# Goetz's bread is Good bread

Goetz's bread is made from strong spring wheat flour, because strong spring wheat flour makes the best bread. You cannot make good bread from poor weak flour, nor can you make good bread by using poor yeast or handling the dough carelessly or by half baking it.

We use the best strong spring wheat flour obtainable. No guess work about it. We do not take the Miller's word for it. We use the best, because we know. We make sure, by testing the flour in our laboratory. We set a standard what a flour should be, and reject it, if it does not reach that standard. Then we use good yeast, handle the dough carefully and bake it thoroughly. Because of its lightness and tenderness and perfect digestibility, Goetz's bread is the most nutritious of all foods.

There are hundreds of housewives about Hartford and vicinity who have waited anxiously for this great bargain event. The reason for it is we do not make special sale prices on but a few items (many of which you do not want) we offer reduced prices on everything in this large department (barring a very few articles on which we are not allowed to break price.) That gives you choice at big price savings, of refrigerators, ranges, baby carriages, woodenware, enamelware, tinware, hardware, wire goods, lamps etc. etc. The specials told of here are but few of the hundreds that are offered you now.
