

It Is a Story Based Authoritatively on the Inexorable what better now Mathematics of War-What Can Be Done to Oppose an Invading Army With Our Actual Present Resources In Regulars, Trained Militia, Untrained Citizens, Coast Defenses, Field Artillery and All Other Weapons of Defense.

The only theoretical assumption is that the United States is attacked. Every other incident is a straight statement of what absolutely must happen in such a case, with our military establishment remaining what it is today.

## Goetz's bread is Good bread

Goetz's bread is made from strong spring wheat flour, because strong spring wheat flour makes the best bread. You cannot make good bread from poor weak flour, nor can you make good bread by using poor yeast or handling the dough carelessly or by half baking it.

We use the best strong spring wheat flour obtainable. No guess work about it. We do not take the Miller's word for it. We use the best, because we know We make sure, by testing the flour in our laboratory. We set a standard what a flour should be, and reject it, if it does not reach that standard. Then we use good yeast, handle the dough carefully and bake it thoroughly. Because of its lightness and tenderness and perfect digestibility, Goetz's bread is the most nutritious of all foods.

Good Health

**Depends on Good Digestion** 

Without good digestion, you get no ben-

efit from the food you eat. Under-baked bread is heavy. Poor weak flours, poor

yeast and careless handling of the dough,

will cause heavy bread. Goetz's bread

will bring good digestion. The best strong

wheat flour and good yeast are used. Then

the dough is handled carefully and is

thoroughly baked. Because of its lightness and tenderness, perfect digestibility

and its sweet nutty flavor, Goetz's bread

is the most nutritious and appetizing of
