A Narrative Fact Story Based Authoritatively on the Inexorable Mathematics of War-What Can Be Done to Oppose an Invading Army With Our Actual Present Resources In Regulars, Trained Militia, Untrained Citizens, Coast Defenses, Field Artillery, and All Other Weapons of Defense.

Foreword by the Author

THE only theoretical assumption in this series of articles is that the United States are attacked. Every other incident is a straight statement of what absolutely must happen in such a case, with our military establishment remaining what it is today. In the words of certain foremost military executives of the United States Army, who have cognizance of these articles, it is "The Cold Truth."

Nothing is overstated or understated. Every reference to military efficiency, supplies of cannon, ammunition and other implements, numbers of men in the various military units, and so forth, is based conscientiously on the actual resources shown today in the official records of the military establishments of the United States.

The description of the preparatory mobilization, assemblage and management of our regular army and militis has been approved as technically correct.

The description of the procedure of our small army in the presence of a large enemy army that has successfully landed is not a piece of "armchair strategy." It is what a numerically weaker force must inevitably do in modern war conditions.

This story, which will appear in weekly installments in the South Manchester News, is not a plea for militarism. It is not a plea for anything. It is intended simply to tell in logical sequence facts that do exist. It is the answer of military experts, who long have faced these facts apprehensively. to the question, "CAN WE DEFEND OURSELVES?"

Every American Should Know "The Cold Truth" About This Nation of Ours--- Read the Opening Chapters of

"The Invasion of America" in The News Next Friday.

Survivar is below leid on both sides of Florence street, Rolston tract, from 10 Orchard St. So. Manchester Curbing is being laid on both sides Lawrence A. Howard of Hartford. Telephone 245--3

Curbing is being laid on both sides of Birch street and a concrete culvert is being placed across the dry brook there. Concrete sidewalks are to be laid on the south side of the street. They are very much needed. Birch street has long suffered for want of sidewalks and the deliverance is hailed with joy by residents there as well as by all others who have to pass frequently through the street.

Lawrence A. Howard of Hartford.

Herbert Post of Westport was the guest of his brother-in-law. Arthur D. Hale, over Memorial Day. Mr. Post occupies one of the very attractive homes in beautiful Westport. Goetz's bread is Good bread

Goetz's bread is made from strong spring wheat flour, because strong spring wheat flour makes the best bread. You cannot make good bread from poor weak flour, nor can you make good bread by using poor yeast or handling the dough carelessly or by half baking it.

We use the best strong spring wheat flour obtainable. No guess work about it. We do not take the Miller's word for it. We use the best, because we know. We make sure, by testing the flour in our laboratory. We set a standard what a flour should be, and reject it. if it does not reach that standard. Then we use good yeast, handle the dough carefully and bake it thoroughly. Because of its lightness and tenderness and perfect digestibility, Goetz's bread is the most nutritious of all foods.

SOUTH MANCHESTER NEWS PRIDAY JUNE 11, 1915

Here are the facts responsible for the sale, but actually seeing the suits will be more convincing and will change the mind of anybody who might think these garments the same as the stuff usually offered at seven-fifty. Four months ago our factory saw that it was a good time to look for bargains in woolens. Business was practically at a standstill, and mills were having their troubles trying to dispose of their goods on hand. When the European controversy brokeout all mills and factories were in the midst of manufacturing their spring and summer lines. They had started and it was too late to stop. So they took a chance that conditions would not be as bad as was anticipated, but they were disappointed, and in order to unload had to take almost any prices that were offered. We bought enough materials at half prices and less for

3,500 Guaranteed \$15 wood Suits for Men and Young Men to be sold in our SIX STORES and here they are at

OUR FACTORY

Has just finished the first lot, and tomorrow the suits go on sale in all our stores, remaining on display until sold. The fabrics are of the qualities that go into the usual \$15 and \$18 suits and the weaves and patterns are all 1915 Spring and Su Emer creations. About a third are \$18 grades; the remainder are \$15 quality - and you get a guarantee to that effect. Your choice at

A SURE SAVING OF \$7.50

And if you are among the first to choose. you may get one of the \$18 grades. But you can close your eyes and pick out a \$15 suit -and be sure of getting a smart, up-to-date, and desirable pattern besides. All sizes and models for men and young men, 31 to 46 including stouts; not a handful of suits reduced as "baits", but a full assortment of new, desirable, and depend-

able garments. THE FABRICS THE MODELS Fifty-three patterns and every new and Eleven new 1915 models; two and threewanted weave cassimeres, cheviots, plain

Goetz's bread is Good bread

Goetz's bread is made from strong spring wheat flour, because strong spring wheat flour makes the best bread. You cannot make good bread from poor weak flour, nor can you make good bread by using poor yeast or handling the dough carelessly or by half baking it.

We use the best strong spring wheat flour obtainable. No guess work about it. We do not take the Miller's word for it. We use the best, because we know We make sure, by testing the flour in our laboratory. We set a standard what a flour should be, and reject it, if it does not reach that standard. Then we use good yeast, handle the dough carefully and bake it thoroughly. Because of its lightness and tenderness and perfect digestibility, Goetz's bread is the most nutritious of all foods.
