true cause was to the fact that they dreaded the dental chair. the scientific and positively painless method of the Yale Den his fact of painless dentistry is made possible in the office tists because they use the latest and most improved and esic apparatus. By this method teeth can be extracted filled rowned positively without pain, no matter how old, and nervous

NO NEED WEARING FALSE SETS

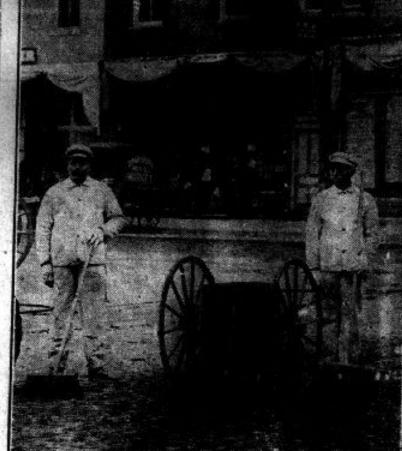

If you have broken down or missing teeth we can replace them your Yale bridge work system so that it will be impossible to detect nem from your natural teeth, and you will not be obliged to wear any late. If your teeth are loose do not have them extracted, we can cure them and tighten them for you permanently. We invite the people who are wearing false sets of teeth that do not fit or drop to call on us and we will insert the Yale suction, which makes sets stay up.

We can furnish testimonials of patients who could not wear false teeth or other makes, and are now enjoying a Yale suction set. Our rices are not higher than what other dentists charge. Extractions res when sets are ordered. Call on us and let us give you a free esti-

SIMPLEST WAY TO KILL

THE London Lancel, the leading medical journal of the world says that the best and simplest fly killer is a weak solution of formal dehyde in water (two teaspoonfuls to the pint). Place in plates or saucers throughout the house. Ten cents' worth of this liquid will last an ordi nary family all summer. It has no offensive odor, is fatal to disease or ganisms and is practically nonpoisonous except to insects.
