INTERESTING ITEMS BOILED DOWN FOR BUSY READERS

Residents of Bigelow street are delighted at the prospect of having electric lights furnished them. They have long waited for the coming of the day. The South Manchester Light, Power & Tramway Company has men at work now extending the lines from Main street west for this purpose. "Everything comes to the man who waits". Let it go at that. Some people have not much faith in the old proverb, however. Isaiah Symington is in Boston on a business trip in relation to the opening of his store tomorrow. He is expected home today. The initiatory degree will be conferred upon a class of candidates this evening by King David Lodge of Odd Fellows. They are to use the new stereopticon which the lodge recently purchased. Refreshments are to be served and a social time enjoyed. The use of the stereopticon is a new feature with King David Lodge. Rev. A. L. Anderson of Worcester has been called to the pastorate of the Swedish Congregational church on Spruce street. He preached in the church here last evening. He is studying the situation and trying to determine what course to pursue regarding the church. Robert J. Smith the local real estate dealer sold a building lot this morning on the west side of Edgerton street to Thomas B. Graham to John Algeo Johnson and Carl A. Anderson. The new owners intend to build on their new purchase. Horatio Goddard is to remove to Pleasant Valley where he intends to make his abode for the present. He recently disposed of his home on East Center street to Wayland Straughan. August Lindell struck his forehead against one of the main beams in O. F. Toops market last Saturday evening and inflicted a gash which had to be sewed. The Cosmopolitan Club held the closing meeting of the season yesterday afternoon at the home of Mrs. Gilbert E. Willis on East Center street. It is expected that the annual strawberry festival of the South Manchester Church Epworth League will take place on the church lawn about the middle of June. There is a great deal of work about preparing for a strawberry festival and it is believed that it might be made a paying proposition to carry it over to the second day. The attraction for tonight and twice tomorrow is entitled "Alladin From Broadway". A prize of \$5.00 in gold is to be given tonight to some couple appearing on the stage in the modern dances. The prize winners are to be indicated by the amount of applause given by the spectators. This contest is open to everyone. Persons so desiring may choose dancing partners from among the girls of the troupe, or may bring in other girls to dance with them. A number of young men about town have notified the management of their desire to participate in the contest. It is quite likely that there will be a large and merry throng present at this evening's performance. The regular meeting of the Manchester Chamber of Commerce took place last evening at the parlors of Orford House No. 3. Routine business was transacted. They voted to change the signs posted along the highways at the entrances to town so that they will read "Manchester Chamber of Commerce" instead of "Manchester Business Mens Association", as at present. At the next meeting the question of changing the meeting night from Thursday to Wednesday evening is to be acted upon. Men are at work this week painting the exterior of the Episcopal homestead at Main and Maple streets. The building is in use temporarily for purposes of the South Manchester Free Library, for which it is well adapted and has become quite popular. John William Johnson of Sunset street has returned from the hospital where he has been for the past three months undergoing treatment for hemorrhoids. He is still very weak and does not expect to be able to return to work for several months more. A game of base ball on the Neco grounds yesterday afternoon between the seniors and juniors of the local high school resulted in a tie at the end of the eighth inning, rain stopping the game with the score 6-6. The seniors were present to cheer the respective teams and were well rewarded for their efforts. These were much more fun dispersed than science displayed. Some of the performers were tremendous freshies at base ball, but this feature was not wholly monopolized by juniors. The seniors claimed some of the honors in the body base ball class. These teams will try another contest next week and it is expected that some preliminary practice may be had in order that the players may learn something about the game.

There are 30 members of the band who plan to attend the New England Provincial conference at Boston, and the expenses will approximate \$100. The public supported the band in a generous manner at their concert. The band is a popular organization and the people of the town are glad of the opportunity to assist them on occasions of this sort.

Representative Hyde Honored

At the closing session of the Connecticut State Legislature at the Capitol in Hartford last Tuesday, Representative William S. Hyde of this place was paid a special compliment for the fair and efficient manner in which he managed the affairs of the Judiciary committee as its chairman during the session just then being brought to a close. Mr. Hyde, the Speaker of the House, complimented Mr. Hyde by stating that he had never seen clearly of all cases stated so clearly, so faithfully and so fairly as had been done by Mr. Hyde. As a further testimonial of the favor in which Mr. Hyde stands with his fellow members, Mr. King of Fairfield, on behalf of his fellow members, presented Mr. Hyde with a first gold watch, and further voiced the approval of the members of the House. Mr. Hyde accepted the gift with thanks and expressed the hope that the best of his fellow legislators might be returned as members of the next House two years hence.

Large Flower Garden

The proprietors of the Bon Ton Flower Shop on Main street here are planning a large flower garden at the rear of their attractive store. They have approximately a quarter acre of land which is to be used for the very practical purpose of growing flowers for their flower shop and thus supplying the trade with these delightful accessories fresh from the garden. They have already planted 5,000 asters, 5,000 gladioli, innumerable sweet peas, petunias and other small flowering plants which will add their quota to the beautiful spectacle which the garden is sure to present in the course of time. Flowering plants will be developed there as they become due in the regular course of the season and the public can have them at first hands. It is the purpose of the Bon Ton Flower Shop proprietors, in so far as possible, to grow many of the flowering plants which they sell on their own grounds in this place.

Assessors At Work The board of assessors started the revaluation work this week and have been making a tour of the outlying districts. In the suburbs the assessors find it necessary to measure every acre of land. It is taking considerable time. After the work can be finished in the outskirts the assessors will work towards the center of the town and here their work will be more amplified as they will have the use of several of the street maps in the engineering department of the town.

Child Died From Burns

While playing about the kitchen last Saturday morning, Russell, the three years old son of Joseph and Mrs. Kennebec of Holliston fell into a pan of boiling water and was badly scalded about the lower parts of the body and arms. The little fellow was hurried to the Hartford hospital where everything was done to ease his suffering and try to bring him through the accident with his life, but the efforts were unavailing and he died last Tuesday afternoon. The burial took place in Hartford Wednesday afternoon. The young parents have the sympathy of their neighbors in their sad bereavement and have three other young children, all girls.

Auction Sale

Many persons heretofore have invested their money in building lots at the seashore and are well pleased with same. This is especially true about Saybrook Manor Extension at Saybrook on the Sound. There are quite a considerable number of South Manchester people who own summer cottages there now, and also many others who go there to spend their summer vacations. It will be of interest to all such persons to learn that there is to be an auction sale of building lots there Saturday, May 29, and Monday, May 31, beginning each day at two o'clock in the afternoon. There will also be a free concert on the grounds Sunday, May 30, starting at two o'clock in the afternoon. Robert M. Reid of this place is to be the auctioneer. There are 31 lots to be sold and 150 persons to give away free. Some of the advantages of owning a building lot at Saybrook Manor Extension are pointed out in the advertisement appearing in The News today.—Adv.

Sidewalk Work

The J. C. Connor Company are pushing the sidewalk work ahead in good shape and have finished the stretch on the west side of Main street between Court and the Forest, and also the stretch on the south side of Park street between the walk of George W. Finlay and the junction of Main street. The curb has been laid on Russell street, both sides east of the "dry brook" and the sidewalk men are busy laying the cement for the walk on the south side of the street. Curbing has been distributed for the Birch street work and same is being laid on the south side of the street. Before curbing is set on the north side of the street there will be several trees that will have to come down. Tree Warden H. O. Bowers has promised to felling trees as soon as it becomes necessary.

In order to get the building on Mrs. Sire's land it will be necessary to go over land of Fred Behrend and Mrs. O'Gorman. Circus Not Satisfactory

The Tenas circus gave two performances on the Hollister lot Wednesday. Attendance was far below the usual standard and many who were there were not at all pleased. Music was omitted at the afternoon show. The parade was the best feature of the event. The evening exhibition was cut short and this displeased many. But few of the acts that were given pleased.

Busy at Highlands

Case Brothers are pushing construction work forward with all possible dispatch at their Highland Park paper mills. As soon as parts of the mill are completed work is being started at once. The office building which is now under way is to be a two-story structure. The office which was destroyed by fire recently was but one story high, but it was long felt to be inadequate to the growing requirements of the firm. There are plenty of orders ahead with Case Brothers to keep their new mills at the Highlands going at full capacity as soon as they can be made ready for use. The European war has temporarily suspended the evil effects of the Democratic tariff and consequently trade is not languishing as it otherwise would have been.

Scandia's Anniversary

The fifteenth anniversary of Scandia Lodge is to take place at Tanker Hall Saturday evening, May 29. A feature of the evening will be a drill by the young women's degree team. A musical and literary program will be presented. It is expected that some of the supreme officers may attend and give short addresses. The festivities of the evening will conclude with dancing. A very enjoyable event is anticipated.

Strawberry Festival

The annual strawberry festival of the South Methodist church Epworth League is to take place on the church lawn Wednesday evening, May 26. Necessary committees have been appointed to carry on the work and endeavor to make the festival the finest success which it has been to these many years.
