PLAYGROUNDS OPENED

Officially After Much Delay and Disappointment... After much disappointment and many delays the public playgrounds were officially opened Monday evening.

A busy assembly of the members of the Salvation Army Brass Band was set in progress and as soon as they could be brought in line a procession was formed at the Citadel.

James Trotter is planning to cut a street through from Lilly to Washington, which he has surveyed, and has made an offer to the town to supply material for making the fill at Highlow Brook from the street through from Lilly to Washington.

Sage Sayings

Don't be the man who put it in it. Building good houses builds a good town.

Save a little money and save a lot of worry. Good roads lead not only to town, but to money.

Be a live one and the town will never be a dead one. A nice front porch has prevented many an old maid.

Why should the town muzzle dogs and not hucksters? When some one plans to help the town, the best plan is to help the plan.

A town is like a perambulator; it isn't much good unless it is pushed. Don't spend all your time telling what you would do if you had some money.

Be like a ball player. The thing he is always working for is home. Be one of the leaders of the town, if you can; but, anyway, keep up.

If you find a cow can't laugh, let her see somebody else who can. Don't be a grinch. Everybody in this town wishes you well, even the doctor.

Let's not be trying to stop something all the time. Let's start something. A good town will do more to keep the boys at home than good advice.

A town is like a girl. It's everlastingly a little faster up than it is down. Opportunity knocks once at every man's door; better be at home when the lady calls.

The world grows every man a living, but it grows every man a living, but it grows every man a living, but it grows every man a living.

Don't look for suit maps; the hand maps are the ones that have the finger in them. Don't spend so much time talking that you haven't time to talk business.

If you would like to have somebody working for you, get a little money in the bank. It's no use to have a pig to throw a little money into it. Same way with a town.

If you spend all that you earn, some other fellow is banking your money. Many a young man goes away to seek his fortune when Fortune is seeking him at home.

Plaster your house and everybody will follow your example. Lath and the world talks with you. You're not to be a citizen in order to vote; but you're not to be a good deal more than vote to be a citizen.

If you will consider the men in this town who are well off, you will find that most of them made their money here.

The big things were not all done in the big towns. The greatest poem in the English language was written in a country churchyard. There is only one better man than the man who gets behind and pushes, (and that's the man who gets behind and pushes.)

There is only one better man than the man who gets behind and pushes, (and that's the man who gets behind and pushes.)

There is only one better man than the man who gets behind and pushes, (and that's the man who gets behind and pushes.)

Keith Furniture Company throughout the year and the change of scene and occupation will bring him back to renew his labors with greater energy and vim.

Miss Esther Madden of Holyoke has been the guest of the Misses Dewey of Main street but has returned to her home in the Paper City. She was charmingly entertained while in South Manchester and bears with her delightful memories of her stay.

Two weeks recreation at Pleasant View is the sentence imposed upon Otto and Mrs. Nelson of Center street. They meekly submitted to the decision of the court and are endeavoring to make the most of their opportunities for having a delightful outing and period of rest and recreation.

Arthur and Mrs. Sault of Beech street are down at Block Island for a period of two weeks. The wild winds that blow so delightfully there will keep them in mind of the fact that they are at the sea shore while at that good old resort.

George W. Finlay and family are spending two weeks at Saybrook where they are free from the humdrum of the more populous and noisy sea shore resorts. Saybrook is a place for rest and refreshment and a soothing of the nerves. There are no cabarets there.

George Veitch and Samuel Turkington have returned after enjoying an outing of two weeks at Block Island. Their countenances show the effects of the sunshine and the salt air. They are ruddy, rugged and in the little for the resumption of business.

MAIN STREET GRADE

NEXT LARGE PROBLEM TO BE SOLVED BY BOARD OF SELECTMEN

Many Complications Involved—Much Adverse Criticism Because of Delay—Determined To Give Public Suitable Sidewalks On Main Street

The board of selectmen at their meeting Monday evening took important action on the proposal for sidewalk on the east side of Main street between Birch and Center where no permanent walks or curb exist at the present time. The matter has been hanging fire for many months owing to the possible objection by some of the property owners who made it plain that they would ask the town for damages or would want their houses raised to the grade of the proposed walk if built. The selectmen have held many hearings and consultations with the several parties at interest and the question was brought forward at Monday evening's meeting to find out what the cost of raising some of the houses would be, together with the necessary filling.

Secretary Hohenthal rather took the "bull by the horns" when he stated he was not particularly interested in the cost of filling lawns or raising houses at this time, but he did think it was high time that the board as a whole should take some decided stand on the question of ordering in the proposed walk, and not be held up to ridicule by many of the taxpayers of the town because individuals seemingly stood in the way of the improvement.

Selectman Rogers inquired if the board had "the nerve" to order the proposed improvement and in the discussion which followed practically all members of the board made it clear that they should issue the order for the proposed walks and let the complications be fixed as they arose and not have the townspeople travel over a gravel walk in the center of the town because some property owners might feel that they were damaged by the building of a permanent walk.

On Selectman Rogers' motion, which was seconded readily, it was voted to order a proposed walk and curb on the east side of Main street between Birch and Center where no permanent walks exist at the present time and give the interested property owners an opportunity to be heard thereon at a hearing to be held at the selectmen's office in the Hall of Records at eight o'clock Monday evening, August 30.

While it is true that this and previous boards of selectmen have been publicly criticized because they did not go ahead and order the sidewalks constructed on the east side of Main street, this job presents many complications not found in other places of work in town. For instance, the question of a proper grade between Birch street and Center will have to be determined. A fixed grade already exists between these points, and the grade was established in a legal manner, but this only adds to the complications as the grade as laid down is not the proper or true grade for that section.

The selectmen have known this for some time as have the property owners at interest, and the latter have rather fallen back on the present grade as one of their arguments why a different grade should not be established. Many of the properties on the east side of Main street will be considerably below the grade as proposed and it will be an expensive proposition for both the town and the property owners to have the walks installed and the grade reestablished, but the selectmen feel that public interest demands that it be done as soon as possible and they intend to take the initial steps at the hearing August 30th.

C. E. and H. B. Hoese who own property on the east side of Main street north of Birch have made a proposition to the town that they would be satisfied with a new walk and curb laid at a grade to be determined by the selectmen, provided their houses be raised correspondingly and their buildings left in the same relative position as to the grade of the sidewalk. While the selectmen did not at any time think this an unreasonable offer owing to the proposed change in grade they have hesitated about accepting it, owing to the fact that it might establish a precedent for other property because of fall back upon and in later years the changing of grade lines and construction of sidewalks might prove a very costly proposition. If the plan was agreed upon with the Hoeses, the selectmen would be duty bound to treat other properties further north with like consideration.

The highway department have had figures compiled as to the estimate cost of raising all the houses from Birch street to Center that would need to be raised and were to have estimates prepared as to the cost of the proposed sidewalk.

has precluded any consideration of these estimates at this time and they were not asked for at Monday evening's session. The outcome of the hearing of August 30 will be awaited with more than passing interest and the findings of the selectmen after the hearing will also be eagerly looked forward to.

Food poisoning according to the ablest physicians and health experts, is the cause of nine-tenths of the diseases that handicap the human race. The walls of the small intestines are lined with millions of small veins which take up nourishment from the digested food. From these veins this nourishment is poured as a part of the blood into the heart and distributes though the arteries to every part of the body. Keep your stomach healthy by eating more Goetz's bread instead of so much meat and other heavy foods. You get all the nourishment the body requires without loading and clogging the system with indigestible and poisonous food. GOETZ BREAD COMPANY

The grounds were brilliantly illuminated with Japanese lanterns and torches of various colors. Later in the evening the young couples went to the home of Miss Annie McCarthy where selections were given on the piano by Miss Helen McCarthy accompanied by violin, Miss Loretta Stapleton; and cornet, Harry Miner. Vocal solos were given by Walter Chassey and Frank Hillery. A toe dance by Miss Vivian Smith of Waterbury was one of the treats of the evening. Refreshments were served and the rest of the evening was spent in playing games and tricks of all sorts.
