### **Depends on Good Digestion**

Without good digestion, you get no benefit from the food you eat. Under-baked bread is heavy. Poor weak flours, poor yeast and careless handling of the dough, will cause heavy bread. Goetz's bread will bring good digestion. The best strong wheat flour and good yeast are used. Then the dough is handled carefully and is thoroughly baked. Because of its lightness and tenderness, perfect digestibility and its sweet nutty flavor, Goetz's bread is the most nutritious and appetizing of all foods.
