The British press bureau admits that the allies have again been compelled to fall back owing to the desire of the French military authorities to try to

maintain a defense over too great an extent of territory. This is somewhat blunter than the diplomatic phrasing of the British press bureau's dispatch, but no other neaning can be read into the statement that a certain change in position had been forced upon the British troops owing to the French operations extending over 250 miles of frontier. This is clearly an admission that for the third time since the allies joined n battle with the Germans, they have

been driven back. Industrial Centres Fall The news that Longwy had at last succumbed to the German advance has been confirmed by the French ministry of war. No official admission of the fate of Lille, Valenciennes and Roubsix has been fortheoming, but it is generally believed in London that the great industrial centree have capitulated. In the case of

If the French advance much beyond the Nancy line they find themselves cut off in the rear by a tremendous hostile army with only the alternatives of a disastrous sur render or almost complete extinction Both the advance upon the right near Lille and the drive inward past Longwy are rapidly menacing the defenders of Paris. Hyde for Speaker?
A report this morning was to the effect that William S. Hyde, who will be a candidate for reelection as representative at the Republican primaries next month would, in the event of his reelection, be a candidate for the speakership of the House of Representatives. Mr. Hyde has had four years schooling in the House and no doubt is very familiar with the procedure. It is also stated that Frank E. Healey of Windsor Locks will be in the race for the speakership and Mr. Hyde will have a strong opponent.

SUMMER MERCHANDISE

As it is nearing the end of "The Good Old Summer Time" we propose to hold for balance of the week what would be in grocery parlance "A Saturday Night Clean-Up" but with us it lasts for rest of the week. The slaughter on prices is tremendous, as you can readily see by reading on. We must have room for the fall and holiday stocks and will sacrifice profit on seasonable goods to get it. Buy now for next season. It will pay you well to do it this week.

A total of over 100 years of successful teaching experience. This clearly shows that we do not employ green teachers or under-graduates. Neither do we place dead heads upon our faculty to deceive the public.

Some schools employ men as special solicitors during th month of August and represent to the public that such men belong to their regular teaching force. The Huntsinger school does not count such men as members of its faculty.

Huntsingers has educated thousands of young people for bookkeepers and stenographers during the last 26 years. These graduates have not only received handsome salaries from the start, but have advanced steadily in position and in salary. Huntsingers means in the strongest sense RELIABILITY-

reliability of courses, reliability of teachers, reliability of getting everything that is promised to you. This is worth considering by those who like square treatment and wish to economize. At Huntsingers you take no chances-you have an abso-

lute certainty of the best there is in business and shorthand

Remember that over 95% of the Huntsinger graduates are a SUCCESS: Remember also that about 95% of the pupils of the CHEAP schools are a failure.

Huntsingers never experiments on students. A school must be judged by what its pupils DO while they pursue their courses AND in the situation. The pupil's work is good or bad according as the teachers

are capable or incompetent. It is a fact that superior courses and excellent teachers make thorough graduates.

Behind your application for a situation must be thoroughness of training. It is thoroughness that has enabled the Huntsinger graduates to out-distance and out-class the graduates of all other business schools of this community. Eight out of ten calls for office help in Hartford are
