A total of over 100 years of successful teaching experience. This clearly shows that we do not employ green teachers or under-graduates. Neither do we place dead heads upon our faculty to deceive the public.

Some schools employ men as special solicitors during th month of August and represent to the public that such men belong to their regular teaching force. The Huntsinger school does not count such men as members of its faculty.

Huntsingers has educated thousands of young people for bookkeepers and stenographers during the last 26 years. These graduates have not only received handsome salaries from the start, but have advanced steadily in position and in salary. Huntsingers means in the strongest sense RELIABILITY-

reliability of courses, reliability of teachers, reliability of getting everything that is promised to you. This is worth considering by those who like square treatment and wish to economize. At Huntsingers you take no chances-you have an abso-

lute certainty of the best there is in business and shorthand

Remember that over 95% of the Huntsinger graduates are a SUCCESS: Remember also that about 95% of the pupils of the CHEAP schools are a failure.

Huntsingers never experiments on students. A school must be judged by what its pupils DO while they pursue their courses AND in the situation. The pupil's work is good or bad according as the teachers

are capable or incompetent. It is a fact that superior courses and excellent teachers make thorough graduates.

Behind your application for a situation must be thoroughness of training. It is thoroughness that has enabled the Huntsinger graduates to out-distance and out-class the graduates of all other business schools of this community. Eight out of ten calls for office help in Hartford are

## Good Health

## **Depends on Good Digestion**

Without good digestion, you get no benefit from the food you eat. Under-baked bread is heavy. Poor weak flours, poor yeast and careless handling of the dough, will cause heavy bread. Goetz's bread will bring good digestion. The best strong wheat flour and good yeast are used. Then the dough is handled carefully and is thoroughly baked. Because of its lightness and tenderness, perfect digestibility and its sweet nutty flavor, Goetz's bread is the most nutritious and appetizing of all foods.
