Rev. A. L. Anderson, the newly appointed minister will preach at the Swedish Lutheran church next Sunday.

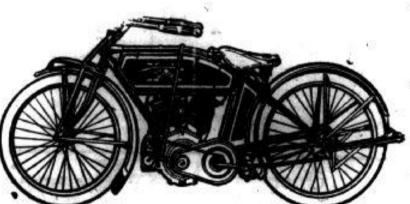

Food poisoning according to the ablest physicians and health experts, is the cause of nine-tenths of the diseases that handicap the human race. The walls of the small intestines are lined with mill ions of small veins which take up nourishment from the digested food. From these veins this nourishment is poured as a part of the blood into the heart and distributes though the arteries to every part

of the body.

Keep your stomach healthy by eating more Goetz's bread instead of so much meat and other heavy foods. You get all the nourishment the body requires without loading and clogging the system with indigestible and poisonous food.

J. H. Quinn & Co., Druggists

Six Years Prohibition

THAT'S what this state has suffered. The demand for intoxicating liquors as a beverage has not decreased but has greatly increased. Where there is a demand for a thing it is not hard to find means of supply. It is common knowledge that under prohibition the saloon has been replaced by the "drug store," "the hole in the wall," the "blind tiger," the "boot-legger" and the "blind pig".

Temperance means drinking moderately of healthful beer - not teetotalism. Temperance is the platform upon which I campaign-temperance and the consequen restoration to our citizens of their inalienable right to drink moderately.

EAT MORE BREAD.

Bread is the one food which perfectly combines in itself all the elements which give strength to the body. It is, and always has been, the chief food of the earth's hardiest people.

None of the breakfast foods, health foods or other fad foods can equal bread in nourishment. Nor can meat or other

heavy foods.

Because of its lightness and tenderness, perfect digestibility and its sweet nutty flavor, Goetz's bread is the most nutritious and appetizing of all foods.

Eat more Goetz's bread. Makes the young strong and the strong healthier.
