By hear of Mary Ann's goat entanglement? It is really an amousing story. But, as Fredie has expressed his appreciation of our narrating stories in conjunction with our thesis refuting the advisability of extending the municipal franchise to the "mere cyphers" and "quivering echoes" of humanity, as antipathetical and hence, extremely exasperating to his delicate constitution as a feminine suffragette of "tender age", we will magnanimously refrain from reharing the delightful and highly entertaining episode of Mary Ann's goat, according to and in respect of Fredie's magniful quient suggestion.

Notice when, woman becomes a voter she will be removed from all children; for all children not heave when all children; for all children not heave when woman is removed from this class you will have to remove and the will be removed from the class of idiots. Fredie's magnifuguent suggestion.

As irrefulable authority to substantiate his idiotical contention that names have no place in grammar, Fredie huris at our intellect one Stanislous Kerajhldtspmerzi as having had a controversity with Friederich Hansgrossmanl about the matter, the former manil about the latter that names really in the condition. One reason why property are taxed. One reason why property owned by women is taxed, is to save the United States from bank-ruptery.
