Besides bread may be served in just as many tempting ways.

Nothing is better or easier to digest than milk and bread, or bread to a sted to a golden brown and spread with butter-or bread fried in egg batter.

In fact, there's nothing that can take the place of bread at any meal and there are many things that bread can take the place of.

Goetz's bread is the best, lightest and most wholesome of all foods.

The Men's Store

(Our Motto: NOTHING BUT THE BEST)

on place Furnishing and Shoe Store. Its a different kind of hop keeping we are at and the difference is in the goods and what it counts most in is money-in your pocket.

To carry the better grades of men's apparel and to such quantities of them so as to sell them at prices within reach of the most thrifty has always been the aim of this live store. It has proved a winning policy as is proved by our ever reasing list of satisfied customers.

The clothing standard set by this store has been so high that nothing but the best in material and workmanship will meet with our requirements. In Kuppenheimer Clothes we are sure we have found these two well combined. Come in and let us

silk floss.

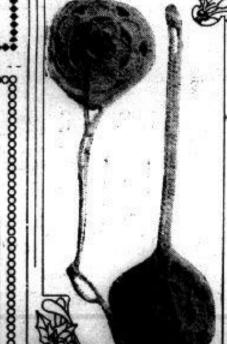

The pair shown in the middle of the picture were made the same way, only trimmed differently. They resettes d ribbon with ribbon pendants were

satin ribbon, with tiny pink rosebuds of chiffon and leaves of twists of green

taffeta ribbon ornamenting them. B deft handling of the chiffon and taffeta ribbon roses and leaves may be barmingly simulated. The purses pictured are unique in the extreme. They are to be crocheted of coarse purse slik. First a chain of twenty stitches is crocheted and joined together. From that the circle is worked to the size of a twenty-five

cent piece, though these purses are

piano selections, Miss Emma Trebbe Michael and Mrs. Doberty of Pine gave vocal numbers, Edward Harring-street and the happy young parents and ten cent pieces. To the crocheted dap, which is made to button over the tiny button attached to one side to hold in the change. The purse is to be slipped into the glove, and another flap is buttoned to the glove button. When milady sallies forth with immaculate kid gloves upon her hands the fingers of them will not be soiled by fumbling of them will not be soiled by fumbling stint.

H. M. Burke made the announcements for the stage entertainment. Bade sor at an inopportune time.

Plan which was inaugurated last year. The postoffice will be open until one o'clock in the afternoon and persons desiring their mails can receive same the stage entertainment. The postoffice will be open until one o'clock in the afternoon and persons desiring their mails can receive same.

Paper Weight of Glass and Shells.

A paper weight that is beautiful is made by artistically arranging tiny seashells and mosses together and putseashells and mosses together and putting them beneath glass. These glasses
can be bought either oval or square,
and they magnify whatever is put be
neath them. Take your glass and cut
a piece of cardboard the size of the
bollow in the glass, and to this cardboard affix as neatly as possible the
tiny sprays of flooss and shell flowers.
Have your variety of the smallest
shells handy, also a candle and bees
wax, and handle your shells with
tweezers. Pick up a little shell with wax, and handle your shells with tweezers. Pick up a little shell with the tweezers and put the coarser end of it in the flame of the candle just long enough for it to get warm; then have your wax made into little round have your wax made into this while watisfactory to all concerned.

England, last summer. The Christmas number is to be profusely illustrated and will be noted as a pictorial review. It will be in great demand and the sales of the edition are likely to be very large here and elsewhere.

The contents bridge, spanning the tial construction. It is not this while the society and the results were highly satisfactory to all concerned.

Permission Given To Transfer
Liquor License as Requested.
Last Monday the county commissioners granted George H. Betts permission to transfer the liquor license which they granted him to Spruce and Birch streets in a building which Mr. Betts recently b ught from the Hassett

owned by Mr. Smith.

Mr. Betts secured a license for 57
Spruce street but Mr. Smith refused to give Mr. Smith refused to give Mr. Betts a renewal of the lease unless the latter paid Mr. Smith a bonus of \$2,000. This Mr. Betts declined to do and made application for the transfer of his license as noted above. Mr. Smith meanwhile applied to the county commissioners for a license for 57
Spruce street but Mr. Smith refused to give Mr. Betts a renewal of the boys hereabouts their first game of snowballing. The supply was not bountiful but such as it was served to inaugurate the sport. The children generally had their sleds out Saturday and Sunday and where opportunity of fered had a limited amount of coasting.

The happy years term of last Friday gave the boys hereabouts their first game of snowballing. The supply was not bountiful but such as it was served to inaugurate the sport. The children generally had their sleds out Saturday and Sunday and where opportunity of fered had a limited amount of coasting.

The happy years to street but Mr. Smith a bonus of \$2,000. This Mr. Betts declined to do and made application for generally had their sleds out Saturday and Sunday and where opportunity of fered had a limited amount of coasting.

The total number of names in the 1913 directory was 6,147 and the total number in the present directory is 7,224 and this shows an increase of 1.077. Names to the number of 1,309 were erased and 2,386 were added in preparing the directory of 1914. This shows an increase of 17.5 per cent. during the time since the

South American countries, the land is bield in such large tracts that proper supervision and cultivation is not practicable.

Value of a Clean City.

When the city has been made clean, it should be kept so. Too few realize the value of keeping lawns and yards free from rubbish. It is worth while for more than one reason—for in stance, for the sake of health, for the hearts are cold, the next they are on family as an an one reason—for in the sake of health, for the hearts are cold, the next they are on family as an one reason—for in the sake of health, for the hearts are cold, the next they are on family as an an one reason—for in the sake of health, for the hearts are cold, the next they are on family as an an one reason—for in the sake of health, for the sake of health, for the hearts are cold, the next they are on family as an one reason—for in the sake of health, for the sake of

THE FARMERS THE CUSTODIAL OF THE NATION'S MORALITY.

Press Essential to Community Building,

By Peter Radford urer National Farmers' Union. The church, the press and the school form a triple alliance of progress that mides the destiny of every community, state and nation. Without them civilization would wither and die and through them life may attain its greatest blessing, power and knowledge. The farmers of this nation are greatly indebted to this social triumvirate for

their uplifting influence, and on behalf of the American plowmen I want to thunk those engaged in these high callings for their able and efficien service, and I shall offer to the pres a series of articles on co-operation between these important influence and the farmers in the hope of it creasing the efficiency of all by mutual understanding and organized of fort. We will take up, first, the rural

The Farmers Are Great Church Build-

The American farmer is the greatest church builder the world has ever known. He is the custodian of the nation's morality; upon his shoulders rests the "ark of the covenant" and he is more responsive to religious influences than any other class of cit The farmers of this nation have

built 120,000 churches at a cost of \$750,000,000 and the annual contribution of the nation toward all church Institutions approximates \$200,000,000 per annum. The farmers of the United States build 22 churches per day. There are 20,000,000 rural church communicants on the farm, and 54 pe cent of the total membership of all churches reside in the country.

The farm is the power-house of all progress and the birthplace of all that noble. The Garden of Eden was in the country and the man who would get close to God must first get close o nature. The Functions of a Rural Church. If the rural churches today are going to render a service which this age

demands, there must be co-operation between the religious, social and economic life of the community.

The church to attain its fullest measure of success must enrich the lives The large plate glass window in F. serves; it must build character; devel-O. Elliott's store, Main and Center, Sts. op thought and increase the efficiency which was recently broken by the gale, of human life. It must serve the sowas restored last Saturday by the cial, business and intellectual, as well empany who carried the plate glass as the spiritual and moral side of life, If religion does not make a man more Miss B. Egan has removed her dress-what good is it? We want a practical making parlors from Birch atreet to religion, one we can live by and farm

Fewer and Better Churches. Blessed is that rural community is recovering from an injury by falling which has but one place of worship. on the slippery sidewaik last week While competition is the life of trade, Thursday while on the way to visit her it is death to the rural church and mother, Mrs. James Wartley of Wells street. TURNING ON GAS.

Starting the Flow Gradually. There are comparatively few women who realize how much gas is wasted when they turn the flow on toits highest point. By experimenting you can ascertain the point at which your burners give the maximum amount of heat and will find out that no matter how much more gas is turned on the flame will remain the same. y turning on the flow of gas carefuluntil the maximum dame is reached and then never turning it beyond that point a great deal of gas can be saved the course of a month. A man who understands the inner

workings of gas meters recently explained the most economical way of ighting a gas burner or jet. He said that when the gas is turned on very slowly until the point of lighting is eached no gas is wasted, but that if he gas flow is turned on to its maximum point at once it causes the meter to jump rapidly forward, and as a consequence it will register in the course of a month a good many feet of gas that have really been wasted. While all the foregoing economies

may sound small, yet when taken to-
