We use the best strong spring wheat lour obtainable. No guess work about it. We do not take the Miller's word for it. We use the best, because we know. We make sure, by testing the flour in our laboratory. We set a standard what a flour should be, and reject it, if it does not reach that standard. Then we use good yeast, handle the dough carefully and bake it thoroughly. Because of its lightness and tenderness and perfect digestibility, Goetz's bread is the most nutritious of all foods.
